Foreword

The Zimbabwe National Statistics Agency (ZIMSTAT) conducted the Agriculture and Livestock Survey (ALS) in SSCF Farms for the 2014/2015 agriculture season from February to December 2015. The primary objective of the Survey was to produce up-to-date benchmark statistics for SSCF farms on:

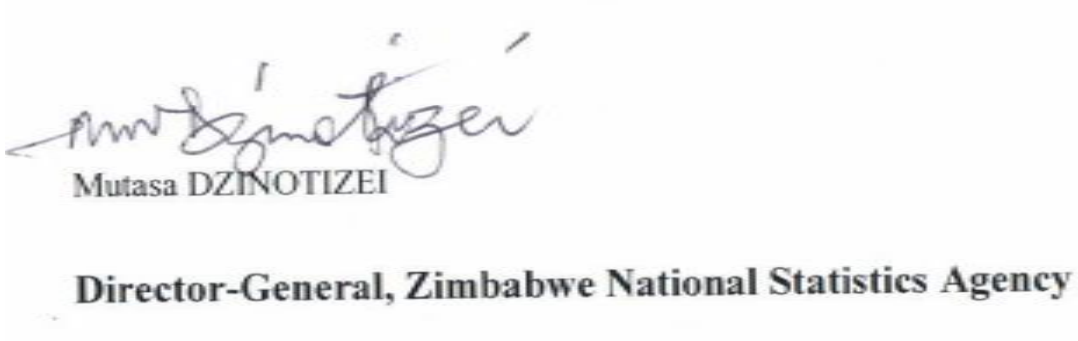
- Inventory of farm implements and machinery
- Cost of new buildings, works and farm improvements
- Inventory of cattle, other livestock and quantities and values of livestock inputs
- Cultivated areas and cropping patterns
- Fertilizers and other crop inputs
- Yield estimates
- Persons living and working on holdings
- Credits and loans facilities
- Transport costs and fuel use on farm holdings.

Various uses can be made of the ALS Information and these include: formulation of Government's agricultural policy, assessing the food security position of the country, provision of baseline data for research and compilation of Gross Domestic Product (GDP) figures, among other things.

The Agency has conducted the ALS in SSCF Farms, since 2004 under the provisions of the Census and Statistics Act Chapter [10:29] of 2007.

The Zimbabwe National Statistics Agency would like to express its profound gratitude to SSCF Farmers who responded to ALS questions during the data collection periods.

ZIMSTAT is indebted to the Government of Zimbabwe, the United Kingdom Department for International Development (DfID) and the United Nations Development Programme (UNDP) for the provision of financial support towards the project during the period 2013 to 2016.



Mutasa DZINOTIZEI

Director-General, Zimbabwe National Statistics Agency

Introduction

This Report presents the results of the 2014-2015 Agriculture and Livestock Survey (ALS) in SSCF Farms conducted by the Zimbabwe National Statistics Agency. Results of the following modules are presented:-

Employment and Earnings Module

The module provides data on persons employed as permanent or casual employees on SSCF farms and wages paid as well as family members of farm owners contributing towards agricultural labour.

Crop Inputs Module

The module provides data on agricultural inputs used such as seed (purchased or own produced), fertilizers, lime, herbicides, pesticides during the agriculture season.

Credits and Loans Module

The module collects data on access to credit by farmers from various institutions including banks. Data is collected on number of loan recipients, source of loan, type and purpose.

Cattle and Other Livestock Population and Inputs Module

The module provides data on cattle and other livestock in the agricultural sectors and livestock inputs used such as livestock feed, veterinary fees. The reference period for the Module is 1 January to 31 December of the reference year.

Post-Harvest Module

The module collects data on actual crop output as well as retentions, sales to marketing authorities and other buyers. Production and sales are measured in tonnes or US$.

Capital formation Module

The module collects data on inventory of machinery, equipment, implements as well as improvements on the farm, including the cost of erecting buildings, works and other farm improvements.

Transport and Energy Use Module

This module collects data on fuel used and transport costs incurred by farmers involved in agriculture related activities e.g. transporting seed to the farm. The reference period for the Module is 1 January to 31 December of the reference year.

Explanatory Notes

Farm count refers to the number of SSCF farm holders.

Rounding

Area and production figures have been rounded to the nearest hectare and tonne respectively. Due to rounding, there may be an apparent slight discrepancy between the sums of constituent items and their shown totals.

Sales of crops includes intended sales.

Symbols

*	Indicates that data on quantity for the marked items was not collected	
-	Any of the following:	Data not available Missing value No figure
0	When figure is zero or insignificant	
t	Tonne	
ha	Hectare	
kg/ha	Kilogram per hectare	

Employment

Table 1.1: Number of employees on SSCF Farms and total wages paid by type of employment, sex, quarter and year, 2010 - 2015.
Table 1.2: Number of permanent employees on SSCF Farms and total wages paid by sex, quarter and province, 2015
Table 1.3: Number of casual employees on SSCF Farms and total wages paid by sex, quarter and province, 2015
Table 1.4: Number of owners and household members on SSCF farms actively engaged in agriculture as at end of quarter, by sex, quarter and year, 2010 - 2015
Table 1.5: Number of owners and household members on SSCF farms actively engaged in agriculture as at end of quarter,by sex, quarter and province, 2015
