KENYA NATIONAL BUREAU OF STATISTICS

Vision

"To become a Centre of excellence in production and management of quality statistics"

Mission

To develop, provide and promote quality statistical information for evidence-based decision making.

Core Values

- ***Professionalism:*** Strictly abides by professional considerations on the methods, standards and procedures for statistical production.
- ***Confidentiality:*** Guarantee confidentiality of data providers as provided in the Statistics Act 2006
- ***Collaboration*:** Collaborate with stakeholders so as to enhance the quality of statistical information
- ***Teamwork*:** To embrace teamwork as the hallmark of our success
- ***Customer focus:*** Commitment to meet the needs of our customers and always focus on customer satisfaction.
- ***Accountability and Transparency:*** Conduct business and lend services to stakeholders in a transparent and accountable manner.
- ***Efficiency and effectiveness:*** Promote high productivity, competence and usefulness of resources at the national and county level.
- ***Innovation and Creativity:*** Committed to innovation, invention, creativity and resourcefulness in service delivery.

Foreword

The implementation of the constitution created increased demand for comprehensive and disaggregated statistical information to inform evidence based policy formulation, budgeting process, monitoring and evaluation of various programmes both at the county and national levels. It is for this reason that the Kenya National Bureau of Statistics, being the principal agency of the Government for coordinating and supervising all official statistical programs undertaken within the National Statistical System, has undertaken to produce this County Statistical Abstract (CSA) annually. The information published in this Abstract will address data gaps at the county level to supplement other periodic surveys conducted by the Bureau that equally provide useful indicators for various sectors.

The 2015 County Statistical Abstract is the first of its kind to be developed for Makueni County and will subsequently be produced annually. This Abstract will be a single source of information covering various sectors of the economy at the county level. The Abstract has substantially benefited from the administrative data generated in the county. In addition, some indicators were compiled from various survey reports and population and housing censuses.

This Abstract is expected to provide a reliable source of information for planning, policy formulation, monitoring and evaluation processes. The data contained in this Abstract will, therefore, enable data users to gauge the performance of the county.

In conclusion, there is need for collaborative efforts between the National and County Governments in order to improve on the quality of statistical information, enhance dissemination, and accessibility of statistics at the county level.

Saitoti Torome
Principal Secretary
State Department of Planning and Statistics
Ministry of Devolution and Planning

Acknowledgement

The successful production of Makueni County Statistical Abstract has been made possible through joint efforts of producers and users of statistics despite the challenges faced during the data collection. This collaboration is expected to improve timely compilation of reliable data from county data producers that will meet the expectations of both the users and suppliers in subsequent County Statistical Abstracts.

In this regard, therefore, I wish to express my gratitude to the Kenya National Bureau of Statistics Board of Directors for providing policy direction which has culminated in the preparation of this first County Statistical Abstract.

My sincere gratitude goes to H.E. Kivutha Kibwana the Governor of Makueni County for providing his support during the entire process in the production of this publication. I also want to thank the County Chief Officers, Directors and their staff who participated in the process of production of this abstract.

Special thanks goes to the County Commissioner for playing a pivotal role in coordinating the data collection process. I appreciate the contribution of departmental heads who provided timely data and also participated in the validation of information contained in this publication.

I acknowledge the contribution of the Makueni County Statistical Officer and the County Working Committee for their tireless efforts in the successful compilation of data and production of this Statistical Abstract. I also thank all KNBS Directors, Editorial teams and County Statistical Abstract Secretariat at the headquarters for successfully planning, coordinating various departments, compiling and producing the 2015 County Statistical Abstract.

Finally, I wish to reiterate the Bureau's commitment in strengthening linkages with county stakeholders to improve the quality of the future Statistical Abstracts.

Zachary Mwangi
Director General
Kenya National Bureau of Statistics

Introduction

This County Statistical Abstract is a single source of information that provides a two year data series. It contains a comprehensive set of indicators that are useful for planning, monitoring and evaluation as well as providing useful information for research. The preparation of this Abstract has been coordinated by the Kenya National Bureau of Statistics in collaboration with the County Government, National Government Departments and other stakeholders represented in the county. The information was compiled mainly from the administrative records and partly from the recent surveys and censuses. The source of the statistical data is shown under each table.

The publication aims at providing statistical information on economic, demographic and social dimensions in Makueni County. Being the first publication of its kind, its content may not meet detailed requirements of all users. In such a case, additional information, whenever available, will be supplied by the Bureau on request. All data request relating to statistical matters should be addressed to the Director General, Kenya National Bureau of Statistics.

Structure of County Governments

The current Constitution was promulgated on 27th August 2010 providing for a two tier government structure with one National Government and forty seven (47) devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments as contained in the Fourth Schedule (Constitution 2010) include: - Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Cooperative Development; Land, Housing, Physical planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

The County Assembly

The County Assembly is vested with the legislative authority of county laws, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the county, nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is an ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Makueni County is as follows:-

Speaker (ex-officio)	1
Elected MCAs	30
Nominated MCAs	17
Total	**48**

The County Executive

The Executive arm of the County Governments comprise of the Governor, the Deputy Governor, the County Executive Committee members and the County Public Service. The County Executive Committee members are appointed by the Governor with the approval of the County Assembly. The Governor and Deputy Governor are elected by registered voters in the county in a general election, for not more than two terms of five years each.

The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. Each county is run by an executive committee, consisting of:

- Governor, elected directly by the people
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly
- County Secretary nominated by the Governor and approved by the county assembly, who will double up as head of the county public service, and secretary to the county executive committee

For Makueni County, the County Executive Committee comprises of:-

The Governor	1
The Deputy Governor	1
The County Secretary	1
The CEC Members	10
Total	**13**

Makueni County Government

Vision

To be a County where resources are sustainably harnessed and equitably shared for the benefit of every household.

Mission

To engage stakeholders in harnessing and governance of resources in a cost effective way for the transformation of the lives of the County's population.

Overview of the County

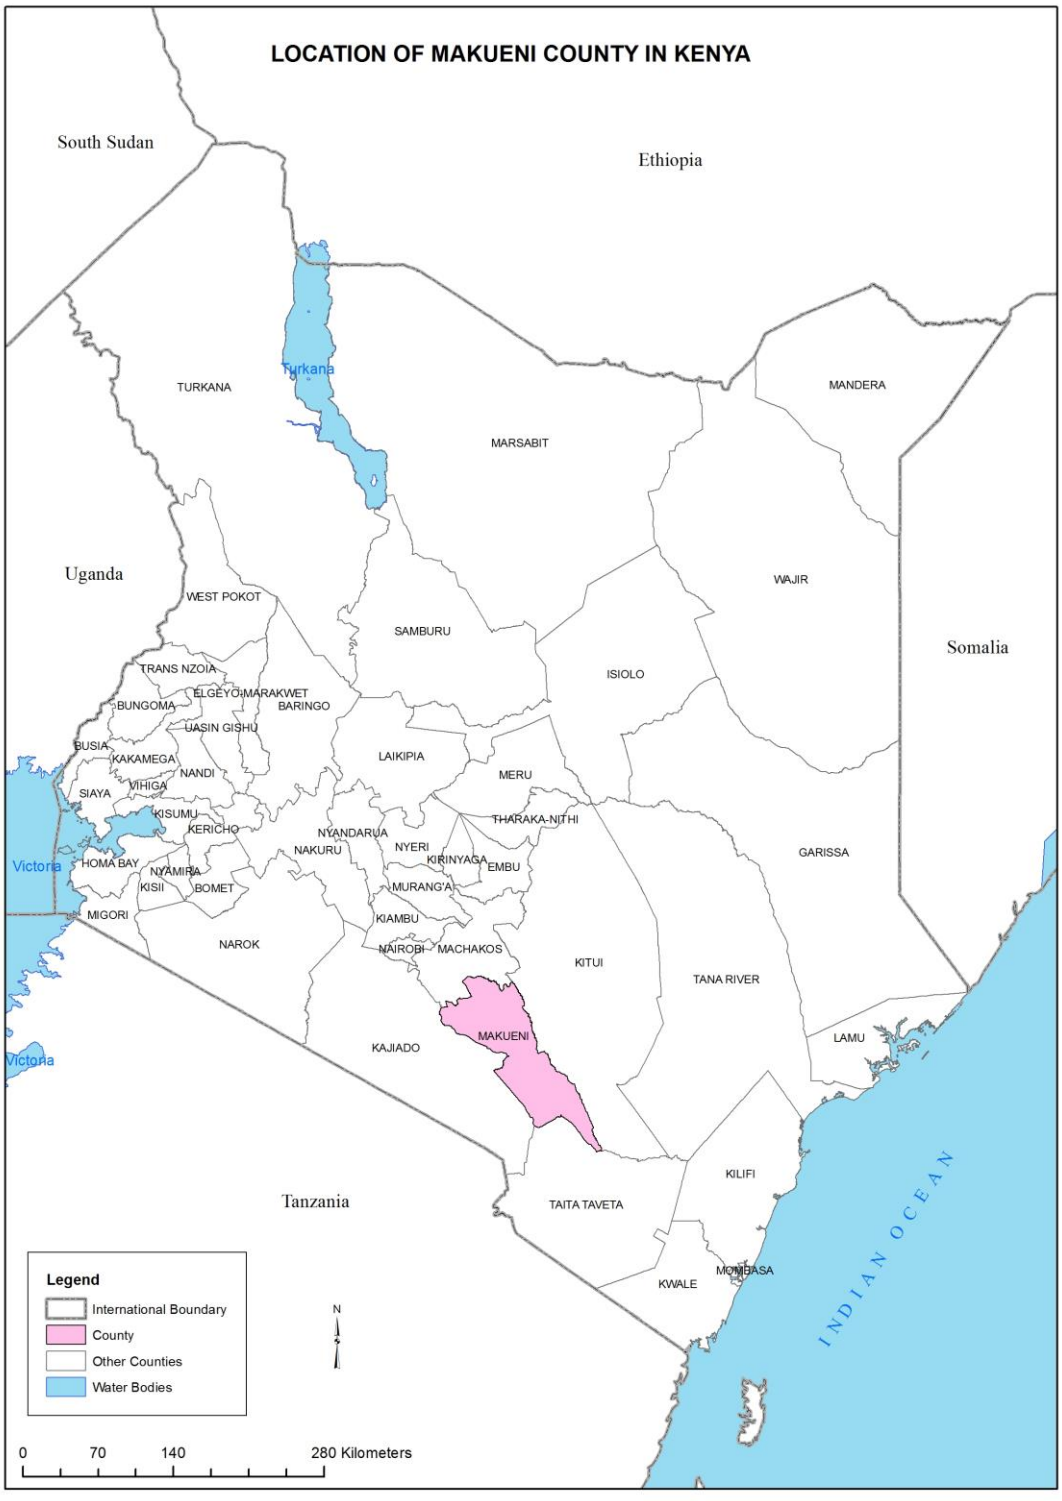
Makueni County is one of the forty seven counties in Kenya. It is situated in South Eastern part of the Country.It boarders Machakos to the North,Kitui to the East,Kajiado to the West and Taita Taveta to the South.The county is located between *Latitude* 1º 35´ south and *Longitude* 37º10´ east and 38º 30´. It covers an area of 8008.7 KM^2

Makueni County is predominantly inhabited by the Akamba community who form approximately 97% of the total number of the inhabitants. There is a substantive percentage of people from other communities especially in the major towns.It has an average population density of 110 persons / KM^2 with Mbooni Sub –County recording the highest population of 199 persons / KM^2 and Kibwezi Sub County recordinng the lowest of 62 persons/ KM^2.

The main economic activities in the County are subsistence agriculture, beekeeping, small-scale trade, dairy farming and limited coffee growing, ecotourism and commercial businesses. The fertile upper part of the county, which experiences a higher average rainfall of 800mm-1200mm, has both natural and planted forest and is suitable for dairy farming. The lower side on the other hand, receives rainfall ranging from 300mm to 400mm and hardly sustains the major food farming. This means livestock rearing remain the common viable economic activity being undertaken by the local people in the lower region.

Tsavo National Park which lies in the southern part of the County, in Kibwezi West is considered as one of the worlds biodiversity strongholds. It is home to diverse wildlife species which include the famous big five consisting of lion, black rhino, elephant and leopard. The park also has a great variety of bird life such as the black kite, Crowned crane, love birds and the Sacred Ibis among others. This makes it a significant tourism destination for local and international tourists.

Map 1: Location of Makueni County in Kenya



Administrative and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions and locations by political units in terms of constituencies and wards.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenyan Constitution and specified in the First Schedule of the Constitution.

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincide with the Constituency area.

County Assembly: means an assembly constituted in the county in accordance with Article 177 of the Constitution;

Constituency: Is an area demarcated as stated under Article 89 of the Kenya's Constitution for the purpose electing a member of the National Assembly. There are 290 constituencies in Kenya

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing a the member of the County Assembly. There are 1450 wards in Kenya

Table 1.1: Administrative Units by Districts, 2014

Number

Sub-County	Division	Locations	Sub Locations
Makueni	3	11	25
Kathozweni	5	11	19

Land and Climate

This section contains data on Land Area, topography and climate.

Notes and Definitions

Topography: refers to the geographic features of a location. The features include the mountains, peaks valleys etc.

Climate: The weather conditions prevailing in an area in general or over a long period or a region with particular prevailing weather conditions. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is for a weather station within each sub county.

Land Area*:* Refers to an area in square kilometres of the land-based portions of standard geographic areas.

Temperature: Refers to a measure of the warmth or coldness of a place with reference to some standard value

Table 2.1: Surface area by Category, 2014

	Km^2

*Provisional

Population and Vital Statistics

This section provides information on population and vital statistics by census year, sex and constituency; registration of births and deaths by place of occurrence in Makueni County.

Notes and Definitions

Density: Refers to the number of persons per square kilometre, obtained by dividing the enumerated persons in a given area by the size of the area expressed in KM^2

Area: Is the extent of a surface enclosed within a specified boundary, expressed in Square Kilometres. This excludes areas covered by water.

Birth: Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes fetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

Place of Occurrence: It is where birth or death occurs.

Coverage rate: Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events'.

Births or Deaths Registered at Health Facilities: Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

***Births or Deaths Registered outside Health Facilities*:** Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

***Selected Age Groups*:** Refer to special age groups as follows:

- Children under one year
- ECDE (3-5 years),
- Primary (6-13 years)
- Secondary (14-17 years)
- Youth (18-35 years),
- Children (under 18 years),
- Voters or Adults (18+ years),
- Women of reproductive age (15-49 years),
- Active Labour Force (15-64 years)
- Elderly (65+ years).

Population

Table 3.1.1: National Population Trend by Sex, Households and Density, 1969-2009

Census Year	Male	Female	Total	HHs	Av. HH Size	Approx. Area (Sq.Km)	Density (pop/Km^2)
1969	5,482,381	5,460,324	10,942,705	1,938,186	5.6	581,313	18.8

Trade and Commerce

Introduction

The section provides data on the number of trading centers and licensed business. Information on trade includes type of business outlets in the county trading centers.

Notes and Definitions

Data presented comprise of registered businesses, permits paid and penalties

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Table 5.1: Revenue Collection from Single Business Permits, 2014

Agriculture

This section provides information on agro–ecological zones, land potential by selected sub-counties, type of crops grown, the total area cropped, amount produced and their value. It also gives information on average retail prices for farm inputs, acreage under irrigation by type of crop grown.

Notes and Definitions

High potential: Clay-loam soil with sufficient manure and good drainage

Medium potential: Sandy-loam soil with high drainage

Low potential: Sandy soil with very high drainage and low manure content

Agro-Ecological Zones (AEZ): Refers to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.

Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data

Agricultural Area: refer to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested

Arable land: Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for "Arable land" are not meant to indicate the amount of land that is potentially cultivable.

Crop production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the county. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Table 6.1: Agro-Ecological Zones for the Sub-County, 2014*

County Sub-Region	Zone	Suitable Enterprises
Parts of Kilungu, Kibwezi, Mukaa and Mbooni	LH 2	Dairy Avocado, Irish potatoes zone; Annual mean temp: 17.9-16 ^{0}C
Parts of Kilungu Makueni and Mbooni West.	UM 3	Marginal coffee Zone ; Annual mean temp: 17.9- 20.5 ^{0}C
Some parts of Kibwezi, Kilungu, Makueni, Mbooni West & East, Nzaui and Mukaa	UM4	Sun flower maize zone; Annual mean temp: 17.9- 20.9 ^{0}C
Part of Makueni ,Mukaa and Mbooni West & East district	LM3	Cotton Zone; Annual mean temp: 22.0-20.9 ^{0}C
Lower part of Makueni, Some part of Nzaui, Kibwezi, Mbooni West & East.	LM4	Marginal Cotton Zone; Annual mean temp: 22.0-21.3 ^{0}C
Large part of Kathonzweni, Makindu and Kibwezi, small parts of Makueni and some part of Nzaui, Mukaa and Mbooni East district	LM5	Livestock –Millet Zone; Annual mean temp: 21.6 - 24.0 ^{0}C

Retail Prices and Consumers Expenditure

This section presents statistics relating to retail and wholesale commodity prices for selected commodities in the County.

Notes and Definitions

Retail and wholesale prices are collected every week from the retail and wholesale markets, respectively, to determine the variation in both retail and wholesale prices. Weighing scales are used to measure the quantity of the commodity to convert non-standard units to standard units.

Table 6.7: Annual Average Retail Prices per Kilogram, 2013-2014

Cooperatives

The section has data on the number of cooperatives by type, membership, share capital, turnover and sub county. The number of Savings and Credit Cooperatives (SACCOs) by Sub County and performance is also given.

Notes and Definitions

SACCOs: These are cooperatives which provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Share Capital: Refers to the total of cooperatives' shares that are held by members. It is withdrawn only when one ceases to be a member of the the cooperative.

Table 8.1: SACCOs by Type, Status, Membership and Turnover, 2014*

Energy

Electricity connections for domestic use, small commercial, industrial use and street lighting and the average annual pump prices and monthly pump prices of various petroleum products are presented in this section

Notes and Definitions

Domestic use: These are domestic customers. They are Low voltage level (240 /415kV) users

Small commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users

Industrial use: These are large commercial and industrial customers. They are High Voltage level (66 & 132 kV) users

Street lighting: They are Low voltage level (240 /415kV) users

Pump prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Money and Banking

This section presents data on Financial Institutions.

Notes and Definitions

Banks: These are organizations where people and businesses can invest or borrow money and exchange foreign currency.

Insurance Companies : A business that provides coverage, in the form of compensation resulting from loss, damages, injury, treatment or hardship in exchange for premium payments

Micro Finance institutions: These are organizations that offer financial services to low income populations. They include deposit and non-deposit taking ones

Forex Bureau: An over-the-counter market where buyers and sellers conduct foreign exchange transactions

Transport and Communication

This section presents information on the road coverage by type, class and length. It also covers the transport and communication network and the number of postal service outlets in the County.

Notes and Definitions

International Trunk (Class A) Roads: Class A roads comprise of international trunk roads linking centres of international importance and crossing international boundaries or terminating at international ports or airports e.g. Mombasa International Harbour.

National Trunk (Class B) Roads: Class B roads which link former provincial headquarters and other important centres to the capital, to each other or to the international road network.

Primary (Class C) Roads: Class C primary roads which link provincially important centres to each other or higher class roads; this has been reinterpreted more recently to mean linking district headquarters to each other and higher level roads or centres.

Secondary Roads (Class D): Roads which link locally important centres to each other, or to more important centres or to a higher class road (e.g. divisional headquarters).

Minor Roads (Class E): Roads which link to a minor centre

Education

Information on education enrolment by class for pre-primary (ECDE), Primary, Secondary, Technical, middle level colleges and University are given in this section. The indicators that have been computed are Gross Enrolment Rates and the Net Enrolment rates.

Notes and Definitions

Enrolment in Adult and Continuing Learning is mainly non formal

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "Private" schools.

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

Public Health

This section provides statistics on health facilities by type and ownership, hospital beds and cots, outpatient morbidity for persons who are under five years old and those who are aged five years and above, registered medical personnel, NHIF and medical students.

Notes and Definitions

Kenya's health system is broadly categorized into six levels of care, namely, Level 1 comprising of the community and outreach level of care, Level 2 representing the dispensaries, Level 3 of health centers
and clinics, Level 4 of the district hospitals, Level 5 of the County hospitals, and Level 6 of tertiary national referral hospitals

Health Facility: This is a defined a health service delivery structure from where services are provided e.g. Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and Non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County hospitals: Are hospitals which are the coordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County hospitals. These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals

Level 6 - National referral hospitals: Refers to National referral hospitals offering very specialized services. They are Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathare Mental Hospital and Nairobi Spinal Injury.
