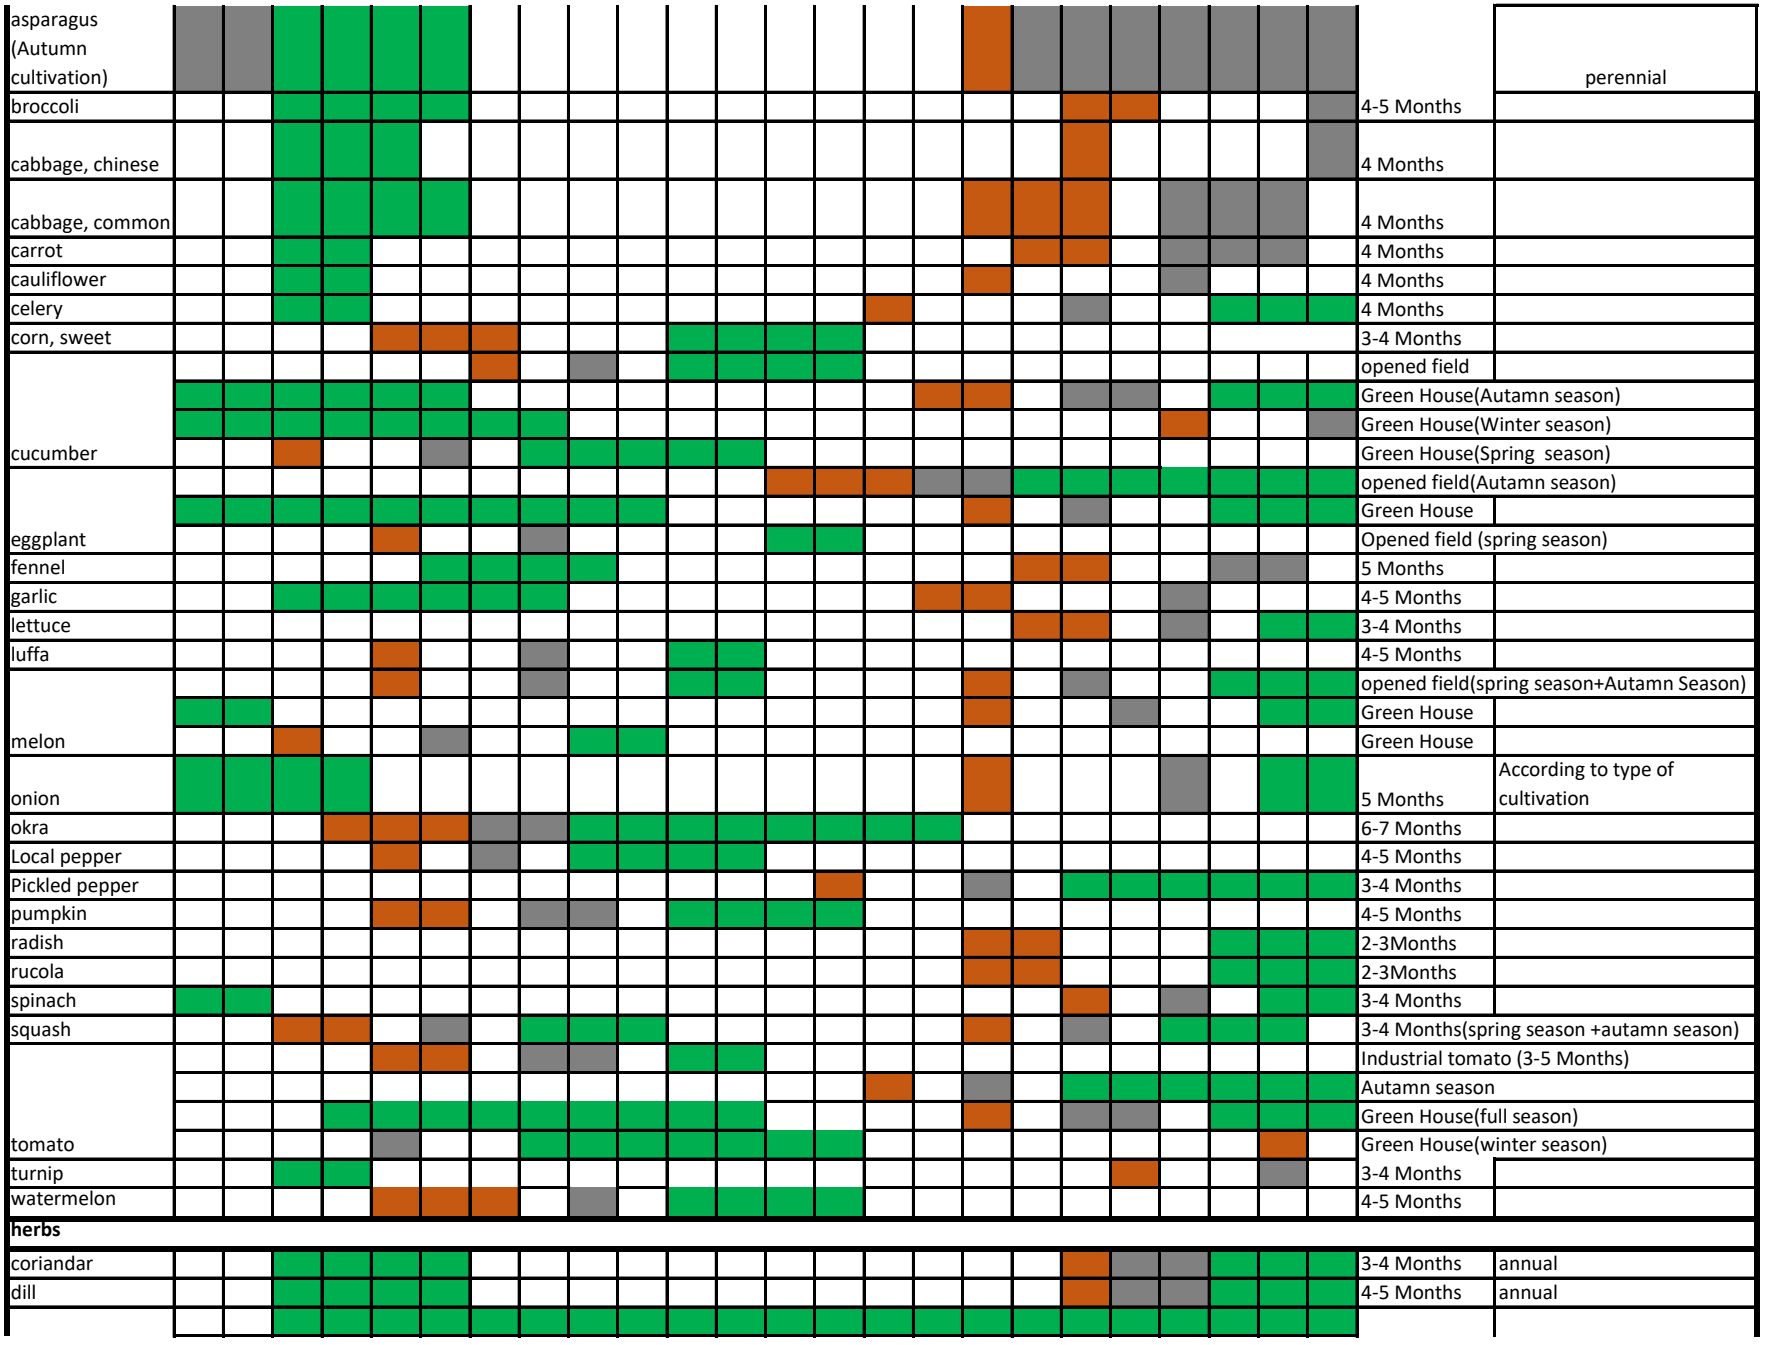
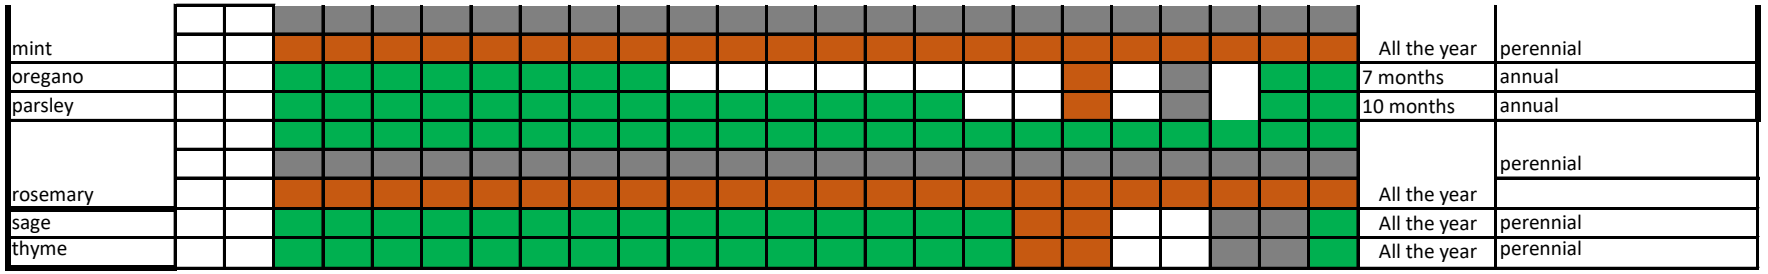
cash crops																										
strawberry																									6-8 Months.	Export 15/11-1/2 -
sweet peppers																									9 Months	Export 15/11-1/5. high veg 2nd half october
cherry tomato																									9 Months	Export 15/11-1/5. high veg 2nd half october
Cereals																										
barley																									6 Months	
maize																									4-5 Months	
sorghum																									4-5 Months	
wheat																									7 Months	
Tubers																										
potato Spring season																									4 Months	cultivation with complete tuber
potato Autumn Season																									4 Months	cultivation with complete tuber
Legumes																										
Broad bean																									8-9 Months	
bean common, dry																									4-5 Months	
bean, green (Autumn Season)																									4 Months	
bean, green (Spring Season)																									4 Months	
chickpea																									6-7 Months	
lentil																									6-7 Months	
pea																									5-6 Months	
oil crops																										
safflower																									4 Months	
sesame																									5 Months	
sunflower																									5 Months	
vegetables																										
asparagus (Spring cultivation)																										perennial



asparagus (Autumn cultivation)		perennial
broccoli	4-5 Months	
cabbage, chinese	4 Months	
cabbage, common	4 Months	
carrot	4 Months	
cauliflower	4 Months	
celery	4 Months	
corn, sweet	3-4 Months	
cucumber	opened field	
	Green House(Autamn season)	
	Green House(Winter season)	
	Green House(Spring season)	
eggplant	opened field(Autamn season)	
	Green House	
	Opened field (spring season)	
fennel	5 Months	
garlic	4-5 Months	
lettuce	3-4 Months	
luffa	4-5 Months	
melon	opened field(spring season+Autamn Season)	
	Green House	
	Green House	
onion	5 Months	According to type of cultivation
okra	6-7 Months	
Local pepper	4-5 Months	
Pickled pepper	3-4 Months	
pumpkin	4-5 Months	
radish	2-3Months	
rucola	2-3Months	
spinach	3-4 Months	
squash	3-4 Months(spring season +autamn season)	
tomato	Industrial tomato (3-5 Months)	
	Autamn season	
	Green House(full season)	
	Green House(winter season)	
turnip	3-4 Months	
watermelon	4-5 Months	
herbs		
coriandar	3-4 Months	annual
dill	4-5 Months	annual



mint			All the year	perennial
oregano			7 months	annual
parsley			10 months	annual
				perennial
rosemary			All the year	
sage			All the year	perennial
thyme			All the year	perennial
