README

This replication material allows readers to replicate the analyses of the main paper and online appendix. The replication material contains four Stata files:

- replicationdataJOPdataverse: The data file
- Do_run_me_first_JOP: Do-file containing recodings of variables etc. that are necessary to the analyses in the paper + appendix. *Run this file before running any of the analyses in the paper and online appendix*.
- Do_mainresults_JOP: Do-file for replicating main results in paper (i.e., Figure 1, Figure 2, Figure 3).
- Do_appendix_JOP: Do-file for replicating results in online appendix.
