I think both parties are hypocritical. What about you?
user1

I completely agree with you, I feel like it could be applied to both parties. politicians on both sides have made promises and either failed to deliver or did the complete opposite.
user2

Yes I agree! I can't really think of issues on the top of my head but like I think one is climate change.
user1

Absolutely. People from both parties are funded by people in the fossil fuel industries.
user2

Politicians of both parties have said they will try to place more laws on materials that are bad for the environment but fail to do so when placed in office.
user1

health care is another industry too that both parties are guilty of saying they will change and then they never get around to it.
