Vision Statement

To be a Centre of excellence in production and management of quality statistics

Mission Statement

To develop, provide and promote quality statistical information for evidence-based decision-making.

Core Values

- **Professionalism:** Strictly abides by professional considerations on the methods, standards and procedures for statistical production.
- **Confidentiality:** Guarantee confidentiality of data providers as provided in the Statistics Act 2006
- **Collaboration:**Collaborate with stakeholders so as to enhance the quality of statistical information
- **Teamwork:** To embrace teamwork as the hallmark of our success
- **Customer focus:** Commitment to meet the needs of our customers and always focus on customer satisfaction.
- **Accountability and Transparency:** Conduct business and lend services to stakeholders in a transparent and accountable manner.
- **Efficiency and effectiveness:** Promote high productivity, competence and usefulness of resources at the national and county level.
- **Innovation and Creativity:** Committed to innovation, invention, creativity and resourcefulness in service delivery.

Foreword

The implementation of the constitution created increased demand for comprehensive and disaggregated statistical information to inform evidence based policy formulation, budgeting process, monitoring and evaluation of various programs both at the county and national levels. It is for this reason that the Kenya National Bureau of Statistics, being the principal agency of the Government for coordinating and supervising all official statistical programmes undertaken within the National Statistical System, has undertaken to produce this County Statistical Abstract (CSA) annually. The information published in this Abstract will address data gaps at the county level to supplement other periodic surveys conducted by the Bureau that provide useful indicators for various sectors.

The 2015 County Statistical Abstract is the first of its kind for Nyeri County and will be subsequently, produced annually. This Abstract will be a single source of information covering various sectors of the economy at the county level. The Abstract has substantially benefited from the administrative data generated in the county. In addition, some indicators were compiled from various survey reports and Population and Housing Censuses.

This Abstract will provide a reliable source of information for planning, policy formulation, monitoring and evaluation processes. The data contained in this Abstract will therefore enable data users to gauge the performance of the county.

There is therefore need for collaborative effort between the National and County Governments in order to improve on the quality of statistical information, enhance dissemination, and accessibility of statistics at the county level.

Saitoti Torome
Principal Secretary
State Department of Planning and Statistics
Ministry of Devolution and Planning

Acknowledgement

The successful production of Nyeri County Statistical Abstract has been made possible through joint effort of producers and users of statistics. This collaboration is expected to improve timely compilation of reliable data from county data producers that will meet the expectations of both the users and suppliers in subsequent County Statistical Abstracts.

In this regard, therefore, I wish to express my gratitude to the Kenya National Bureau of Statistics Board of Directors for providing policy direction that has culminated in the preparation of this first County Statistical Abstract.

My sincere gratitude goes to H.E. Nderitu Gachagua, the Governor of Nyeri County for providing his support during the entire process in the production of this publication. I also want to thank the County Chief Officers, Directors and their staff who participated in the process of production of this abstract.

Special thanks goes to the County Commissioner for playing a pivotal role in coordinating the data collection process. I appreciate the contribution of departmental heads who provided timely data and participated in the validation of information contained in this publication.

I acknowledge the contribution of the Nyeri County Statistical Officer and the County Working Committee for their tireless effort in the successful compilation of data and production of this Statistical Abstract. I also thank all KNBS Directors, Editorial teams and County Statistical Abstract Secretariat at the headquarters for successfully planning and coordinating various departments in compiling and producing the 2015 County statistical abstract.

Finally, I wish to reiterate the Bureau's commitment in strengthening linkages with county stakeholders to improve the quality of future Statistical Abstracts.

Zachary Mwangi

Symbols

In this publication, the following symbols are used:-

"_" Means nil or negligible (less than half the final digit shown)

".." Means figures not available

"I" between consecutive figures means the compilation of the figures was done on a different basis and are not strictly comparable. Footnote indicate the nature of the difference.

Rounding of figures: - If figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy in totals.

Introduction

This County Statistical Abstract is a single source of information that provides a two year data series. It contains a comprehensive set of indicators that are useful for planning, monitoring and evaluation as well as providing useful information for research. The preparation of this Abstract has been coordinated by the Kenya National Bureau of Statistics in collaboration with the County Government, National Government Departments and other stakeholders represented in the county. The information was compiled mainly from the administrative records and partly from the recent surveys and censuses. The source of the statistical data is shown under each table.

The publication aims at providing statistical information on economic, demographic and social dimensions in Nyeri County. Being the first publication of its kind, its content may not meet detailed requirements of all users. In such a case, additional information, whenever available, will be supplied by the Bureau on request. All data request relating to statistical matters should be addressed to Director General, Kenya National Bureau of Statistics.

Structure of County Governments

The current Constitution was promulgated on 27th August 2010 providing for a two tier government structure with one National Government and forty seven (47) devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments as contained in the Fourth Schedule (Constitution 2010) include:- Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Cooperative Development; Land, Housing, Physical planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

The County Assembly

The County Assembly is vested with the legislative authority of county laws, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the county, nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is an ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Nyeri County is as follows:-

Speaker (ex-officio)	1
Elected MCAs	30
Nominated MCAs	17
Total	**48**

The County Executive

The Executive arm of the County Governments comprise of the Governor, the Deputy Governor, the County Executive Committee members and the County Public Service. The County Executive Committee members are appointed by the Governor with the approval of the County Assembly. The Governor and Deputy Governor are elected by registered voters in the county in a general election, for not more than two terms of five years each.

The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. Each county is run by an executive committee, consisting of:

- Governor, elected directly by the people
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly
- County Secretary nominated by the Governor and approved by the county assembly, who will double up as head of the county public service, and secretary to the county executive committee

For Nyeri County, the County Executive Committee comprises of:-

The Governor	1
The Deputy Governor	1
The County Secretary	1
The CEC Members	9
Total	**12**

Overview of Nyeri County

Nyeri County is one of the 47 counties in Kenya and is located in the central region of the country. It covers an area of 3,337.2 Km^2 and is situated between longitudes 36^0 38" and 37^0 20" East and between the equator and latitude 0^0 38" South. It borders Laikipia County to the North, Kirinyaga County to the East, Murang'a County to the South, Nyandarua County to the West and Meru County to the Northeast.

The main economic activities in the county include crop farming, dairy farming, tourism and trade. The main food crops grown in the county are maize, beans, Irish potatoes and vegetables whereas the major cash crops are coffee, tea, horticulture and cut flowers. The main livestock breeds are dairy cattle, poultry, pigs, goats, donkeys, and sheep. The county's main attraction centres are Mount Kenya and the Aberdare National Park and Baden Powell Historical Gardens. The trading activities are highest in the main urban centers in the including; Nyeri, Karatina, Othaya, Naromoru, Endarasha and Mweiga.

The main physical features of the county are Mount Kenya (5,199m) to the East and the Aberdare ranges (3,999m) to the West. The western part of the county is flat, whereas further southwards, steep ridges and valleys, with a few hills such as Karima, Nyeri and Tumutumu, characterize the topography. These hills affect the pattern of rainfall, thus influencing the mode of agricultural production in some localized areas.

The major rivers found in the county are Sagana, Ragati, Chania, Gura and Nairobi. If well tapped, these rivers and the numerous streams can make the county to be self-sufficient in surface and sub-surface water resources for domestic, agriculture and industrial development.

The county has two forest eco-systems, namely Aberdare and Mt. Kenya. The county also has other isolated forested hills under the management of County Government such as Karima, Nyeri and Tumutumu. Apart from being a source of traditional forest products such as timber, fuel, fodder, herbal medicine among others, these forests play vital roles which include; maintenance of water cycle, wildlife habitat and are also repository of a wide range of biodiversity. Rainfall intensity and temperature conditions influence agricultural productivity. The county experiences equatorial rainfall due to its location within the highland zone of Kenya. The long rains occur from March to May while the short rains come in October to December. The annual rainfall ranges between 1,200mm-1,600mm during the long rains and 500mm-1,500mm during the short rains. In terms of altitude, the county lies between 3,076 meters and 5,199 meters above sea level and registers monthly mean temperature ranging from 12.8ºC to 20.8ºC.

Vision

A prosperous people in a secure, healthy, environment with a high quality life.

Mission

To harness the hard working culture of the people of Nyeri and unlock their potential to achieve the highest standards of political, social and economic life by creating an enabling environment that promotes sustainable development.

Administrative and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions and locations by political units in terms of constituencies and wards.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenya's Constitution and specified in the First Schedule of the Constitution;

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincide with the Constituency area.

County Assembly: means an assembly constituted in the county in accordance with Article 177 of the Constitution;

Constituency: Is an area demarcated as stated under Article 89 of the Kenya's Constitution for the purpose electing a member of the National Assembly. There are 290 constituencies in Kenya

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing a the member of the County Assembly. There are 1450 wards in Kenya

Land and Climate

This section contains data on Land Area, topography and climate.

Notes and Definitions

Topography: refers to the geographic features of a location. The features includes the mountains, peaks valleys etc.

Climate: The weather conditions prevailing in an area in general or over a long period or a region with particular prevailing weather conditions. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is for a weather station within each sub county.

Land Area: Refers to an area in square kilometres of the land-based portions of standard geographic areas.

Temperature: Refers to a measure of the warmth or coldness of a place with reference to some standard value.

Population and Vital Statistics

This section provides information on population and vital statistics by census year, sex and registration of births and deaths by place of occurrence in Nyeri County.

Notes and Definitions

Density: Refers number of persons per square kilometer, obtained by dividing the enumerated persons in a given area by the size of the area expressed in KM^2

Area: Is the extent of a surface enclosed within a specified boundary, expressed in square kilometers. This excludes areas covered by water.

Birth: Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes fetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

Place of Occurrence: It is where birth or death occurs.

Coverage rate: Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events'.

Births or Deaths Registered at Health Facilities: Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

Births or Deaths Registered outside Health Facilities: Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

Selected Age Groups: Refer to special age groups as follows:

- Children under one year
- ECDE (3-5 years),
- Primary (6-13 years)
- Secondary (14-17 years)
- Youth (18-35 years),
- Children (under 18 years),
- Voters or Adults (18+ years),
- Women of reproductive age (15-49 years),
- Active Labour Force (15-64 years)
- Elderly (65+ years).

Population

Trade and Commerce

Introduction

The section provides data on the number of trading centers and licensed business. Information on trade includes type of business outlets in the county trading centers.

Notes and Definitions

Data presented comprise of registered businesses, permits paid and penalties

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Data presented comprise of registered businesses, permits paid and penalties.

Table 5.1: Revenue Collection Single Business Permits

Type	2014*
Number of Registered Business	56,786
Permits Paid	91,089,689

".." data not available

Agriculture

This section provides information on agro–ecological zones, land potential by selected sub-counties, type of crops grown, the total area cropped, amount produced and their value. It also gives information on average retail prices for fertilizer and acreage under irrigation by type of crop grown.

Notes and Definitions

High potential: Clay-loam soil with sufficient manure and good drainage

Medium potential: Sandy-loam soil with high drainage

Low potential: Sandy soil with very high drainage and low manure content

Agro-Ecological Zones (AEZ): Refers to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.

Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data

Agricultural Area: refer to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested

Arable land: Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for "Arable land" are not meant to indicate the amount of land that is potentially cultivable.

Crop production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the county. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Table 6.1: Agro-Ecological Zones for the Sub-County, 2014

Zone	Sub county	Enterprises

Livestock

This section provides data on livestock population, production and animals slaughtered by Sub County. It also provides data on livestock products.

Notes and Definitions

Livestock Primary Products: include products from live and slaughtered animals. Products from slaughtered animals include meat, offals, raw fats, fresh hides and skins. Products from live animals include milk, eggs, honey, beeswax and fibres of animal origin.

Table 7.1: Number, Quantity and Value of Animals Slaughtered by Type, 2014*

Fisheries

Information on the number of fish ponds is covered in this section.

Notes and Definitions

Marine Fish: refers to fish captured from the Indian Ocean

Inland Fish: refers to fish captured from the inland water surface bodies e,g Lakes, rivers etc.

Culture fish: refers to fish captured from the ponds

Table 8.1: Fish Ponds by Sub County, 2013-2014

Cooperative

The section has data on the number of cooperatives by type, membership, share capital, turnover and sub county. The number of Savings and Credit Cooperatives (SACCOs) by Sub County

Notes and Definitions

SACCOs: These are cooperatives, which provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Share Capital: Refers to the total of cooperatives' shares that are held by members. It is withdrawn only when one ceases to be a member of the cooperative.

Table 9.1: SACCOs by Type, Status, Membership and Turnover 2013-2014

	2013			2014*

Forestry

The section has data on number and size of gazetted forests and forest production

Notes and Definitions

Gazetted Forest: Any forest area, or woodland or any part thereof, declared by notice in the Kenya Gazette Supplements, and which has a particular environmental, cultural, scientific, or other special significance, to be a nature reserve for the purpose of preserving its biodiversity and natural thereof.

Table 10.1: Number and Size of Gazetted Forests, 2013-2014

Energy

Electricity connections for domestic use, small commercial, industrial use and street lighting and the average monthly pump prices are presented in this section

Notes and Definitions

Domestic use: These are domestic customers. They are Low voltage level (240 /415kV) users

Small commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users

Industrial use: These are large commercial and industrial customers. They are High Voltage level (66 & 132 kV) users

Street lighting: They are Low voltage level (240 /415kV) users

Pump prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Table 12.1: Electricity Connection by type of Consumer, 2013-2014

Money and Banking

This section presents data on the number of financial institutions.

Notes and Definitions

Banks: These are organizations where people and businesses can invest or borrow money and exchange foreign currency.

Insurance Companies : A business that provides coverage, in the form of compensation resulting from loss, damages, injury, treatment or hardship in exchange for premium payments

Micro Finance institutions: These are organizations that offer financial services to low income populations. They include deposit and non-deposit taking ones

Forex Bureau: An over-the-counter market where buyers and sellers conduct foreign exchange transactions.

Education

Information on education enrolment by class for pre-primary (ECDE), Primary, Secondary, Technical, middle level colleges and University are given in this section. The indicators that have been computed are Gross Enrolment Rates and the Net Enrolments, which provide information on access rate.

Notes and Definitions

Schools maintained by the National Government are classified as "Public" whereas those, which are not, supported Government are classified as "Private" schools.

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

Adult and Continuing Learning: This is non-formal education.

Public Health

This section provides statistics on health facilities by type and ownership, hospital beds and cots, outpatient morbidity for persons who are under five years old and those who are aged five years and above, registered medical personnel, NHIF and medical students.

Notes and Definitions

Kenya's health system is broadly categorized into six levels of care, namely, Level 1 comprising of the community and outreach level of care, Level 2 representing the dispensaries, Level 3 of health centers and clinics, Level 4 of the district hospitals, Level 5 of the County hospitals, and Level 6 of tertiary national referral hospitals

Health Facility: This is a defined a health service delivery structure from where services are provided e.g. Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and Non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County Hospitals: Are hospitals which are the coordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County Hospitals. These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals

Level 6 - National Referral Hospitals: Refers to National referral hospitals offering very specialized services. They are Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathare Mental Hospital and Nairobi Spinal Injury.

Public Finance

This section provides details of the County government's revenue and expenditure. This includes funds transferred from the county revenue fund to the county government, CDF allocation by constituency, and CDF beneficiaries in schools and colleges.

Notes and Definitions

Equalization Funds: These are Funds established under the Article 204 of the constitution in which shall be paid one half per cent of all the revenue collected by the national government each year calculated on the basis of the most recent audited accounts of revenue received, as approved by the National Assembly.

Wholesale, Retail Prices and Consumer Expenditure

This section presents statistics relating to retail and wholesale commodity prices for selected commodities in the County.

Notes and Definitions

Retail and wholesale prices are collected every week from the retail and wholesale markets, respectively, to determine the variation in both retail and wholesale prices. Weighing scales are used to measure the quantity of the commodity to convert non-standard units to standard units.

Table 19.1: Wholesale Price of Some Selected Food Commodities, January - December, 2014*

Commodity	Selling Unit	Average Price (KSh)

APPENDIX I

1.1 Key Demographic, Health and Socio-Economic Indicators

Demographic and Health Indicators	National	County
Crude Birth Rate	38.4	36.8
Growth Rate	28.0	24.2
Crude Death Rate	10.4	12.6
Total Fertility Rate	3.9	2.7
Maternal Mortality Rate	495	318
Child Mortality Rate	79	50
Current use of any method of family planning(of currently married women aged 15-49)	58%	73%
Current use of any modern method of family planning(of currently married women aged 15-49)	53%	67 %
Pregnant women who received antenatal care from a skilled provider	96%	97%
Pregnant women who received 4 +ANC visits	58%	61%
Births assisted by a skilled provider		
Birth delivered in a health facility	61%	89%
Children 12-23 months fully vaccinated	68%	78%
Children under 5 years who are stunted (moderate or severe)	26%	15%
Children under 5 years who are wasted (moderate or severe)	4%	2%
Children under 5 years who are underweight	11%	3%
Children under 5 years who are overweight or obese	4%	6%
Households with at least one insecticide-treated net (ITN)	59%	20%
Households with at least one ITN for every 2 persons in the HH(universal coverage)	34%	12%
Children under 5 who slept under an ITN the night before the survey	54%	17%
pregnant women who slept under an ITN the night before the survey	51%	14%
Pregnant women who received 3 + doses of SP/Fansidar to prevent	10%	2%
malaria during pregnancy, at least one dose was received during an ANC visit (IPTp)		
Children under 5 with fever in the 2 weeks before the survey	24	14
Among children under age 5 with fever ,percentage who took any ACT	23%	0
Women 15-49 who know that HIV can be prevented by using condoms and limiting sex to one uninfected partner	77%	77%
Men 15-49 who know that HIV can be prevented by using condoms and limiting sex to one uninfected partner	85%	85%

Demographic and Health Indicators	National	County
Women 15-49 who have been tested for HIV in the past 12 months and received the results of the last test	53%	55%
Men 15-49 who have been tested for HIV in the past 12 months and received the results of the last test	46%	47%
Poverty Index	45.2%	27.6%
Total No. of Children Under Age	5,896,500	75,800
In- Migration Rate	20.9%	15.5%
No. of In- Migration in Urban Sub. Loc.	5,463,800	45,800
General Sex Ratio(Female to Male)	1.02	1.05
Total Female Population	19,224,500	347,400
Total Male Population	18,888,800	331,400
General Sex Ratio in Urban Sub-Location	1.02	1.06
Percentage of Population Under Age of 18	50.1%	40.5%
No. of People Under 18	19,099,400	275,100
No. of 18-64 Years Old	17,685,900	359,500
Percentage of Population Over Age 64	3.5%	6.6%
Number of People Over Age 64	1,328,000	44,700
No. of 18 to 64 Years Old	17,685,900	359,500
Percentage of Orphans in Population Under Age 15	1.2%	1.10%
No. of Orphans Under Age 15	189,800	2,600
Total Population Under Age 15	16,438,500	229,300
Percentage of HHs of 1-3 People	42%	55.8%
No. of HHs of 1-3 People	3,685,800	112,600
No. of HHs 4-7 People	3,402,700	76,400
Percentage of HHs Over 7people	19.2%	6.3%
No. of HHs Over 7 People	1,679,500	12,700
Total Number of HHs	8,768,000	201,700
Percentage of Female Headed HHs	32.1%	35.7%
No. of Female Headed HHs	2,818,800	71,900
No. of Youth Headed HHs	42,000	6,000
No. of Catholics	8,924,700	203,200
Number of Protestants and Other Christians	22,676,600	454,300
Number of Muslims	4,292,300	4,000

Demographic and Health Indicators	National	County
Number of People of Other Faith	1,243,200	8,900
Average No. of Communities Per Sub-Location	12	13
Average No. of Communities in Urban Sub-Location	20	18
