what do you think
user1

i don't love them
user2

but i have some friends that sway that way, so i guess i kinda do love them
user2

what about you?
user2

i think republicans are more hypocritical because most of them are very christian and preach love and doing good and all that but they seem so hateful when it comes to people who think different ly than them and regarding gay rights, etc
user1

i 100% agree
