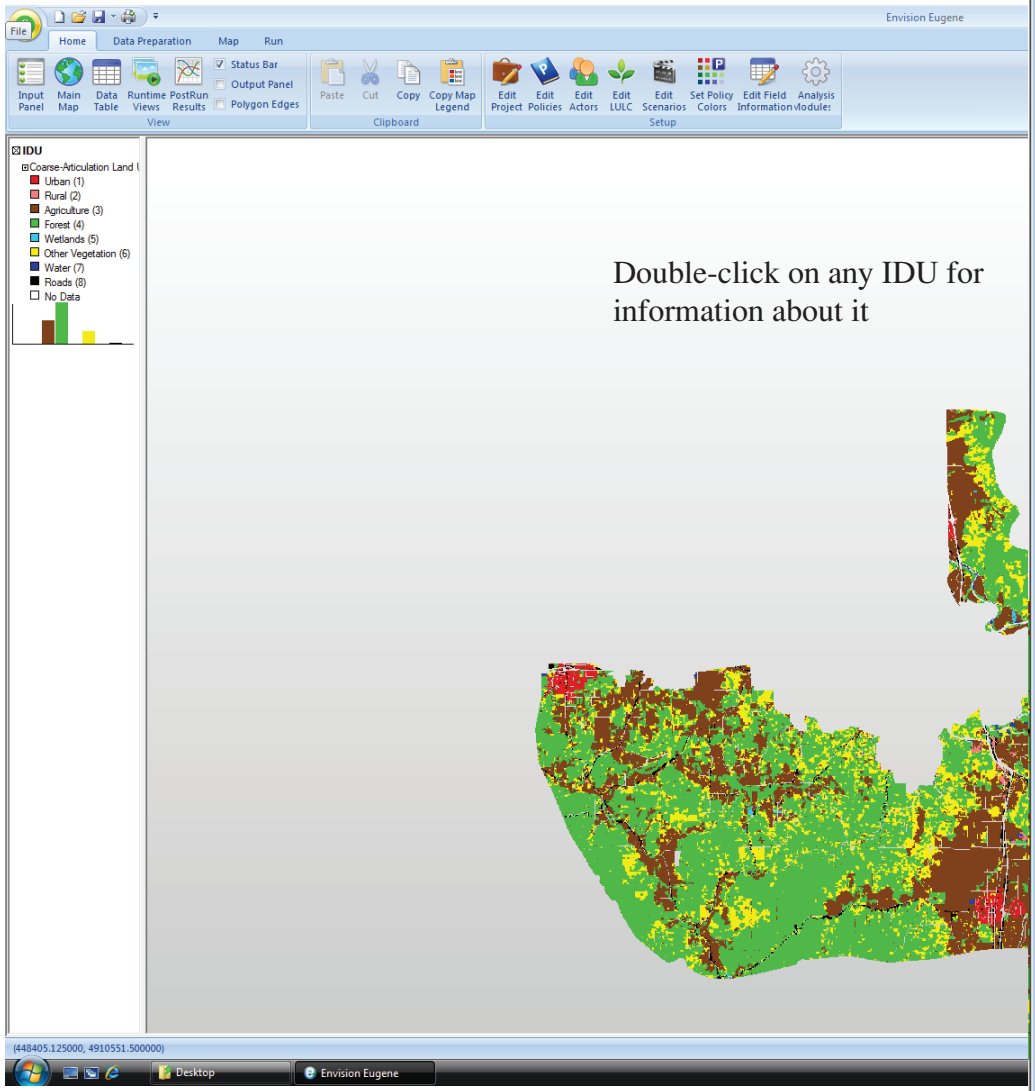
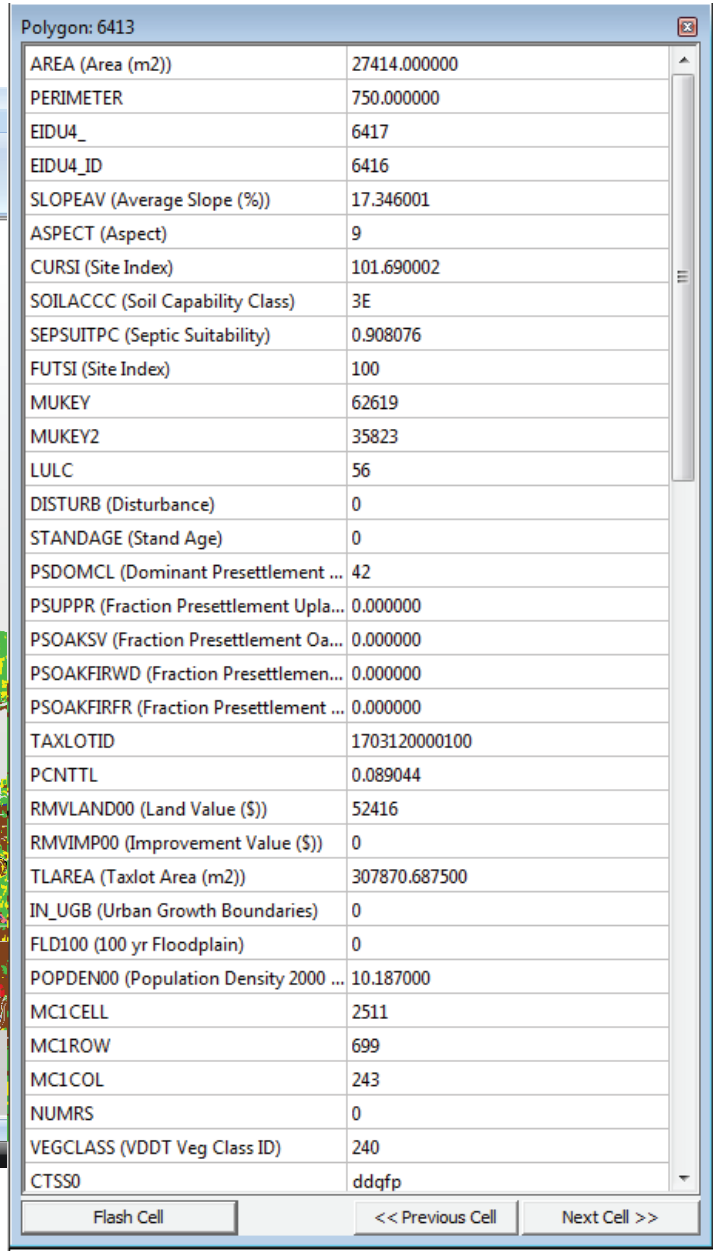
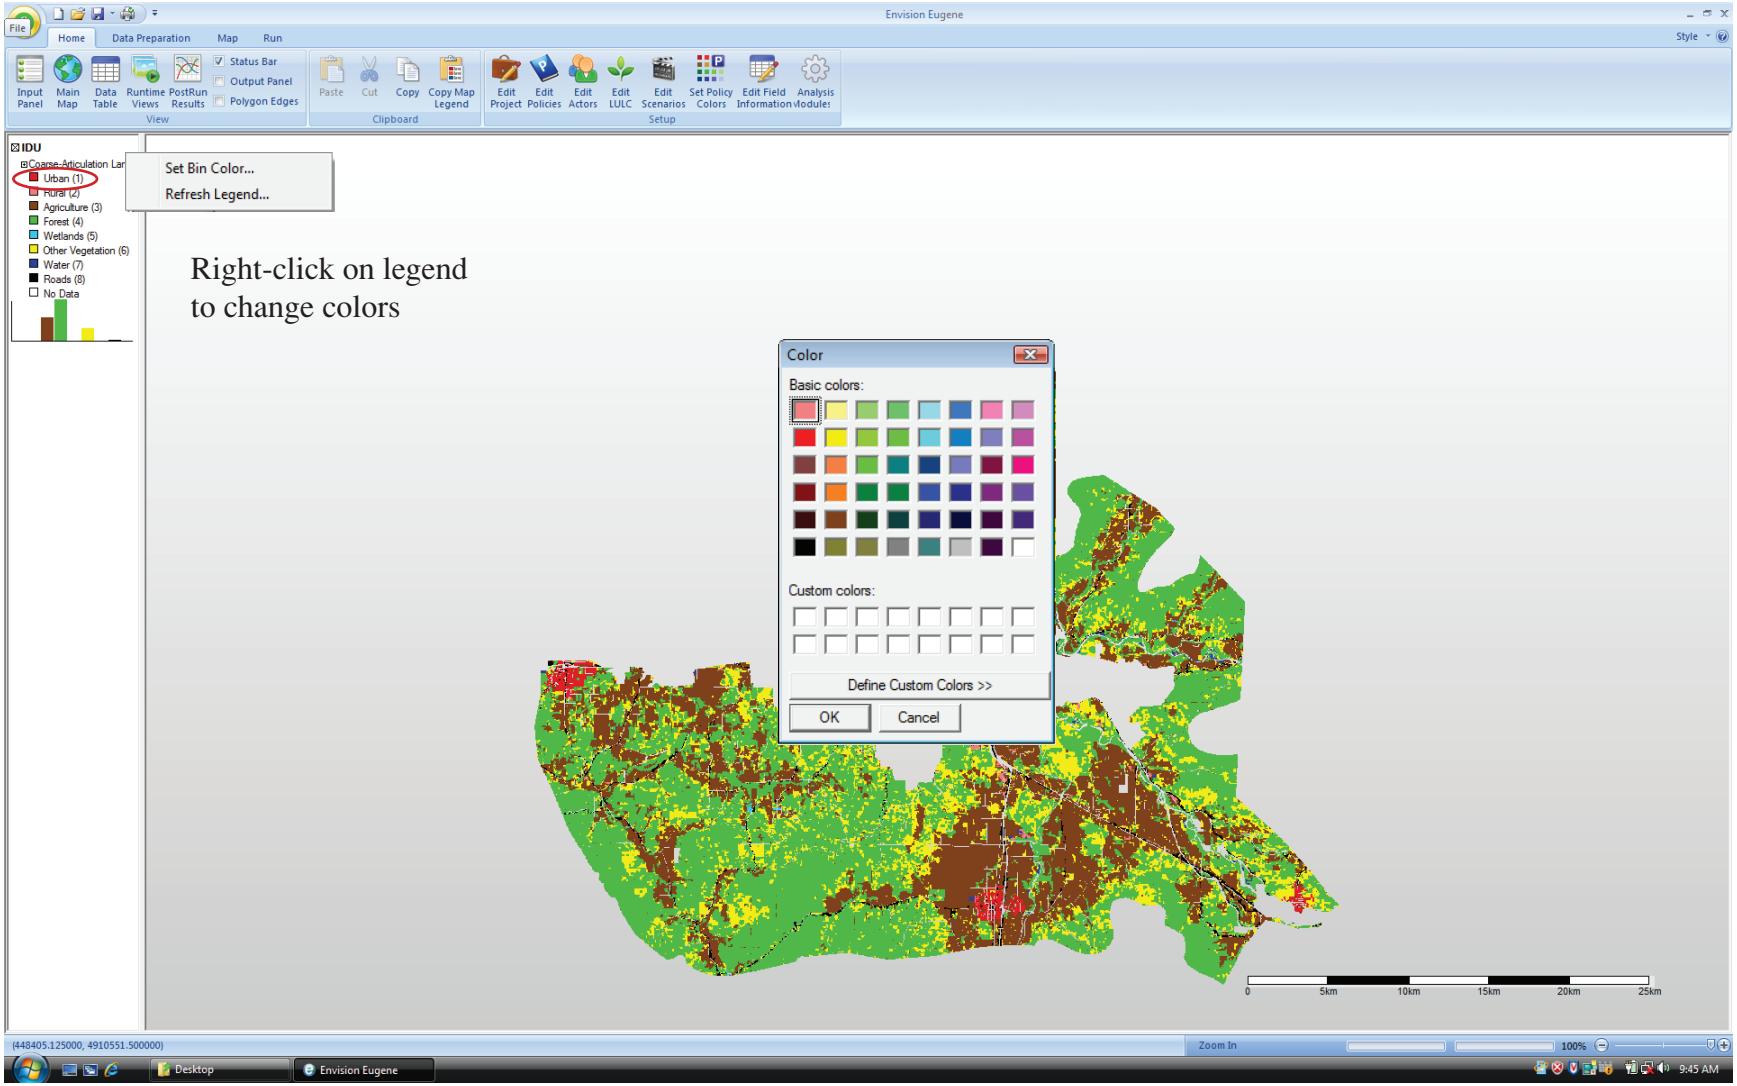
Finding more information about IDUs

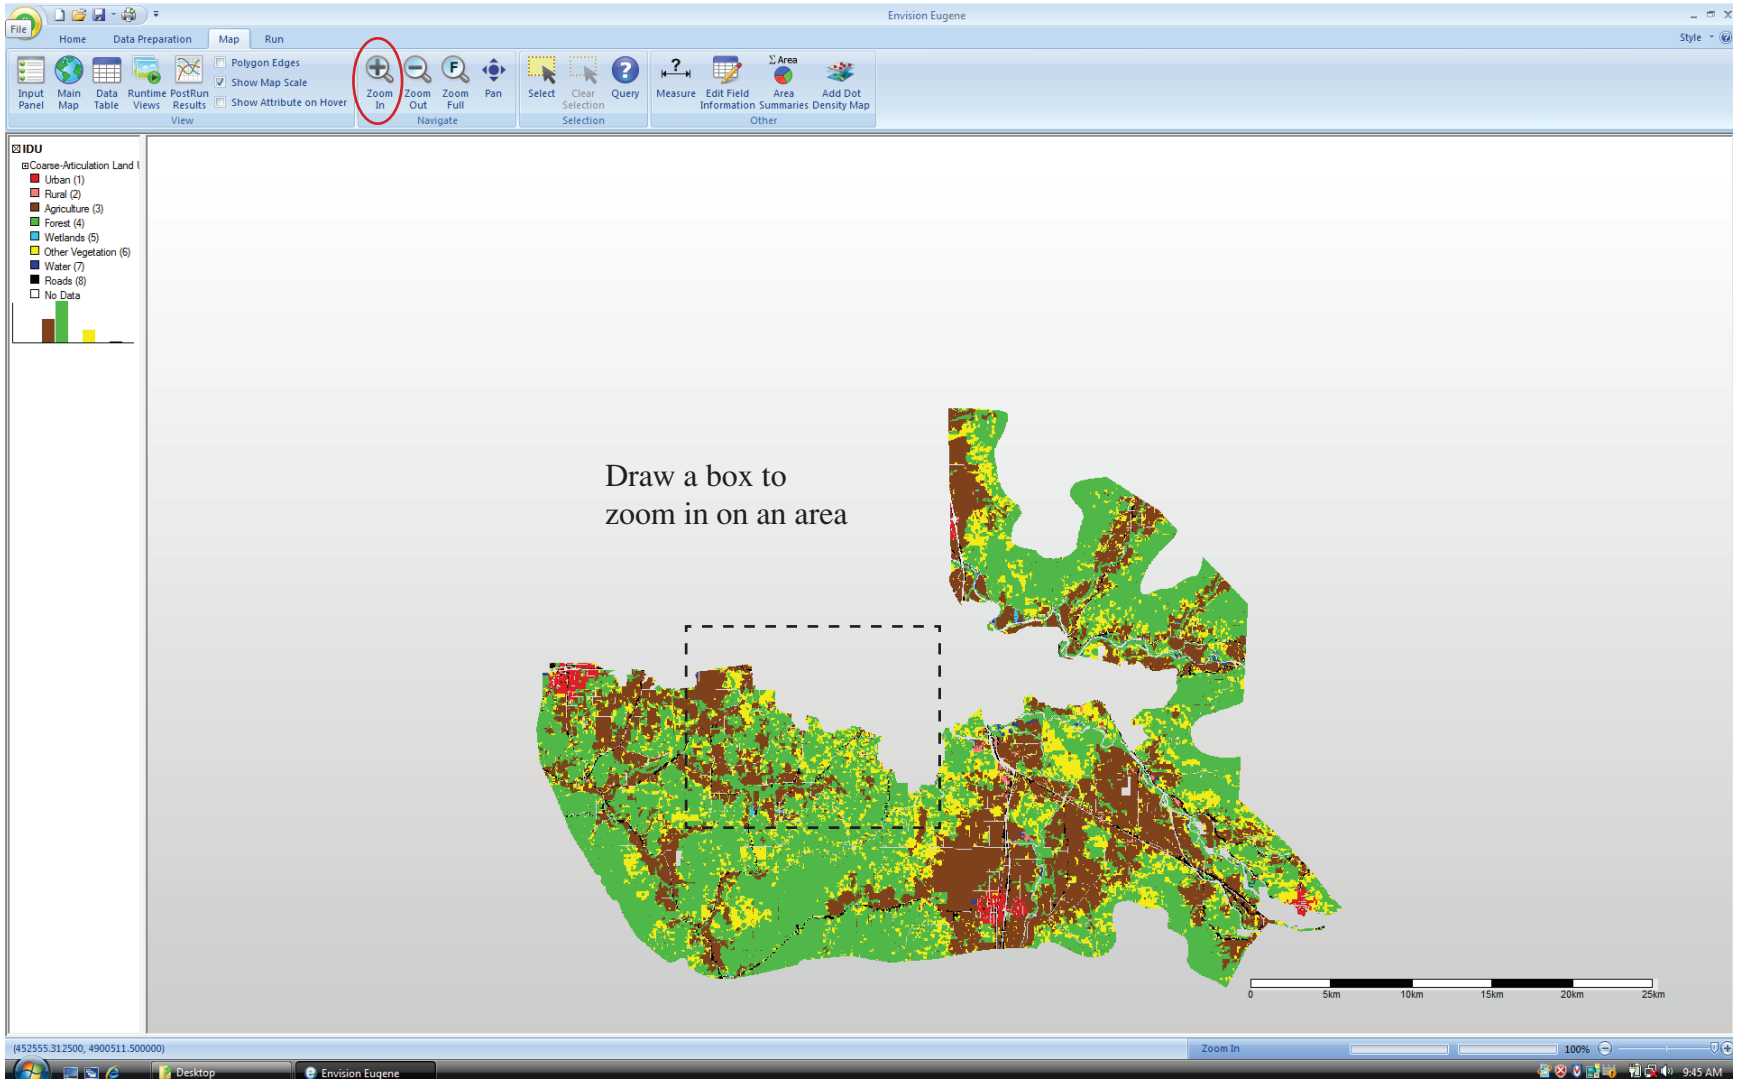




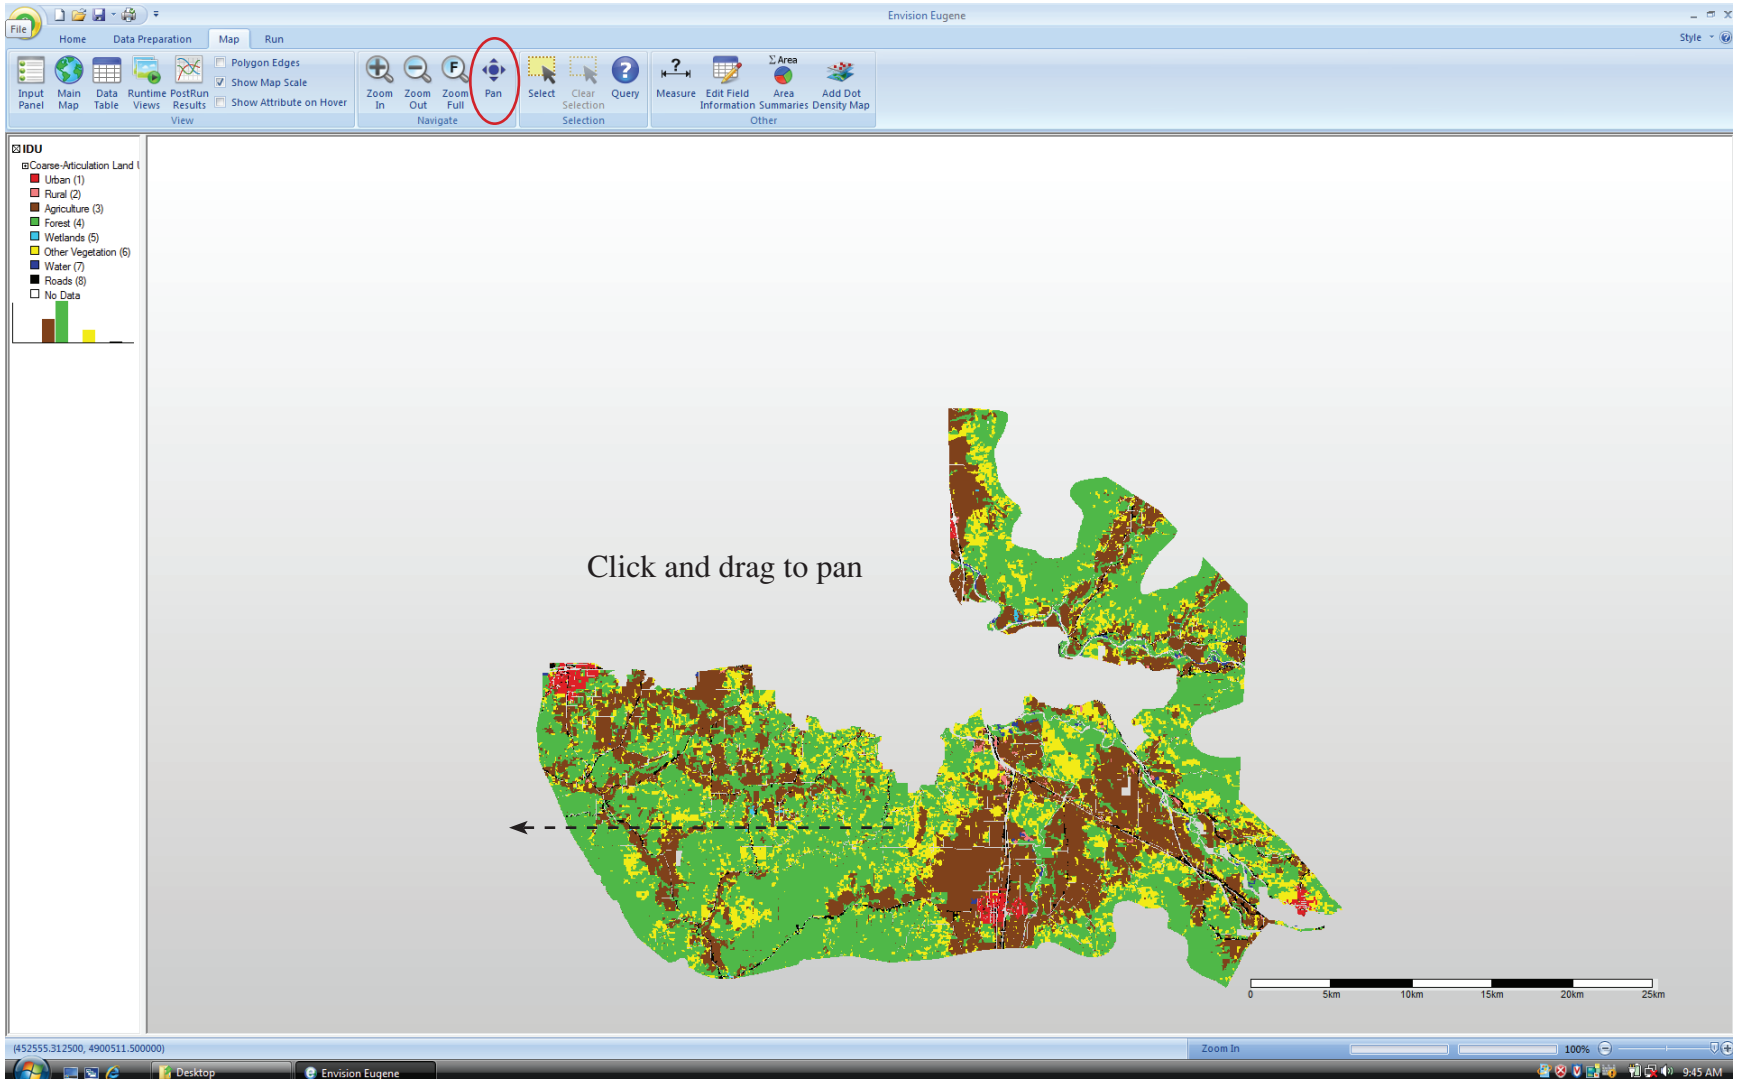
Changing attribute colors (if you are interested in one particular attribute and it is too hard to see)



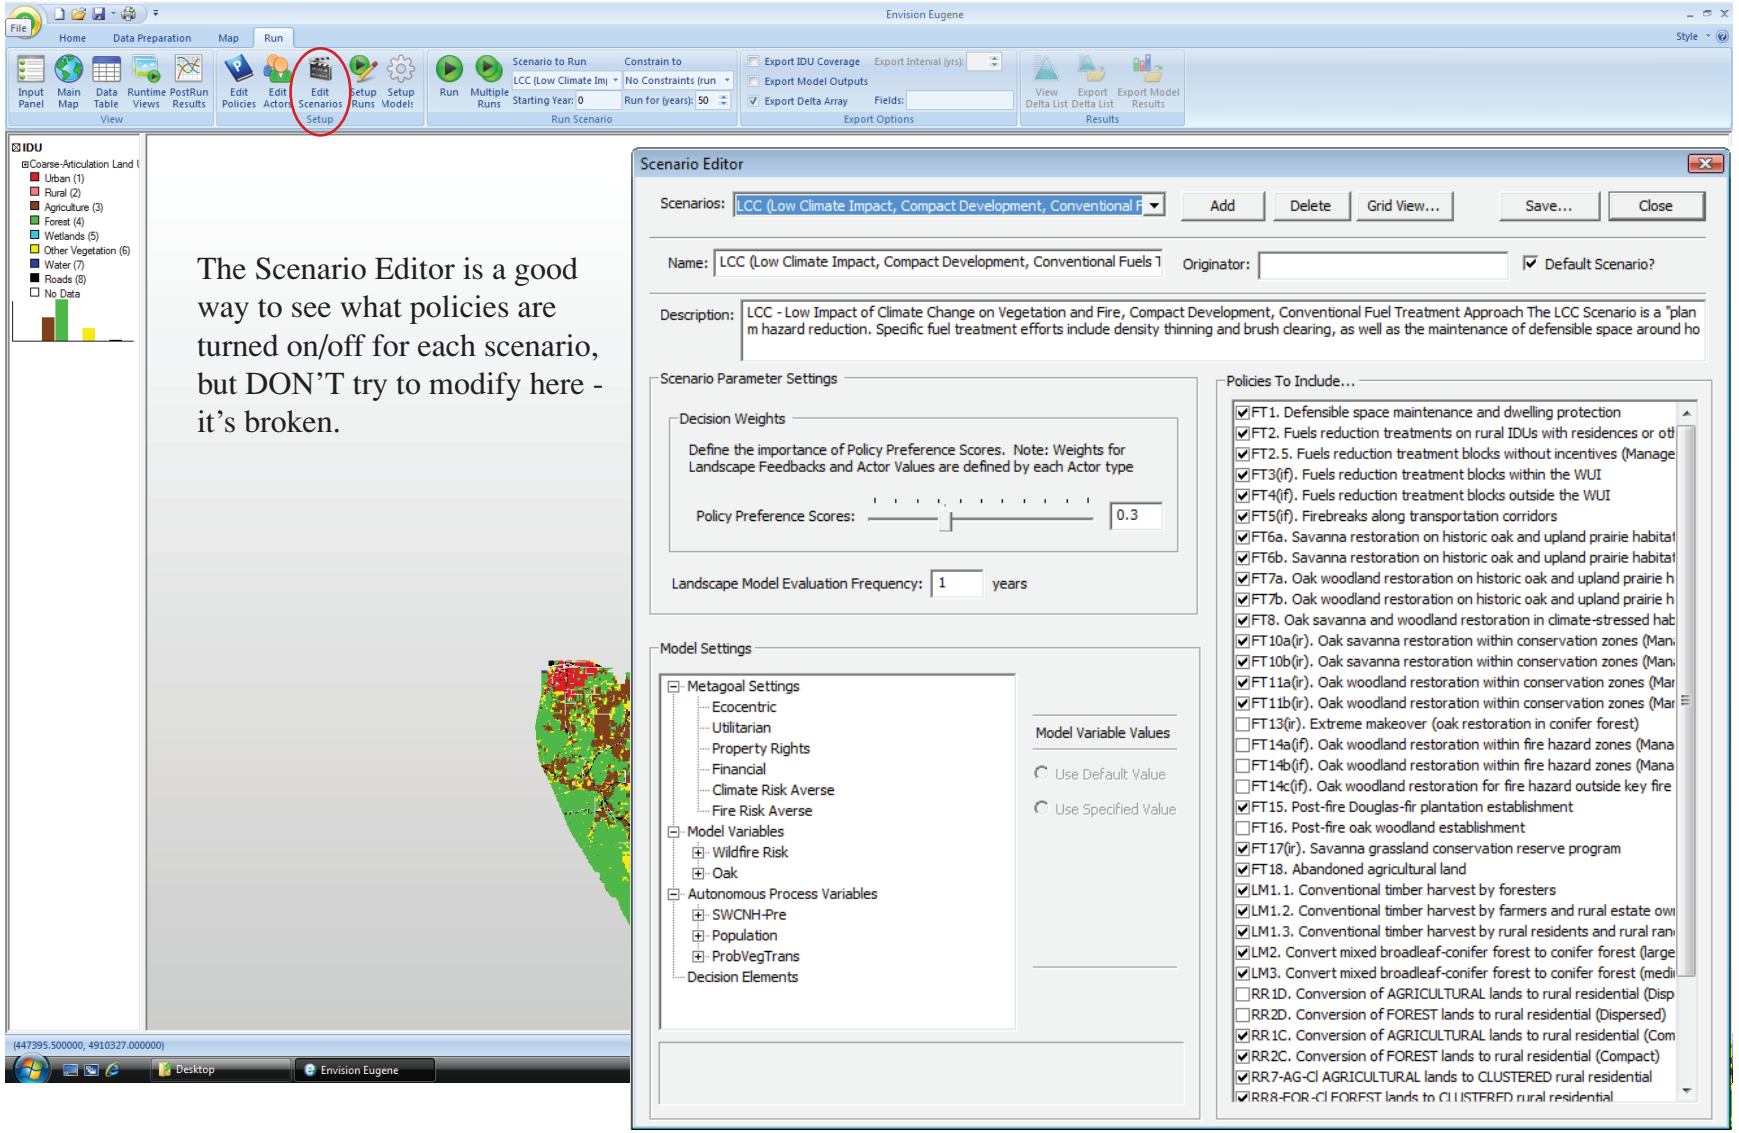
“Map” tab - zooming



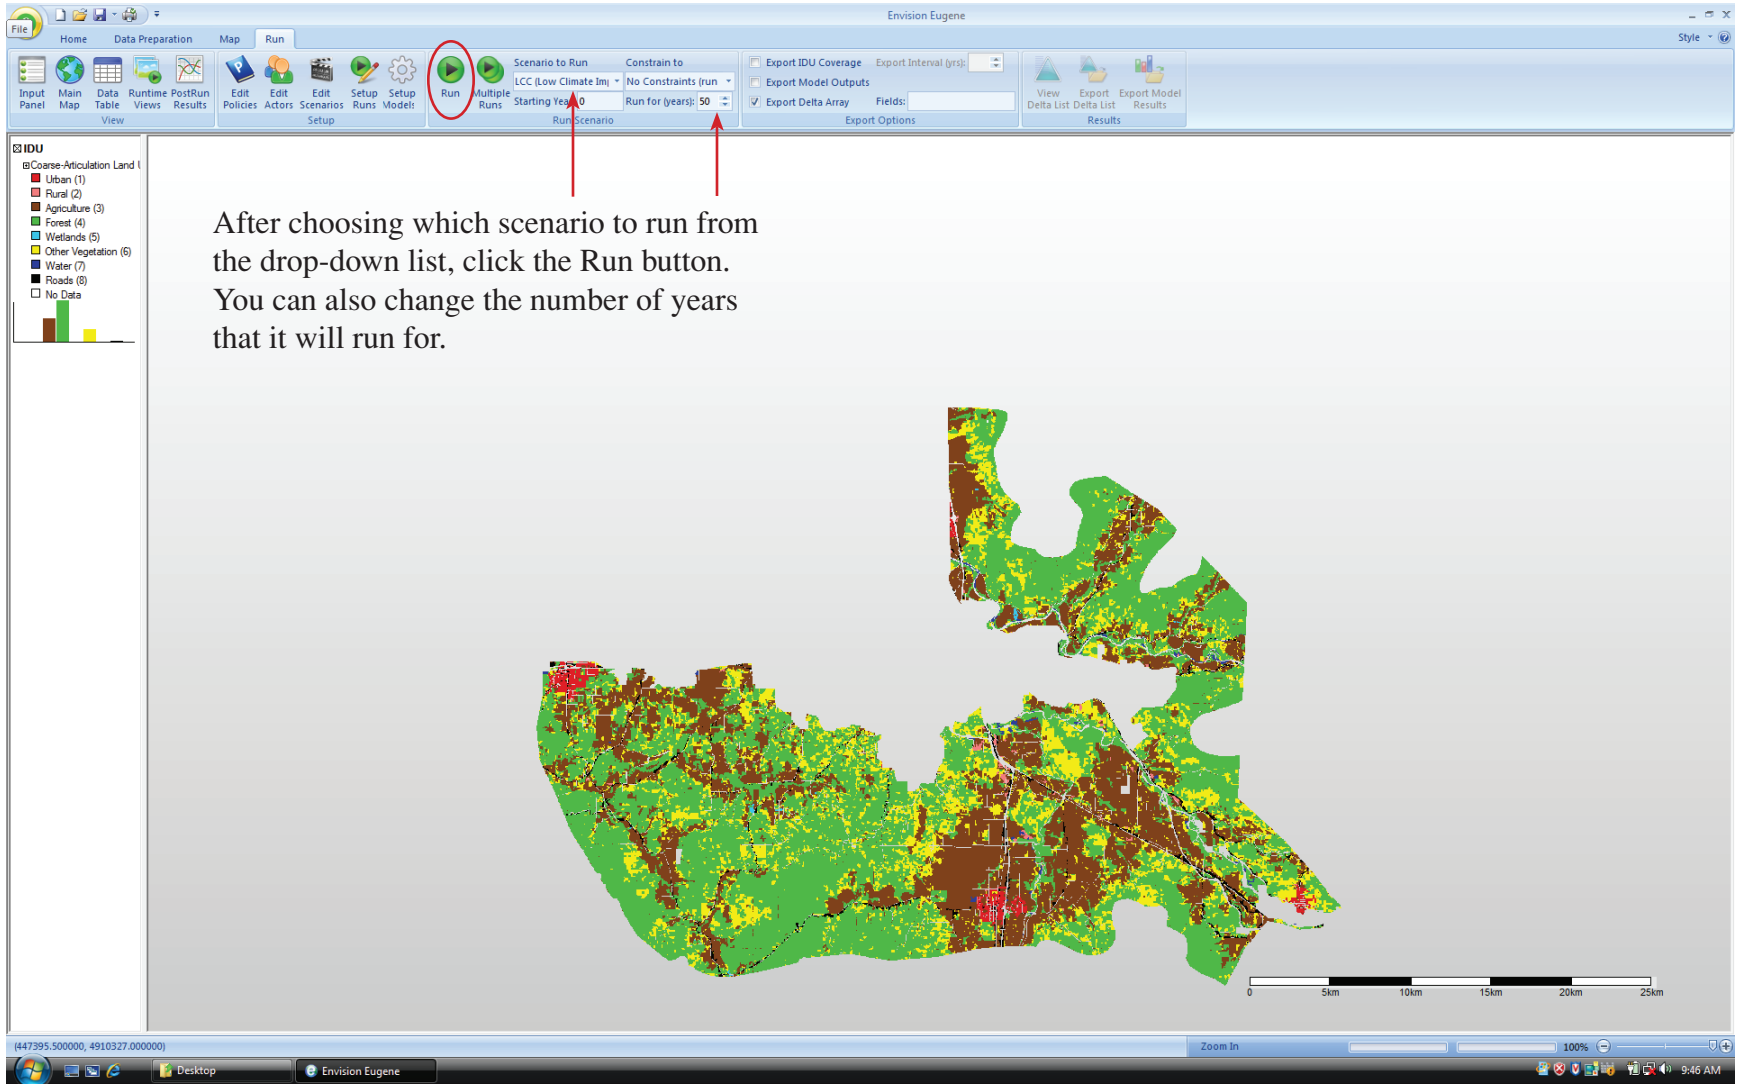
“Map” tab - panning



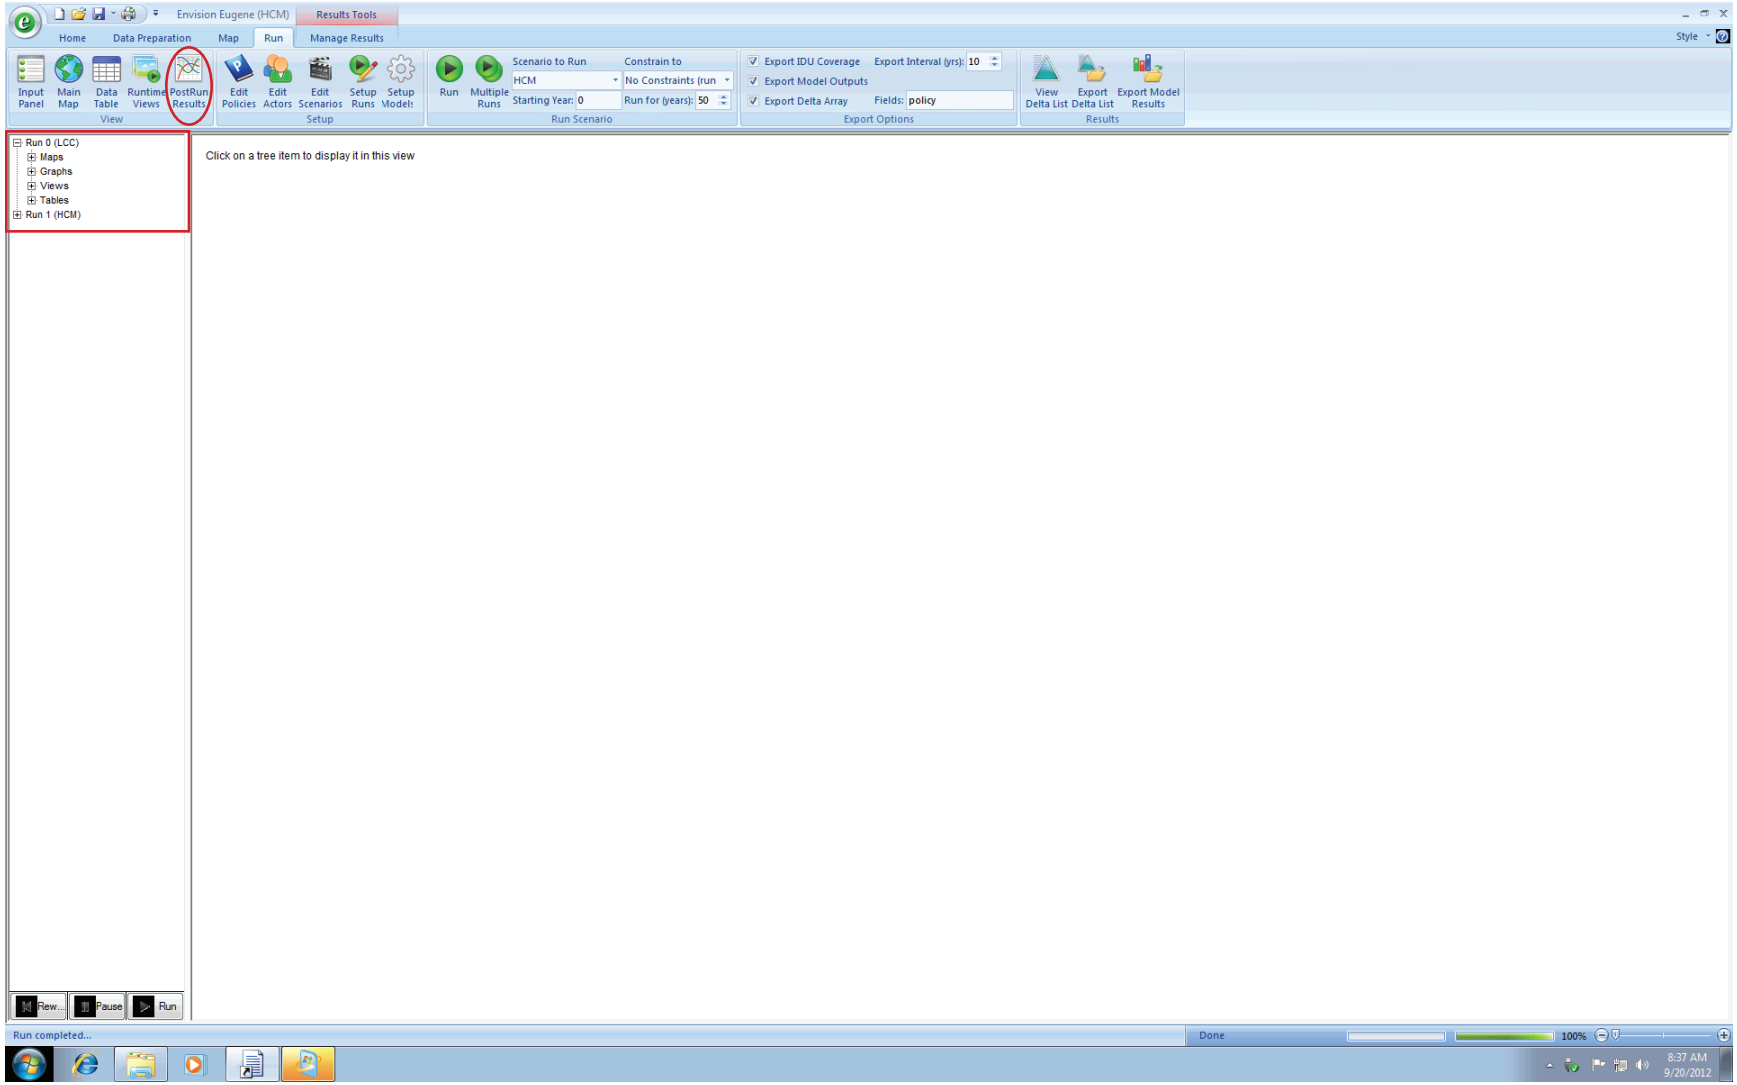
“Run” tab - viewing scenarios



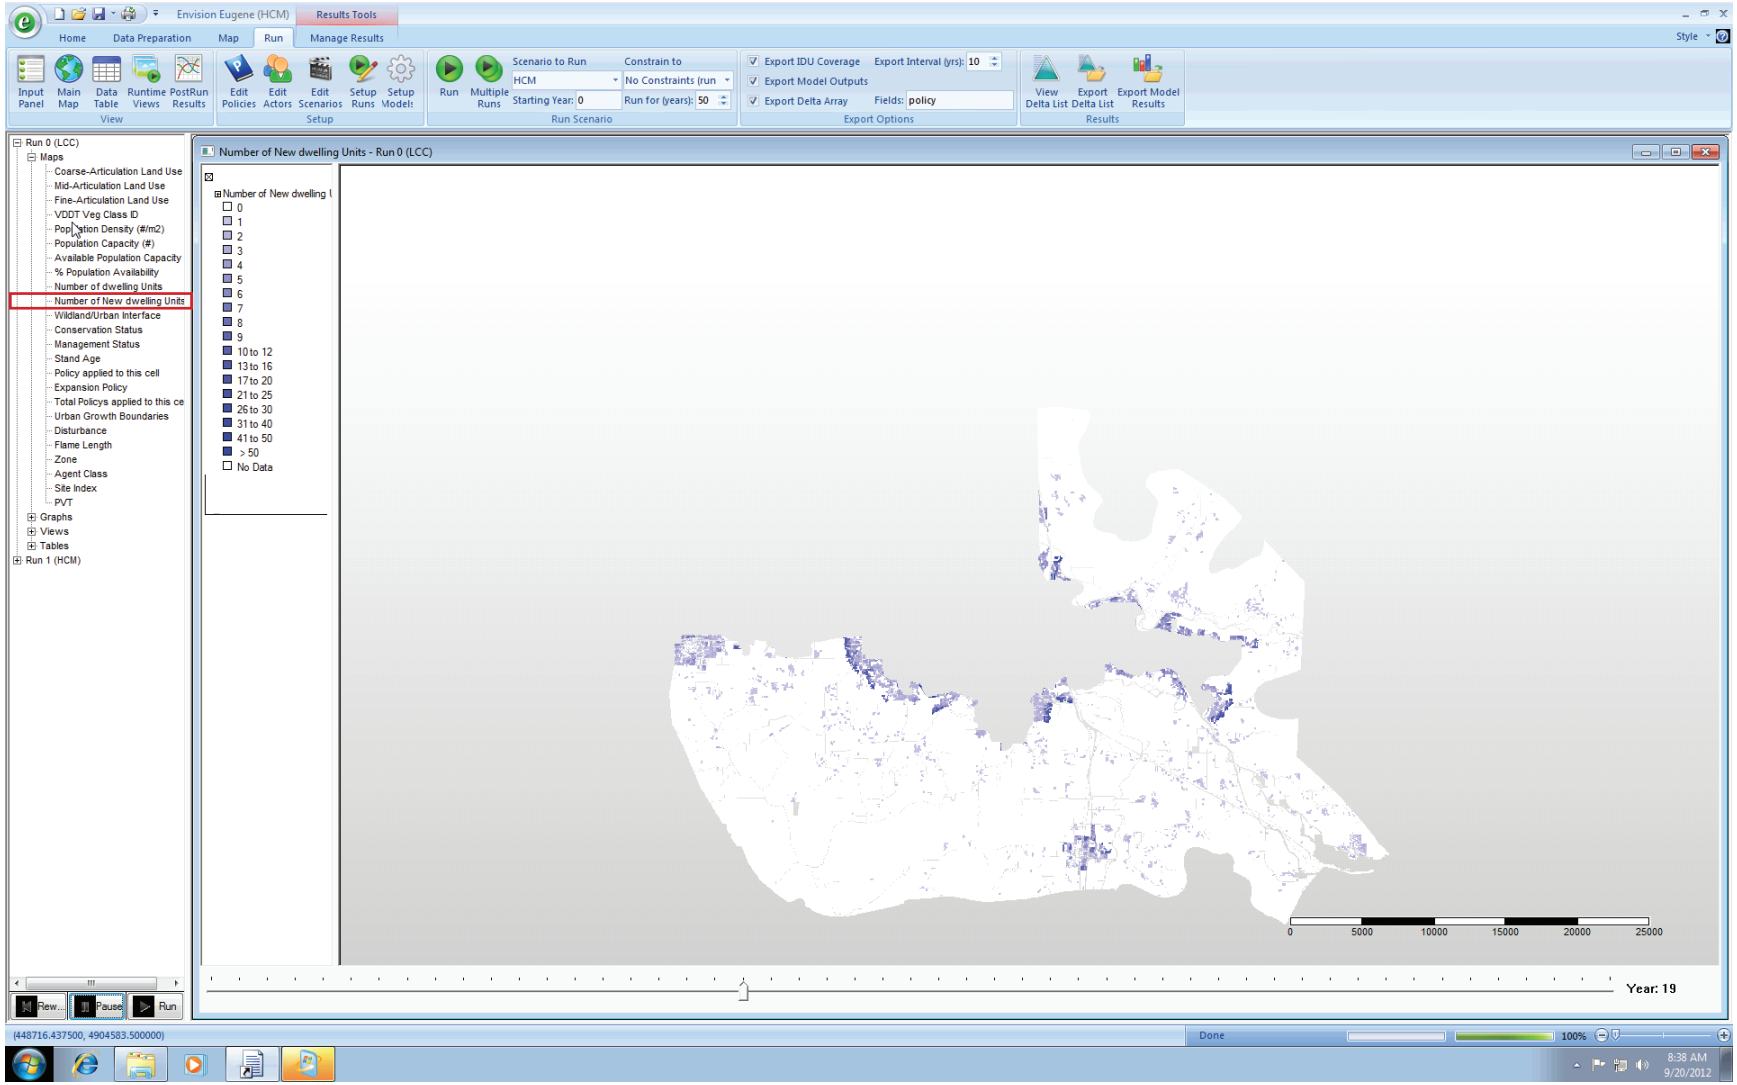
“Run” tab - choosing scenarios and running the simulation



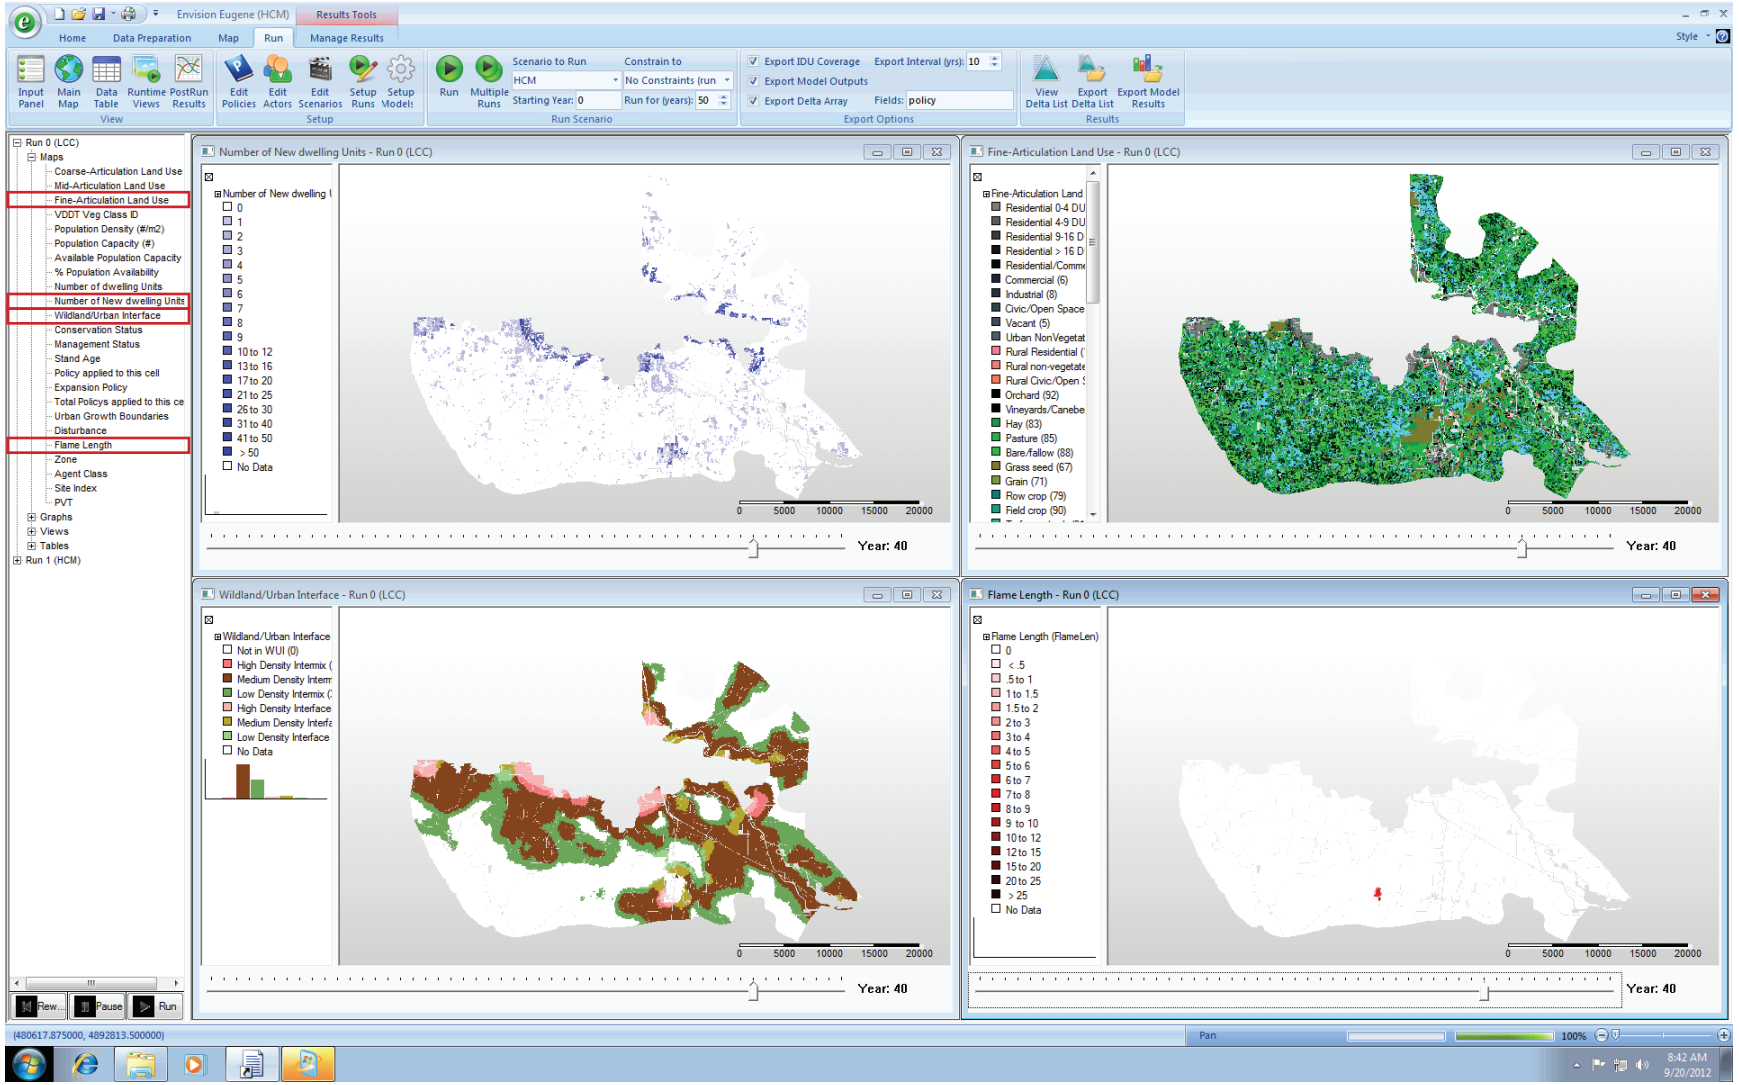
Viewing Postrun Results



Viewing Postrun Results - Maps

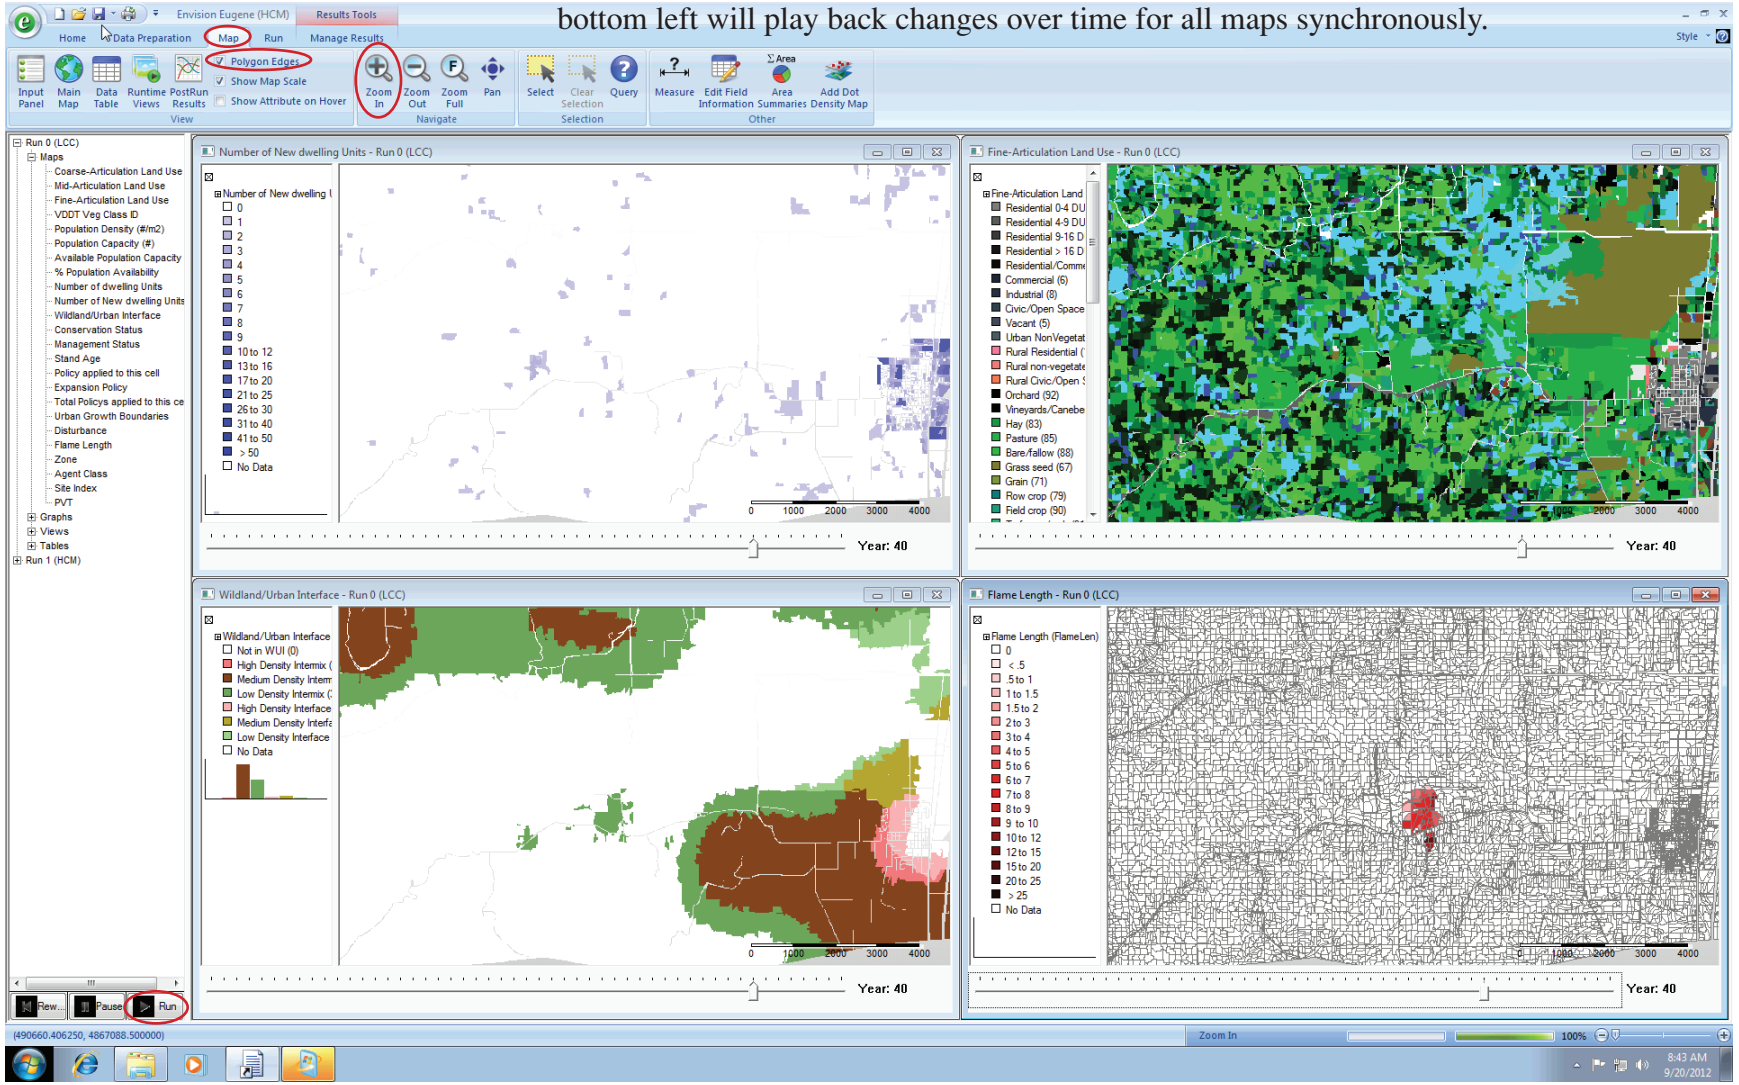


Viewing Postrun Results - multiple Maps

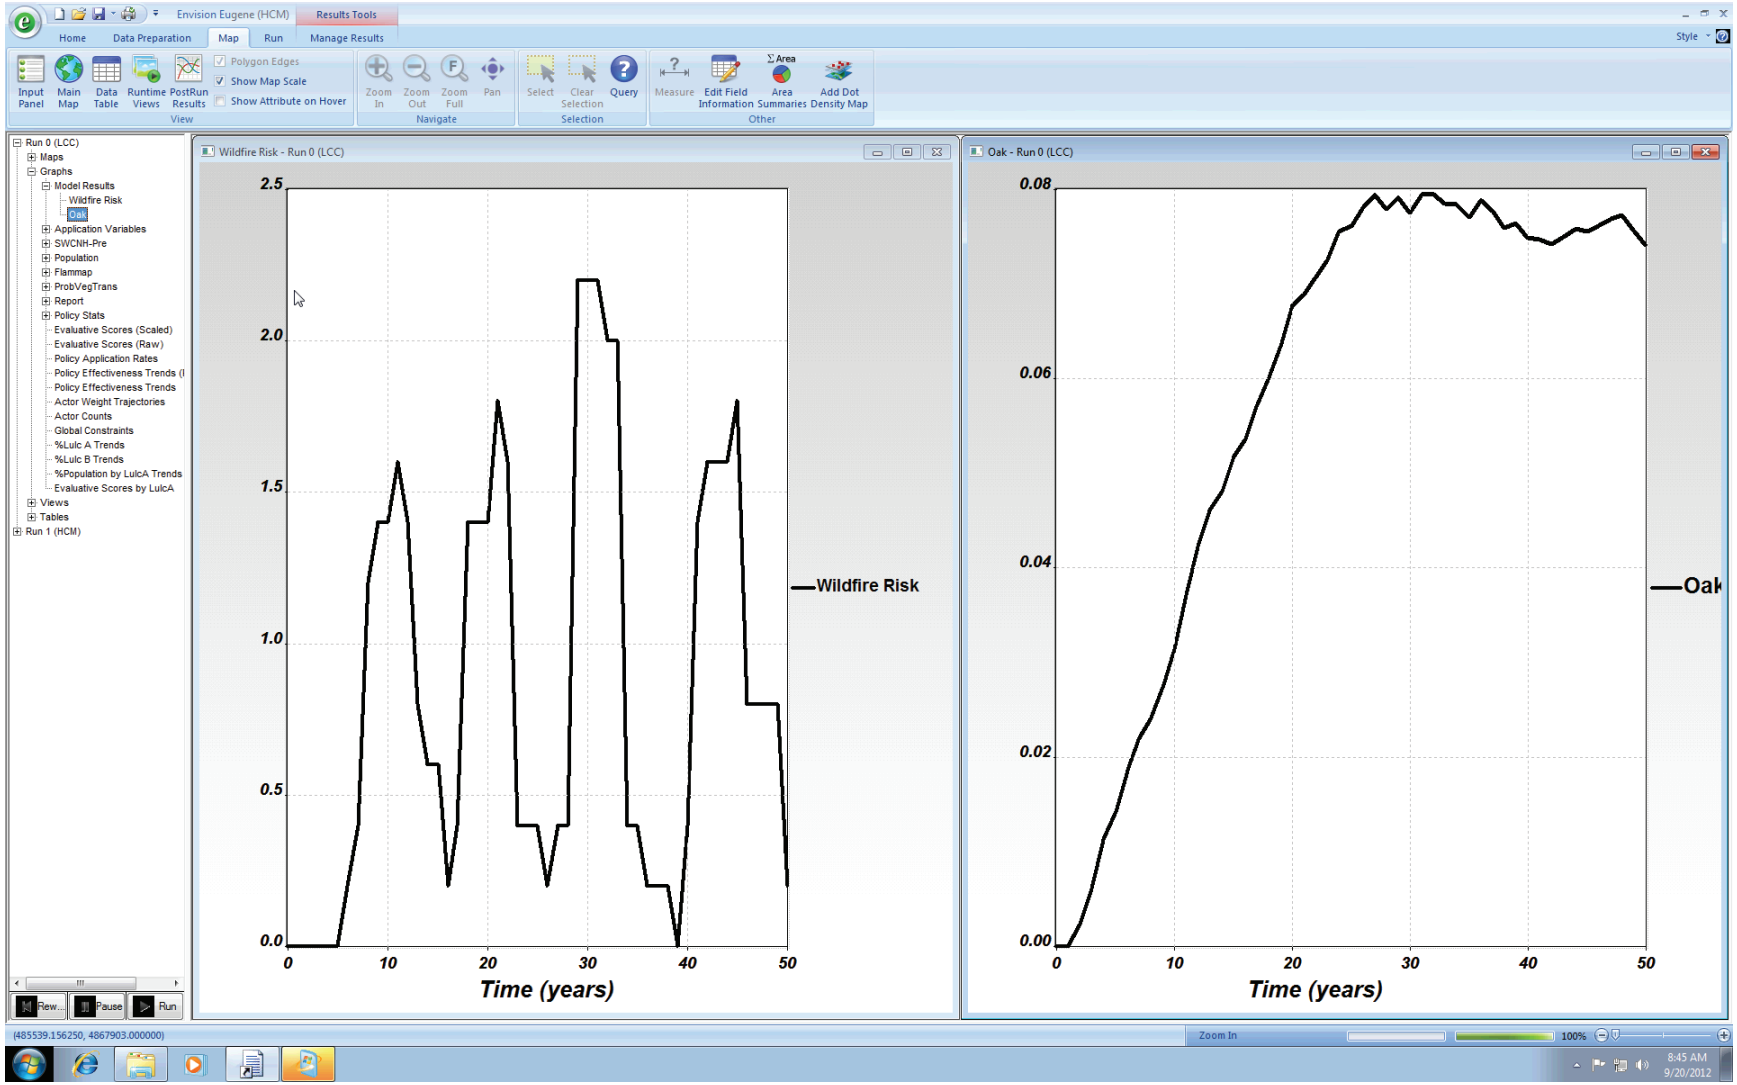


Viewing Postrun Results - zooming, showing IDU boundaries and simulation playback

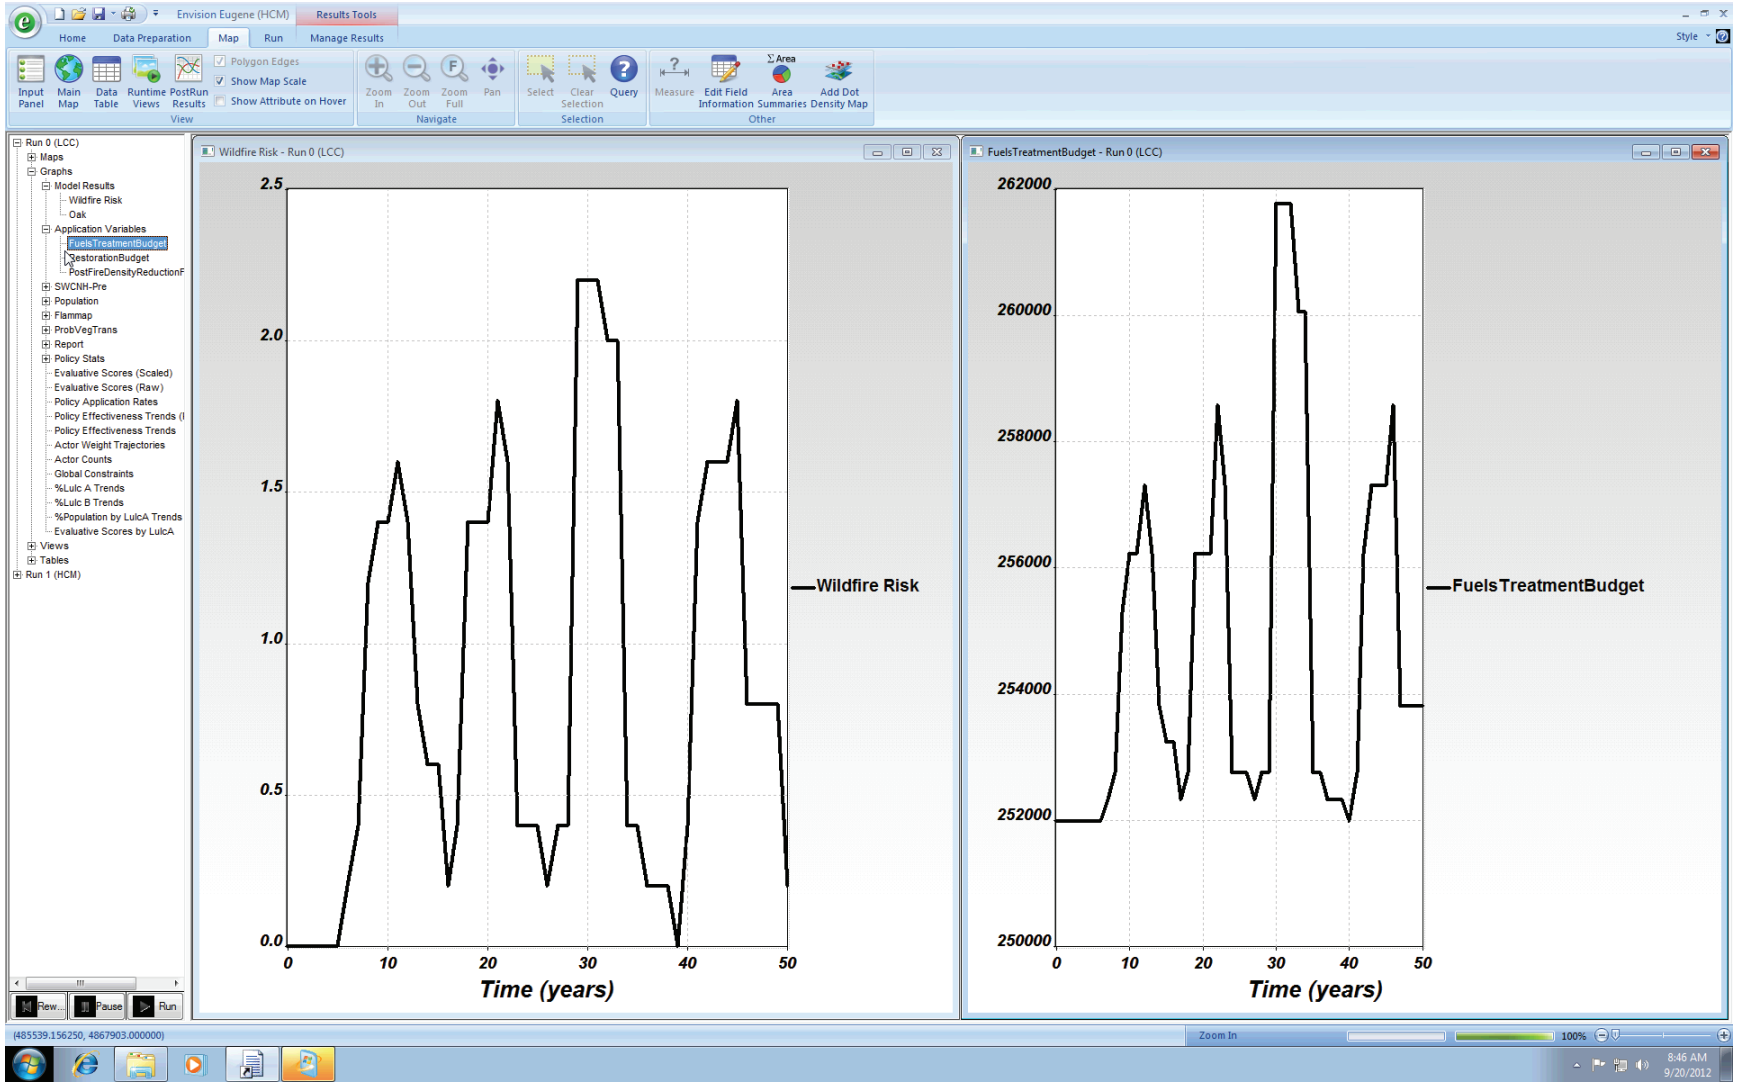
You can click back to the Map tab to control views; multiple maps will zoom and pan simultaneously. Checking Polygon Edges will show IDU boundaries. Clicking Run at the bottom left will play back changes over time for all maps synchronously.



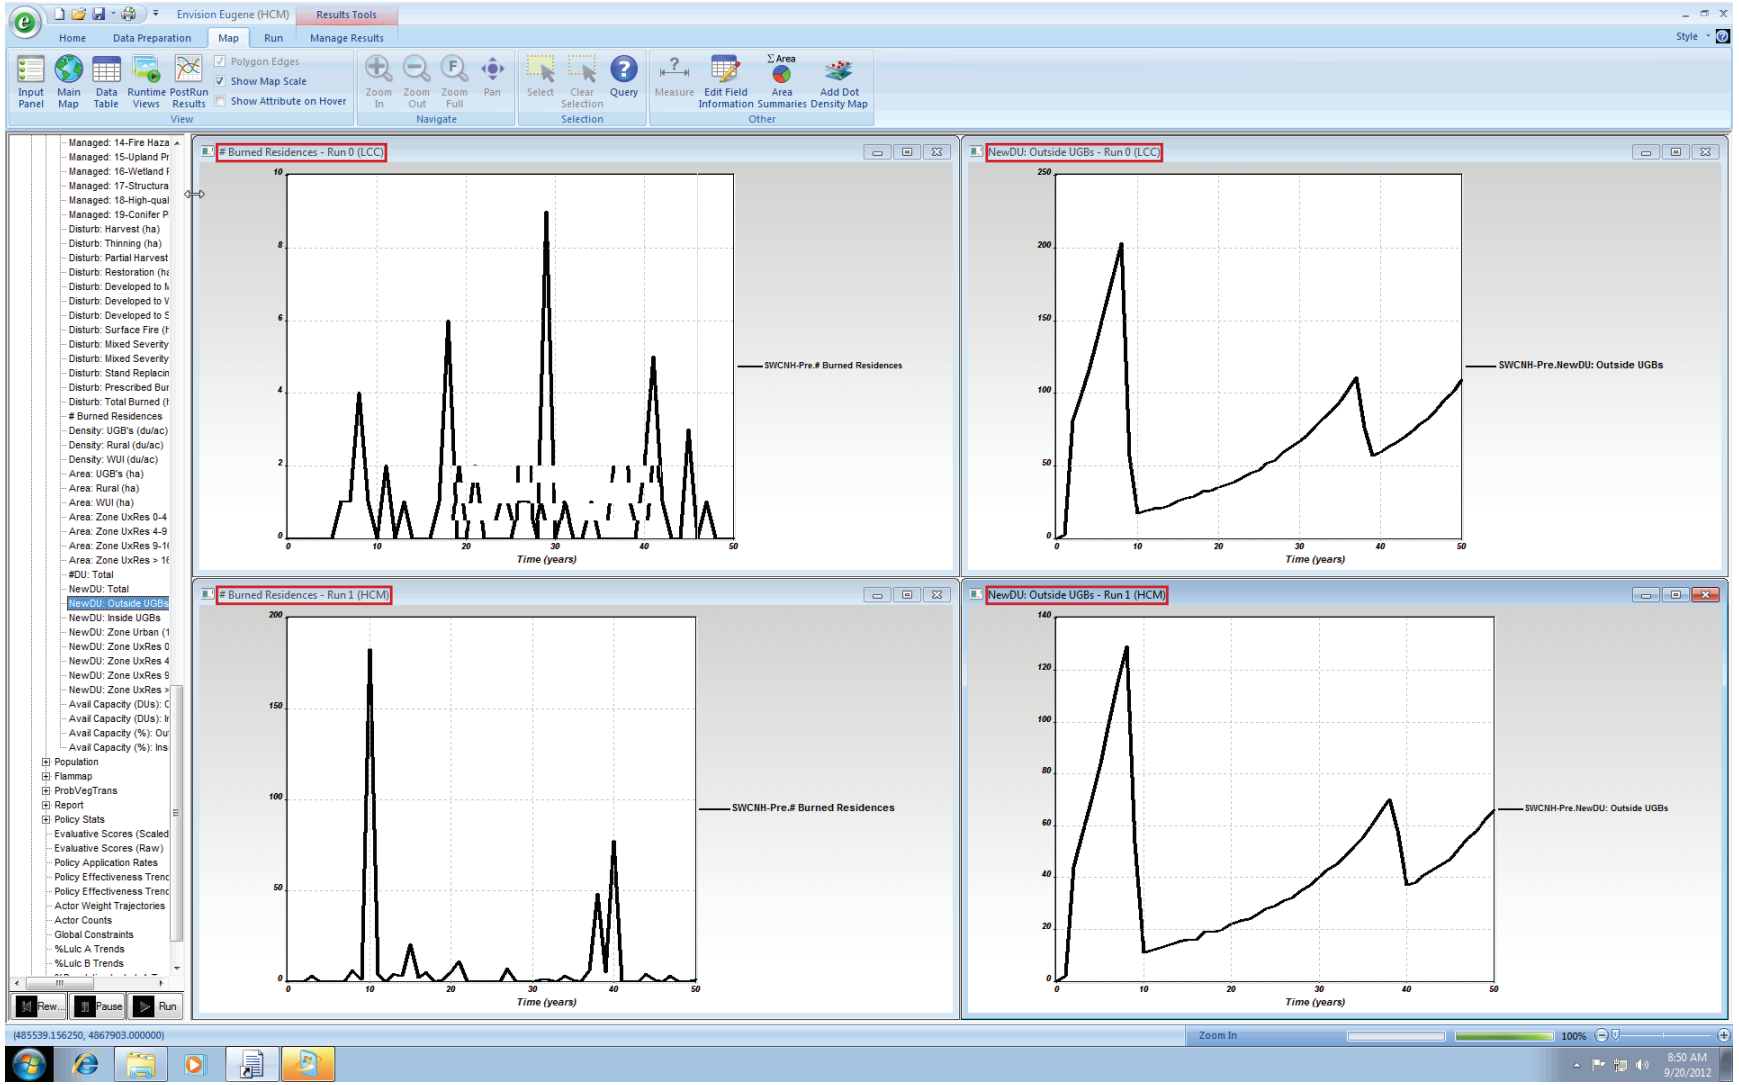
Viewing Postrun Results - comparing Graphs within a single scenario run

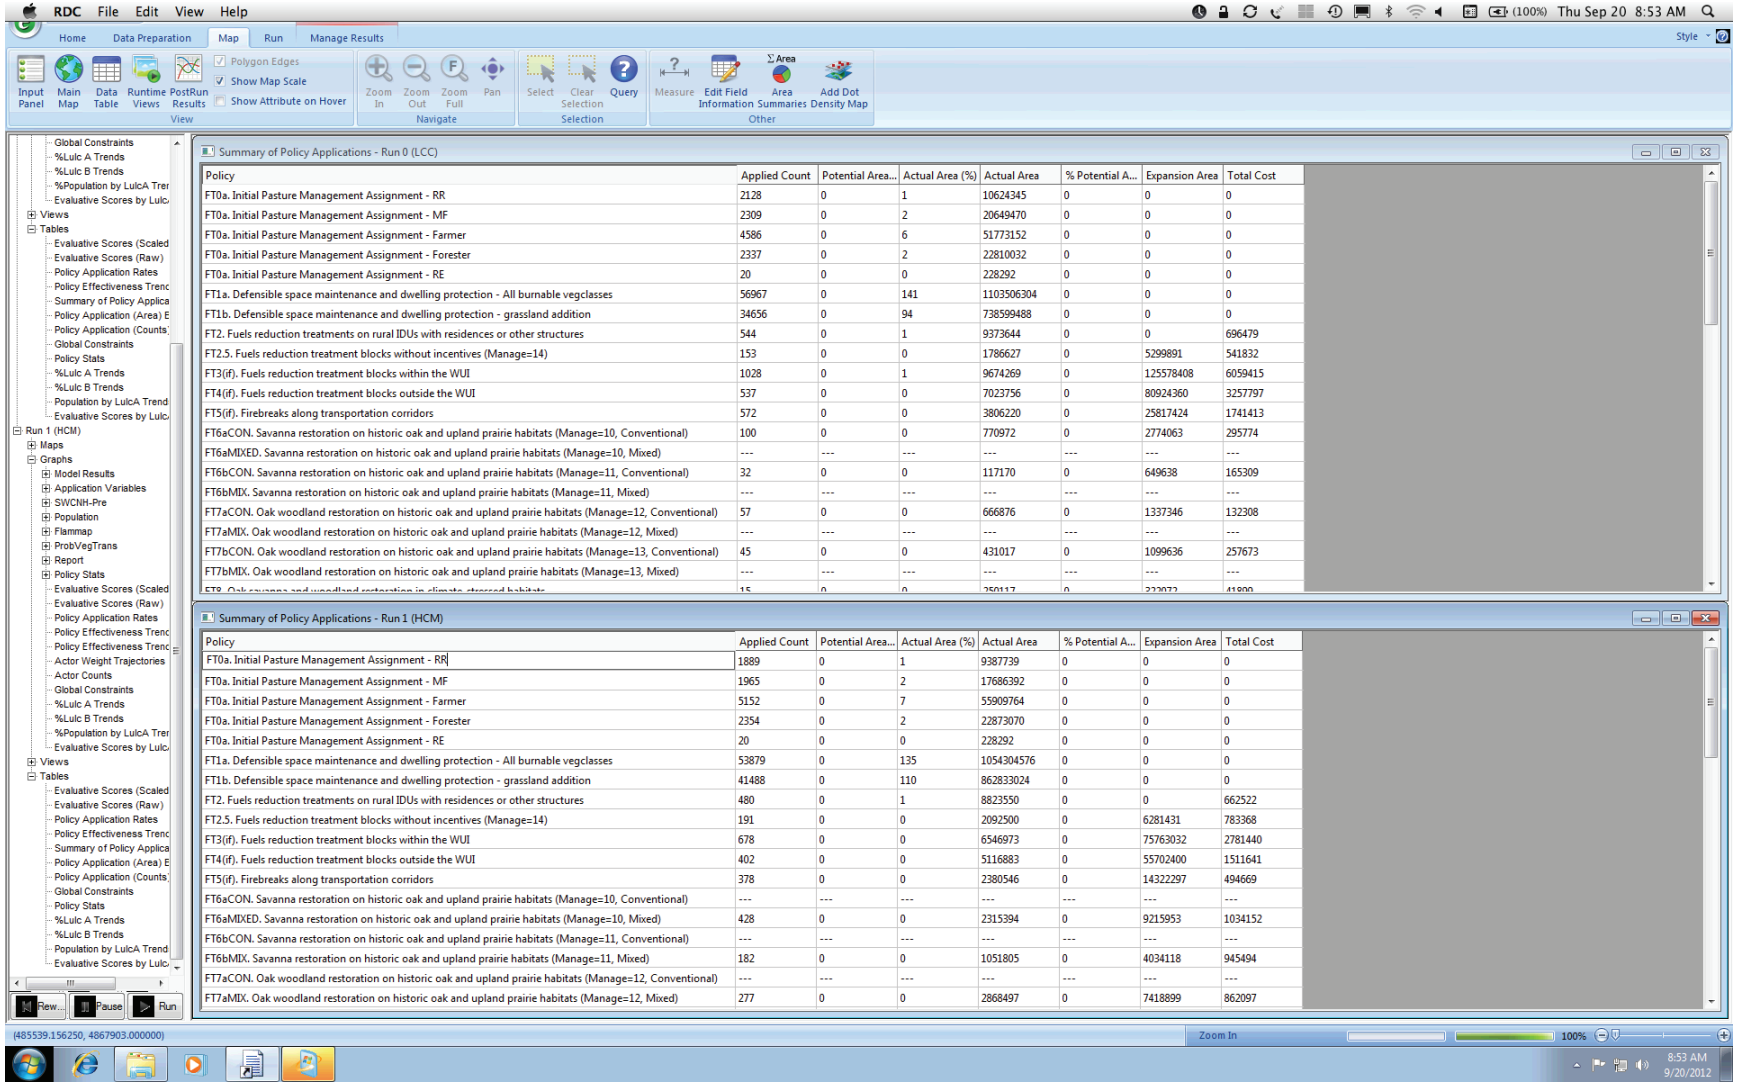


Viewing Postrun Results - comparing Graphs within a single scenario run



Viewing Postrun Results - comparing Graphs across multiple scenario runs





Viewing Postrun Results - Tables (especially Summary of Policy Applications)
