They're both very hypocritical, but if I have to choose one I'd say Republicans are more hypocritical
user1

I would say Republicans for sure. They say they care about human rights but they don't think of people who are in the working class.
user2

Why do you think they are more hypocritical?
user2

Yeah I think I agree with what you're seeing. They talk about "freedom" all the time but are actually very authoritarian
user1

Democrats can be pretty authoritarian too, but at least they recognize human rights and real freedom more often
user1

Yes! Exactly.
user2

Both are fighting for power
user2

Yeah definitely. They're very similar, even though there are definitely some differences
user1

I think humans are just hypocritical in general.
user2

Yeah it's very hard to always be consistent
user1

People are definitely hypocritical often
user1

That's a good point. I think we all try so hard to do the "right" thing but that's not humanly possible.
user2
