How to Use the Data Dictionary

Variable Name: Data item names are unique throughout the entire file. Most of variable names are sequential identifier such as LA1, LA2 indicating the question number on the questionnaire that the variable comes from. Some derived variables may be a mnemonic string of character such as CASEID or INITEM.

Label: The label is a short description of the data item.

Type: The data type indicates whether the data item is numeric (N) or character (C).

Position: The position of a variable in the Stata data file.

Question Num: The question number indicates the original question in the questionnaire, where the variable comes from.

Question Text: Text from the questionnaire is provided if the variable was obtained directly.

Frequencies & **Means:** For most categorical variables in the codebook, the counts and percentages of each variable in the data file are shown. For continuous variables, we provide descriptive statistics on minimum, maximum, mean, and standard deviation. The number of valid cases and missing cases are also shown for all variables.

Unique Values: A list of all of the possible non-missing values for the variable and the description of the values.

Unique missing data codes: There are five types of missing values:

For Numeric Variable	For String Variable		Missing Value Type
.a	**RF**	=	refuse to answer
.b	**DK**	=	don't know the answer
.c	**NA**	=	not applicable
.x	**IV**	=	invalid value
.y	**MI**	=	missing value

.a or **RF**: The subject explicitly refused to answer the question or did not answer the question when he or she should have.
.b or **DK**: The subject was unable to answer the question, either because he or she had no opinion or because the required information was not available.
.c or **NA**: The subject was never asked the question for one reason or another. Usually this results from "skip patterns" that occur.
.x or **IV**: A response is inconsistent with related responses or is incompatible with response categories. The circumstances could be: interviewers/data-entry worker incorrectly record a response when recording or keying in the data.
.y or **MI**: Items should be filled out but have no data entry found. This is enumerator's own mistake and nothing to do with the respondent. The circumstances can be interviewers failing to ask a question or forgetting to record a response.

Variable Index
Key Informant Annual Resurvey, 2010

Village Headman Identification

Item	Description	Location
cvr1f	Team Number	1
Vh1a1	Are you the headman	1
vh1b1	Were you the headman	2
vh1b2	Headman	2
vh1c	Sex	3
vh1d	Age	3
vh1e	Position	4
vh1eo	other (specify)	5
vh1f	How many years	5
vh1g	highest grade	6
vh1g1	Education system	7
vh1h	Occupation	8
vh1ho	other (specify)	9
vh1i	Occupation	10
vh1io	other (specify)	11
vh1j	How many rai your own	11
vh1k	How many rai inherit	11

Population

Item	Description	Location
vh2a	How many households	12
vh2b	population	12
number	NUMBER	13
vh2c	change	13

Unique Values / Codes	
Unique values = 20 Unique missing data codes = 1	
Valid cases = 96	Missing cases: 0 DK(don't know the answer)= 0

Variable Name: **vf4**
Label: why not
Type: N
Position: 4
Survey/Derived: S
Question Num: vf4
Question Text: Why don't you get the fund yet

Unique Values / Codes

Value	Description
1	Just Request
3	Problem during the request
5	Other (Specify)
.c	not applicable

Frequency

Value	Count	Percent
.c	96	100.00
	96	100.00

Valid cases = 0 Missing cases = 96

Variable Name: **vf4o**
Label: Other (Specify)
Type: C
Position: 5
Survey/Derived: S
Question Num: vf4o
Question Text: Other (Specify)

Unique Values / Codes	
Unique values = 1 Unique missing data codes = 1	
Valid cases = 0	Missing cases: 96 NA(not applicable)= 96

Variable Name: **vf5**
Label: why not
Type: N
Position: 6
Survey/Derived: S
Question Num: vf5
Question Text: Why don't you get the 1million village fund yet

Unique Values / Codes

Value	Description
1	Not interesting
3	Problem on villager grouping
5	Problem during the request
7	Other (Specify)
.c	not applicable

Frequency

Value	Count	Percent
.c	96	100.00
	96	100.00

Valid cases = 0 Missing cases = 96

Variable Name: **vf5o**
Label: other (specify)
Type: C
Position: 7
Survey/Derived: S
Question Num: vf5o
Question Text: other (specify)

Unique Values / Codes	
Unique values = 1 Unique missing data codes = 1	
Valid cases = 0	Missing cases: 96 NA(not applicable)= 96
