Module A2: Informed Consent

Greetings!

I am {Enumerator Name}, calling from BRAC James P Grant School of Public Health of BRAC University. You previously participated **in a survey in November or December 2020** where you provided very important information on the current pandemic. We want to thank you for that. We again want to talk to you know about your current experiences with the Coronavirus pandemic. In particular, we are studying the gendered impacts of COVID-19 in Bangladesh. We would appreciate it if you could spare {40} minutes of your valuable time for this interview.

All your information will be strictly confidential, and we will not share your personal information outside our team. As a token of appreciation for your time, you will receive 150 taka which you will receive if you finish this interview. If you may find answering some of the questions sensitive and you can skip or refuse to answer those questions. We can also take breaks but once started the interview needs to be finished within the two days. You can ask me to stop at any point and you don't have to finish the interview if you don't want to.

If you have any further question(s), you can always contact {PERSON} at {PHONE NUMBER} or {EMAIL ADDRESS}. We will text you this information after we finish this interview, even if you don't complete the whole questionnaire.

Module E. Education

Read to the Respondent: In the following section, I am going to ask you some questions about education focusing on primary school-going children in your household.

Note for the Enumerator: This section focuses on the education of primary school-going children in the household. Questions in this section will be asked to respondents who indicated that he/she has primary school-going children.

As one of the COVID-19 measures implemented by many countries, the schools were closed for some periods of time, which makes the children stay at home. Through questions in this section, we want to understand 1) the gender difference for primary school-age boys and girls spending time on education during school closure, and 2) adult's efforts on monitoring home learning.

For the [pr_children] primary school going aged children and [sc_children] secondary school aged children, please tell us more information about each of them.
