Hello the Republicans are obviously more hypocritical. They talk so much about being pro-life, yet they are so in love with guns. Guns only klll people and animals.
user1

I believe the Republicans are. Depending if the situation is in their favor or not, they will change the way they think. Defininatly with the gun laws.
user2

They will never budge with gun laws. They are so bought and paid for by the NRA and Gun lobbyists. They talk about prayer and value life, but they do nothing to remove all the guns from our country.
user1

Gun laws can change but the republicans will not bend and in the mean time our kids are being killed.
user2

Their only solutions is more guns in the schools, can you believe that? They want to arm everyone in the schools, teachers, more guards, its just more guns for them.
user1

Yes, the NRA I feel have their hands in the rebulcian pockets.
user2

And yet, every other country in the world does not have this problem No other country has nearly as many guns as we do. The republicans refuse to look at the other countries.
user1

I don't pretend to know the answer, but I can say what we have now is not worjing.
user2

Yes, I agree can they not look at other countries and gleem from that.
user2

They point to Chicago and say "see, they have gun laws and still shootings" but they ignore the fact that most of the guns there come from other states. There are no border checkpoints with Indinana and Wisconsin. Guns can move freely.
user1

I do think we need some regulations, at least start there.
user2

Yes we have to start removing all these guns, not adding more. The answer to pro-life is not more weapons of death!
user1

Our world is in a huge mess.
user2

We need to save lives that we have now.
