ER30001 "1968 INTERVIEW NUMBER"

1968 Interview Number (1968 ID Number)

This variable is the 1968 family ID number. The combination of this variable and Person Number (ER30002) provides unique identification for each individual on the data file. Individuals associated with families from the Latino and Immigrant samples, added to the PSID in 1990/1992 and 1997/1999, and 2017 respectively, were assigned 1968 IDs so that they, too, have unique identifiers compatible with the PSID structure for the core (SRC and Census) sample.

Non-comparability Notes Appendix

I-k Field width differs.

I-l Note that the weight variables are not comparable across waves. Three types of weights (core only, Latino only and combined core-Latino) were created for 1990 through 1995 because of the addition of the Latino sample. Beginning in 1993, weighting philosophy for recontacts changed. See Section I, Part 5 of the 1993, the 1990 and the 1992 documentation or the User Guide for further information and details. Weights were retroactively recalculated for all years in 1989.
