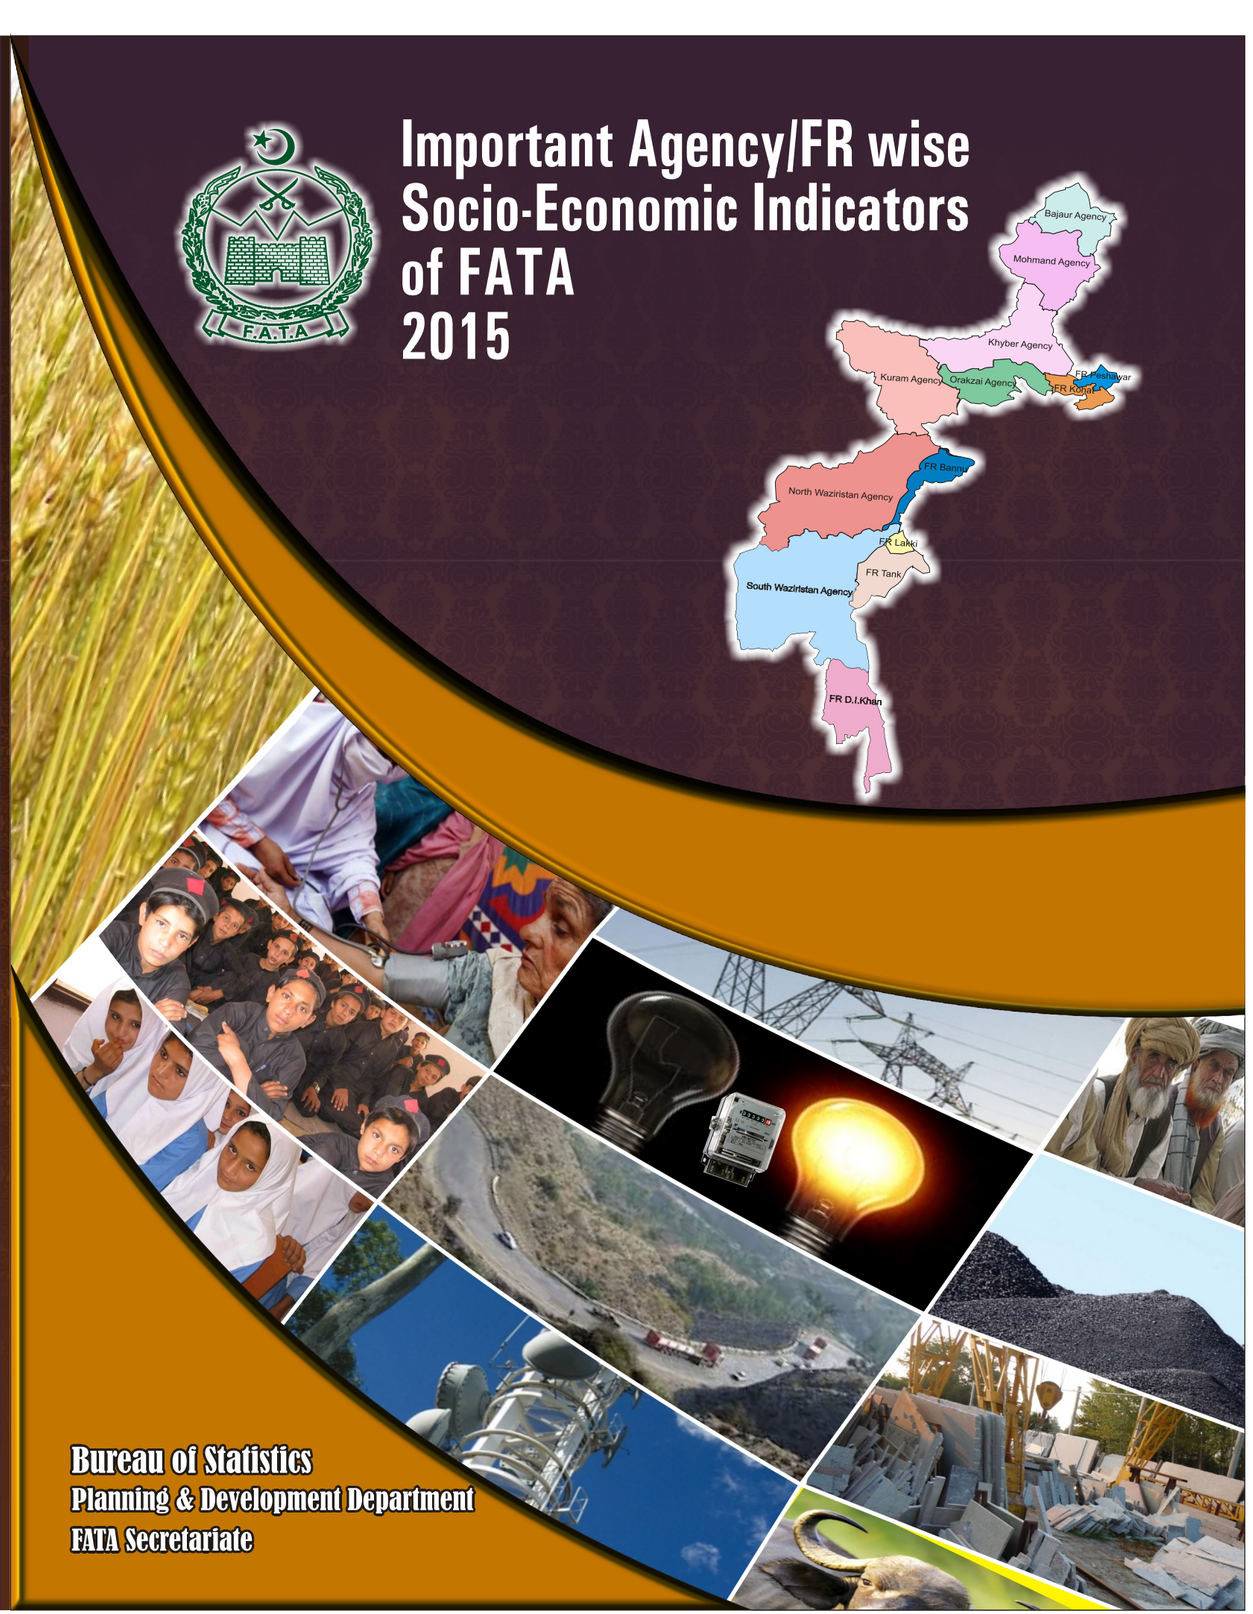
Important Agency/FR wise Socio-Economic Indicators of FATA 2015



Bureau of Statistics
Planning & Development Department
FATA Secretariate

PREFACE

FATA has remained the most neglected part of the country in terms of development and availability of reliable and authentic data in the past. To monitor and measure the progress of development initiatives, the importance of authentic and reliable data has increased manifold in the war torn FATA region. Hence, informed decision making and targeted interventions by the Government as well as development partners are bedrocked on solid & authentic data.

The present edition of Important Agency/FR wise Socio-Economic Indicators of FATA is the 21st of its series and the 6th being issued by the Bureau of Statistics, Planning & Development Department FATA Secretariat. It is a compendium on important statistics related to the Agencies and Frontier Regions containing socio-economic data for the year 2014-15. The data was minutely analysed, scrutinized and vetted from the line directorates and relevant organizations.

On behalf of Planning & Development Department FATA Secretariat, I am grateful to all government, semi-government departments and other organizations, which have provided data for the updation of this document. I would also like to appreciate the hard work of the staff of Bureau of Statistics FATA Cell for releasing this comprehensive report on FATA.

For convenience and easy accessibility, the publication has been made available on the official website of FATA www.fata.gov.pk. Suggestions for improvement in the quality and contents of the publication are welcome.

Peshawar, March, 2016

Muhammad Wasif Saeed
Chief Economist
