i personally believe that Republicans are more hypocritical. what about you?
user1

I feel Republicans are hyprocritical
user2

me too. Why do you believe that?
user1

I think that they are more hypocritical becuase they tend to say one thing about issues, and then do completely the other. for example in regardss to abortion, they say they are so pro life, but then when it comes to things like school shootings, they don't do anything to protect those lives.
user1

For instance they are pro gun laws whereas so many incidents are happening because are no strict gun control.An 18 year old caannot buy beer but can can buy guns that is ridclous gun control gun control
user2

yes I do agree with you
user2

I absolutely agree. However, I do not know if they are pro-gun laws, they are pro guns, but anti gun control. which is what is causing a lot of these issues. but I agree that we need gun control!
user1

They also talk so much about being patriotic but then do things like storm the capitol or try to cheat to get their way! which is not patriotic.
user1

They talk about democracy and they attack the same democracy
user2

exactly! I think they are part of the reason that our democracy has failed recently too. We cannot be a true democracy under what they are doing, yet they will never realize that. They are just very self centered and don't seem to actually care about the good of the country, just what is good for themselves.
user1

absolutely they just care about themselves
user2
