The Young and the Hawkish: Generational Differences in Conflict Attitudes in Israel

Liran Harsgor

Research & Politics

Replication Materials

The replication materials include the following files:

Replication of econometric models

1. *Replication code - Young and Hawkish.do*: a Stata do file detailing the analysis code for all figures and tables appearing in the article. The file is useable with Stata.
2. *INES81-19.dta*: the primary Stata data file used for the article's analyses.

Detailed descriptions of the INES data and primary variables are available in Online Appendix A.
