CAH27 "OS7. HISPANICITY" NUM(1.0)

OS7. Hispanicity of Child

Questions about Hispanicity were asked beginning in 2005. Data records in the cumulative file before 2005 contain values of 8 for Hispanicity.

Changes in the RACE (CAH28-CAH30) code frame in the 2007 interviewing wave prompted a change in this code frame for 2007 and subsequent waves. See CAH85_17 Introduction: Section I: OVERVIEW OF THE 1985-2017 CHILDBIRTH AND ADOPTION HISTORY FILE for a complete explanation of the changes in 2007.

Note that code "6" is new beginning in 2007. It was created in order to preserve information collected 1997 through 2005 in RACE code "5. Latin origin or descent". Those cases have had RACE recoded to "7. Other", and HISPANICITY has been recoded to "6. Latin origin or descent, no further information".

OS8. Race of Child, 1st Mention

Questions about race were asked beginning in 1997. Data records collected prior to this time contain values of 8.

Changes were made in the Race code frame beginning in the 2007 interviewing wave. See CAH85_17 Introduction: SECTION I: OVERVIEW OF THE 1985-2017 CHILDBIRTH AND ADOPTION HISTORY FILE for a complete explanation of these changes, but briefly:

(1) In order to preserve the Hispanicity information previously collected and documented in the 1997 through 2005 Race code "5", in 2007 and subsequent years see Race code "7" and HISPANICITY (CAH27) variable code "6";
(2) in 2007 and subsequently, Hawaiians or Pacific Islanders are Race code "5", not code "4".

Users should also note that beginning with the 2013 questionnaire, Native Hawaiian and Pacific Islander categories were separated, however in the cumulative file we have combined those categories into code "5" to maintain consistency with historial records.

Number of Childbirth or Adoption Records for this Individual

The values for this variable indicate the total number of childbirth or adoption records on the data file for this parent. This variable is specific to record type. Use CAH2 to determine whether values here refer to number of children born or adopted. For example, if CAH2 equals 1 and this variable equals 2, then this individual has two childbirth records. A value of 1 for this variable indicates a person with one record of this type. He or she may have never had (or adopted) a child, have had (or adopted) only one child, or the childbirth (or adoption) information is not ascertained. Use values in CAH2 and CAH106 to determine which of these three possibilities is indicated.
