Vision Statement

To be a centre of excellence in production and management of quality statistics

Mission Statement

To develop, provide and promote quality statistical information for evidence-based decision making.

Core Values

- ***Professionalism*:** Strictly abides by professional considerations on the methods, standards and procedures for statistical production.
- ***Confidentiality*:** Guarantee confidentiality of data providers as provided in the Statistics Act 2006
- ***Collaboration*:** Collaborate with stakeholders so as to enhance the quality of statistical information
- ***Teamwork*:** To embrace teamwork as the hallmark of our success
- ***Customer focus*:** Commitment to meet the needs of our customers and always focus on customer satisfaction.
- **Accountability and Transparency:** Conduct business and lend services to stakeholders in a transparent and accountable manner.
- **Efficiency and effectiveness:** Promote high productivity, competence and usefulness of resources at the national and county level.
- **Innovation and Creativity:** Committed to innovation, invention, creativity and resourcefulness in service delivery.

Foreword

The implementation of the constitution has created increased demand for comprehensive and disaggregated statistical information to inform evidence based policy formulation, budget process, monitoring and evaluation of various programmes both at the county and national levels has increased over time.

It is on this basis that Kenya National Bureau of Statistics, being the principal agency of the Government for coordinating and supervising all official statistical programs undertaken within the National Statistical System embarked on various statistical activities. One of such key activities is the compilation of county statistical abstract.

The 2015 County Statistical Abstract Report is the first of its kind to be developed in Narok County and will be produced annually. This will be a single source of indicators covering various sectors of the economy at the county level. The report has mainly benefited from the administrative data generated in the county. In addition, some indicators were compiled from various survey reports and population and housing censuses.

The report is expected to provide a reliable platform for planning, policy formulation monitoring and evaluation process. The data contained in this abstract will enable data users to gauge the performance of the county.

In conclusion, there is need for collaborative efforts between the County and National Governments in order to improve on the quality of statistical information, enhance dissemination, and accessibility of statistics at the county level.

Saitoti Torome
Principal Secretary
State Department of Planning and Statistics
Ministry of Devolution and Planning

Acknowledgement

The successful production of Narok County Statistical Abstract has been made possible through joint and collaborative efforts of producers and users of statistics. The realization of this report was motivated by the increased demand for statistics at both devolved and national levels. To improve on the quality of the future statistical abstracts, the Bureau expects to have timely and reliable data from the data producers within the county that will meet the expectations of the users and suppliers.

First and foremost, I would like to acknowledge the great contribution of Kenya National Bureau of Statistics Board of Directors for conceiving and providing policy direction in development of annual county statistical abstract.

My sincere gratitude goes to H. E. Samuel Ole Tunai, the Governor of Narok County for providing an enabling and conducive environment for compilation of statistics for the county. I also want to thank the County Chief Officers, Directors and their staff who participated in the provision of data.

Special thanks goes to the County Commissioner for coordinating departments representing the National Government. I appreciate the roles played by county departmental heads who provided timely data and also participated in the validation of information contained in this publication.

I acknowledge the great contribution of the Narok County Statistical Officer and the County Working Committee for their tireless efforts made to ensure successful compilation of data for the production of this Statistical Abstract.

Finally, I thank the KNBS fraternity, particularly KNBS County Statistical Abstract Secretariat at the headquarters for successfully coordinating various departments, planning, compiling and producing this 2015 County Statistical Abstract.

Zachary Mwangi
Director General
Kenya National Bureau of Statistics

Introduction

This County Statistical Abstract is the single source of data covering a series of the last two completed years. It contains a comprehensive set of information that is useful for any form of analytical work. The preparation of this abstract has been coordinated by the Kenya National Bureau of Statistics in collaboration with the County Government of Narok, National Government Departments and other stakeholders represented in the county. The information is compiled mainly from the administrative records and partly from the recent Surveys and Censuses. The source of the statistical data is shown under each table.

The publication aims at providing statistical information on economic, demographic and social dimensions in Narok County. Being the first publication of its kind, its content may not meet detailed requirements of all users. Additional information, whenever available, will be supplied by the Bureau on request. All enquiries relating to statistical matters should be addressed to KNBS.

Structure of County Governments

The current Constitution was promulgated on 27th August 2010 providing for a two tier government structure with one National Government and forty seven devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments as contained in the Fourth Schedule (Constitution 2010) include:- Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Cooperative Development; Land, Housing, Physical planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

The County Assembly

The County Assembly is vested with the legislative authority of county laws, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the county, nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is an ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Narok County is as follows:-

Ex-officio-Speaker		1
Elected MCAs	30	
Nominated MCAs		17
Total		**48**

The County Executive

The Executive arm of the County Governments comprise of The Governor, The Deputy Governor, The County Executive Committee and the County Public Service. The County Executive Committee is appointed by the Governor with the approval of the County Assembly. The Governor and Deputy Governor are elected by registered voters in the county in a general election, for not more than two terms of five years each. The Governor and Deputy Governor are the head and deputy head of the County Executive, respectively.
The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. Each county is run by an executive committee, consisting of:

- Governor, elected directly by the people
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly
- County Secretary nominated by the governor and approved by the county assembly, who will double up as head of the county public service, and secretary to the county executive committee

For Narok County, the County Executive Committee comprises of:-

The Governor	1
The Deputy Governor	1
The County Secretary	1
The CEC Members	9
Total	**12**

Narok County Government

Vision

A people centered, vibrant, prosperous and environmentally resilient county.

Mission Statement

Empowering Citizens for effective participation in governance for enhanced security for local livelihoods utilizing consolidated resources sustainably

Core Values

Integrity, Competence and Probity

Overview of the County

Narok County is the seventh largest county among the forty seven Counties in Kenya. It has an area of 17,933.1 KM^2. It borders Bomet County to the West, Kajiado County to the East and Nakuru County to the North. To the South it borders the Republic of Tanzania. It also shares common borders with Kisii, Nyamira and Migori counties to the West. It lies within longitude 35 degrees 28 feet and 36 degrees 25 feet East and latitudes 0 degrees 50 feet and 1 degree 50 feet South.

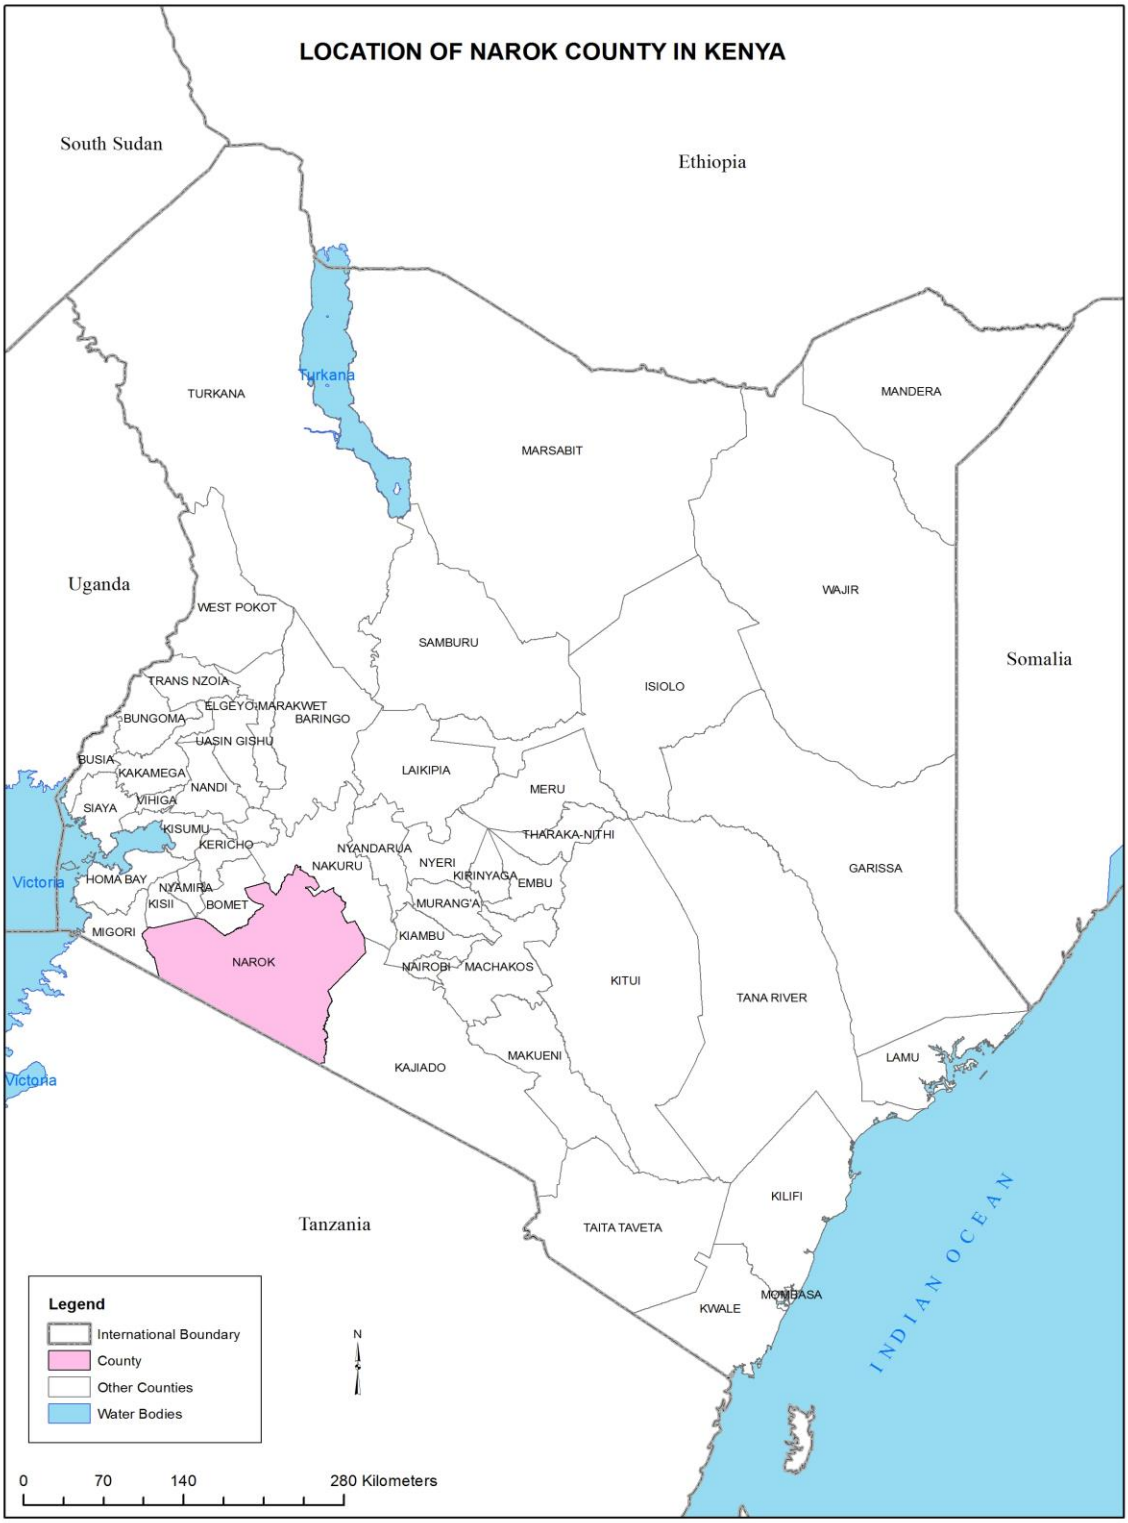
Narok County has two main ecological zones comprising of the highlands which are suitable for rain fed agriculture and the fragile lowlands which are suitable for pastoralism. The economy of the county revolves around large scale farming, livestock rearing, tourism and mining.

River Mara and Ewaso Ngiro, which have their sources in Mau Forest, traverse the county making it fertile area for irrigation farming. The major crops grown are wheat, barley, Irish Potatoes and maize. The major cash crop is sugarcane which is mainly grown in Transmara West.

The predominant inhabitants are the Maasais and the Kalenjins. Other communities include the Kikuyu, Kisii, Luhyas and Luos.

Tourism is the largest contributor to the county's economy as it hosts the Maasai Mara National Reserve famously known as the seventh wonder of the world for the annual wildebeest migration. It hosts a number of luxurious hotels, lodges, clubs and camp sites. Tourist attractions include game drives, bird watching, site seeing, balloon rides.

Map 1: Location of Narok County in Kenya



Administrative and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions and locations by political units in terms of constituencies and wards.

Notes and Definitions

***County*:** It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenya's Constitution and specified in the First Schedule of the Constitution;

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincide with the Constituency area.

***County Assembly*:** means an assembly constituted in the county in accordance with Article 177 of the Constitution;

Constituency: Is an area demarcated as stated under Article 89 of the Kenya's Constitution for the purpose electing a member of the National Assembly. There are 290 constituencies in Kenya

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing a the member of the County Assembly. There are 1450 wards in Kenya

Land and Climate

This section contains data on Land Area, topography and climate.

Notes and Definitions

***Topography*:** refers to the geographic features of a location. The features includes the mountains, peaks valleys etc.

Climate: The weather conditions prevailing in an area in general or over a long period or a region with particular prevailing weather conditions. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is for a weather station within each sub county.

Land Area: Refers to an area in square kilometres of the land-based portions of standard geographic areas.

Temperature: Refers to a measure of the warmth or coldness of a place with reference to some standard value.

Population and Vital Statistics

This section provides information on population and vital statistics by census year, sex and constituency; registration of births and deaths by place of occurrence in Narok County.

Notes and Definitions

Density: Refers number of persons per square kilometre, obtained by dividing the enumerated persons in a given area by the size of the area expressed in KM^2

Area: Is the extent of a surface enclosed within a specified boundary, expressed in square kilometres. This excludes areas covered by water.

***Birth*:** Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes fetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

***Place of Occurrence*:** It is where birth or death occurs.

Coverage rate: Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events'.

Births or Deaths Registered at Health Facilities: Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

***Births or Deaths Registered outside Health Facilities*:** Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

***Selected Age Groups*:** Refer to special age groups as follows:
Children under one year
ECDE (3-5 years),
Primary (6-13 years)
Secondary (14-17 years)
Youth (18-35 years),
Children (under 18 years),
Voters or Adults (18+ years),
Women of reproductive age (15-49 years),
Active Labour Force (15-64 years)
Elderly (65+ years).

Trade And Commerce

Introduction

The section provides data on the number of trading centers and licensed business. Information on trade includes type of business outlets in the county trading centers.

Notes and Definitions

Data presented comprise of registered businesses, permits paid and penalties

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Agriculture

This section provides information on agro–ecological zones, land potential by selected sub-counties, type of crops grown, the total area cropped, amount produced and their value. It also gives information on average retail prices for farm inputs, acreage under irrigation by type of crop grown.

Notes and Definitions

***High potential**:* Clay-loam soil with sufficient manure and good drainage
Medium potential: Sandy-loam soil with high drainage
Low potential: Sandy soil with very high drainage and low manure content
Agro-Ecological Zones (AEZ): Refers to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.
Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data
***Agricultural Area*:** refer to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested
***Arable land*:** Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for "Arable land" are not meant to indicate the amount of land that is potentially cultivable.
Crop production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.
Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the county. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Livestock

This section provides data on livestock population, production, and animal slaughter by Sub County. It also provides data on livestock products.

Notes and Definitions

Livestock Primary Products: include products from live and slaughtered animals. Products from slaughtered animals include meat, offals, raw fats, fresh hides and skins. Products from live animals include milk, eggs, honey, beeswax and fibres of animal origin.

Table 7.1: Livestock population by type and breed, 2011-2014

Retail Prices and Consumers Expenditure

This section presents statistics relating to retail and wholesale commodity prices for selected commodities in the County.

Notes and Definitions

Retail and wholesale prices are collected every week from the retail and wholesale markets, respectively, to determine the variation in both retail and wholesale prices. Weighing scales are used to measure the quantity of the commodity to convert non-standard units to standard units.

Table 8.1: Annual Retail Prices per Kilogram, 2013 - 2014

KSh

Commodity	2013	2014
Dry Maize	40	50
Dry Beans	90	100
Potatoes	35	27
Tomatoes	62	60

Cooperatives

The section has data on the number of cooperatives by type, membership, share capital, turnover and sub county. The number of Savings and Credit Cooperatives (SACCOs) by Sub County and performance is also given.

Notes and Definitions

SACCOs: These are cooperatives which provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Share Capital: Refers to the total of cooperatives' shares that are held by members. It is withdrawn only when one ceases to be a member of the cooperative.

Energy

Electricity connections for domestic use, small commercial, industrial use and street lighting and the average annual pump prices and monthly pump prices of various petroleum products are presented in this section

Notes and Definitions

***Domestic use*:** These are domestic customers. They are Low voltage level (240 /415kV) users

Small commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users

Pump prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Money and Banking

This section presents data on Financial Institutions.

Notes and Definitions

Banks: These are organizations where people and businesses can invest or borrow money and exchange foreign currency.

Insurance Companies : A business that provides coverage, in the form of compensation resulting from loss, damages, injury, treatment or hardship in exchange for premium payments

Micro Finance institutions: These are organizations that offer financial services to low income populations. They include deposit and non-deposit taking ones

Education

Information on education enrolment by class for pre-primary (ECDE), Primary, Secondary, Technical, middle level colleges and University are given in this section. The indicators that have been computed are Gross Enrolment and the Net Enrolment Rates.

Notes and Definitions

Enrolment in Adult and Continuing Learning is mainly non formal

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "Private" schools.

***Net enrolment rate*:** Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

Public Health

This section provides statistics on health facilities by type and ownership, hospital beds and cots, outpatient morbidity for persons who are under five years old and those who are aged five years and above, registered medical personnel, NHIF and medical students.

Notes and Definitions

Kenya's health system is broadly categorized into six levels of care, namely, Level 1 comprising of the community and outreach level of care, Level 2 representing the dispensaries, Level 3 of health centers
and clinics, Level 4 of the district hospitals, Level 5 of the County hospitals, and Level 6 of tertiary national referral hospitals

Health Facility: This is a defined a health service delivery structure from where services are provided e.g. Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and Non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County hospitals: Are hospitals which are the coordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County hospitals. These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals

Level 6 - National referral hospitals: Refers to National referral hospitals offering very specialized services. They are Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathare Mental Hospital and Nairobi Spinal Injury.

This section also presents data on the provision of social health care which include health insurance as provided by the National Insurance Fund (NHIF) and social security as provided by the National Social Security Fund (NSSF).
Data from NHIF is on membership, hospital and general claims in both public and private sector while the data from NSSF shows the number of registered employers, employees and their contributions.
