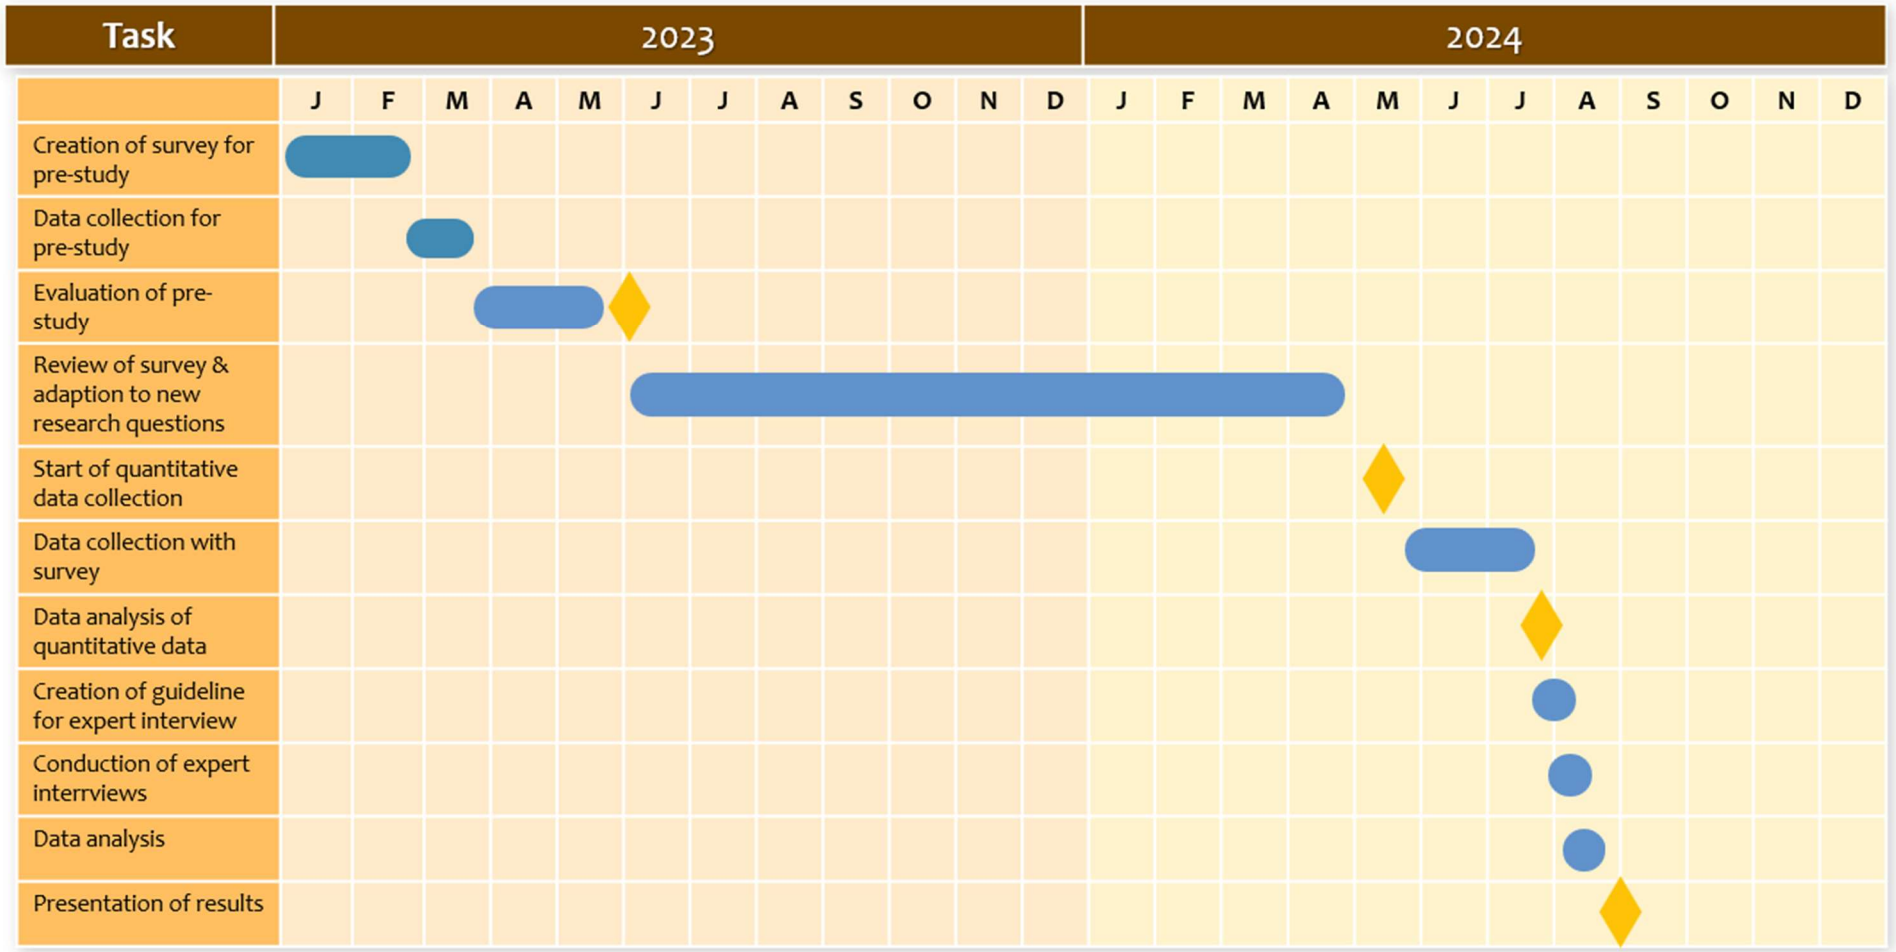
TRIAGON

Attachment – 3: Data collection process:

The following provides an overview of the time spent on each of the following stages of the study:

- a preliminary survey was constructed based on the content of Module 4 of Triagon's preparatory phase.
- the preliminary phase of the study, wherein the findings were articulated in the concluding Module 4 deliverable.
- the survey questions were then subjected to a process of review and modification in alignment with the revised research questions.
- the survey was conducted with the objective of gathering quantitative data (21.05.2024 – 15.07.2024).
- a systematic analysis of the quantitative data was completed by the end of July 2024.
- formulating a set of guidelines to be employed in the context of expert interviews until end of July 2024.
- conducting expert interviews until end of Calendar week 32.
- data analysis of qualitative date until end of Calendar week 32.
- presentation of results until end of August 2024.
- finalization of the doctoral thesis until end of Calendar week 35.


Data Collection (quantitative & qualitative)
