The Power of History: How A Victimization Narrative Shapes National Identity and Public Opinion in China

Yiqing Xu (Stanford) Jiannan Zhao (UCSD)

The Replication folder contains the following files:

- "victimization.dta" is a Stata Data File containing the dataset we use for our analysis on the survey experiment.
- "newspaper. dta" is a Stata Data File containing the dataset we use for analyzing mentions of the "Century of Humiliation" in the People's Daily (1946-2015)
- "1_main.R" is a R script containing the code we use for creating Figure 3-7 in the main text and Figure A1-A2 in the Supplementary Materials.
- "2_newspaper.R" is a R script containing the code we use for creating Figure 2 in the main text – Mentioning of the ``Century of Humiliation" in the People's Daily (1946---2015).
- "3_appendix.do" is a Stata Do-file containing the code we use for creating the tables in the Supplementary Materials.
- "graphs" folder contains outputs for Figure 2-7 in the main text and Figure A1-A2 in the Supplementary Materials.
- "tables" folder contains the outputs for tables in the Supplementary Materials.
- "Codebook.pdf" is a PDF file describing the variables in the datasets.
- "ReadMe.pdf" is a PDF file describing the items in the Replication folder.
