*To be released to the public at www.v-dem.net in May 2017. Note that v7 data incorporate updated coder ratings for 2012-2015, and will therefore look different from the variables in the paper, all of which were constructed with v6.2 data.

Note: all country-id's and country units are described at: https://www.v-dem.net/files/42/Country%20Coding%20Units%20v6.pdf

This file is used to create the following:

Figures 1-9
Tables 1, 2, 4, 8, 9, 10

The factor loadings and uniqueness scores contained in Table 3 are made available in the V-Dem Codebook, available at https://www.v-dem.net/en/reference/version-6-mar-2016/.
