CODEBOOK for replication of "Pork versus Policy: Experimental Evidence on Majoritarian Bargaining with Real-World Consequences," by Andrzej Baranski, Nicholas Haas, and Rebecca Morton

* All variables necessary for analysis are explained below.

Variable Name	Description
Ses_num	Unique Session Number
Treatment	Treatment Assignment (1= Pork & Policy, 2= Pork Only, 3= Policy Only, 4= Pork Only No Information, 5= Pork & Induced Policy, 6= Induced Neutral Frame, 7=Conditional Pork & Policy)
Period	Period of play (ranges from 1-8)
SubjectID	Unique subject identification number
Topic	Period topic (1= Welfare, 2= Taxes, 3= Immigration, 4= Guns)
GroupComp	Ideological composition of the group. (1= All members have the same peak preference, 2= Only two members have the same peak preference, 3= All members have different peak preferences)
Group_Topic1	Preferred Interest Group (1= Interest Group on Ideological Left, 2= Group in Middle, 3= Group on Right) for Welfare Topic
Group_Topic2	Preferred Interest Group (1= Interest Group on Ideological Left, 2= Group in Middle, 3= Group on Right) for Taxes Topic
Group_Topic3	Preferred Interest Group (1= Interest Group on Ideological Left, 2= Group in Middle, 3= Group on Right) for Immigration Topic
Group_Topic4	Preferred Interest Group (1= Interest Group on Ideological Left, 2= Group in Middle, 3= Group on Right) for Guns Topic
allocA	Proposed amount of pork to partner A
allocB	Proposed amount of pork to partner B
allocMe	Proposed amount of pork to self
donateIG	Proposed policy (1= Interest Group on Ideological Left, 2= Group in Middle, 3= Group on Right)
VT_IG1	Stated voting threshold for the interest group on the ideological left
VT_IG2	Stated voting threshold for the interest group in the ideological middle
VT_IG3	Stated voting threshold for the interest group on the ideological right
Ses_mirror	Treatment 1 session number for which preferences were induced in an induced treatment (Treatments 5 and 6)
MAA1_T1	Stated minimum acceptable amount (MAA) for the welfare topic area. For those with a preferred interest group in the middle, MAA1 represents their MAA for the interest group on the ideological left. For those with a preferred interest group on the left/right, MAA1 represents their MAA for the interest group in the ideological middle.
MAA2_T1	Stated minimum acceptable amount (MAA) for the welfare topic area. For those with a preferred interest group in the middle, MAA2 represents their

	MAA for the interest group on the ideological right. For those with a preferred interest group on the left (right), MAA2 represents their MAA for the interest group on the ideological right (left).
MAA1_T2	Stated minimum acceptable amount (MAA) for the taxes topic area. For those with a preferred interest group in the middle, MAA1 represents their MAA for the interest group on the ideological left. For those with a preferred interest group on the left/right, MAA1 represents their MAA for the interest group in the ideological middle.
MAA2_T2	Stated minimum acceptable amount (MAA) for the taxes topic area. For those with a preferred interest group in the middle, MAA2 represents their MAA for the interest group on the ideological right. For those with a preferred interest group on the left (right), MAA2 represents their MAA for the interest group on the ideological right (left).
MAA1_T3	Stated minimum acceptable amount (MAA) for the immigration topic area. For those with a preferred interest group in the middle, MAA1 represents their MAA for the interest group on the ideological left. For those with a preferred interest group on the left/right, MAA1 represents their MAA for the interest group in the ideological middle.
MAA2_T3	Stated minimum acceptable amount (MAA) for the immigration topic area. For those with a preferred interest group in the middle, MAA2 represents their MAA for the interest group on the ideological right. For those with a preferred interest group on the left (right), MAA2 represents their MAA for the interest group on the ideological right (left).
MAA1_T4	Stated minimum acceptable amount (MAA) for the guns topic area. For those with a preferred interest group in the middle, MAA1 represents their MAA for the interest group on the ideological left. For those with a preferred interest group on the left/right, MAA1 represents their MAA for the interest group in the ideological middle.
MAA2_T4	Stated minimum acceptable amount (MAA) for the guns topic area. For those with a preferred interest group in the middle, MAA2 represents their MAA for the interest group on the ideological right. For those with a preferred interest group on the left (right), MAA2 represents their MAA for the interest group on the ideological right (left).
Ethnicity	Respondent Ethnicity (White, Black, Hispanic, Asian, Other)
PartyID	Respondent Partisan Identification (Strong Democrat, Weak Democrat, Lean Democrat, Independent, Lean Republican, Weak Republican, Strong Republican)
From_Ohio	Yes/No
Foreign	Yes/No
Religion	Respondent Religion (Jewish, Muslim, Buddhist, Hindu, Atheist, Protestant, Roman Catholic, Mormon, Eastern or Greek Orthodox, Agnostic, Nothing in Particular, Something Else)
Evangelical	Yes/No

Religiosity	Respondent Religiosity (Not at all important, Not too important, Somewhat important, Very important)
Politics_Interest	Interest in politics (none, very little, some, quite a bit, a great deal)
Politics_Discussion	Discuss politics (not at all, very little, some, quite a bit, a great deal)
Politics_Knowledge	Political knowledge (not at all, very little, some, quite a bit, a great deal)
Politics_Follow	Follow politics (not at all, very little, some, quite a bit, a great deal)
Educ	Educational Attainment (Freshman, Sophomore, Junior, Senior, Graduate Student)
Gender	Respondent Gender (Male, Female, Non-binary/third gender)
Ideology	Respondent Ideology (Extremely liberal, liberal, slightly liberal, moderate/middle of the road, slightly conservative, conservative, extremely conservative)
Income	Annual family income (ranging from less than $25,000 to over $1 million)
Bargaining_PeakPref	Respondent's preferred interest group (peak preference) for a given period's topic area
A_Peak	Bargaining_PeakPref for partner A
B_Peak	Bargaining_PeakPref for partner B
VT_Preferred	A respondent's stated voting threshold for their preferred interest group in a given period
VT_NonPreferred	A respondent's stated voting threshold for their non-preferred interest groups (averaged over the two) in a given period
InMajority	Whether a respondent is in the ideological majority or minority for groups with a majority/minority composition
VT_Pref_OutGroup	A respondent's stated voting threshold for a proposer who has a different policy preference than the respondent's and who proposes the respondent's preferred policy (*Conditional Pork & Policy Treatment Only*)
VT_Pref_InGroup	A respondent's stated voting threshold for a proposer who has the same policy preference as the respondent's and who proposes the respondent's preferred policy (*Conditional Pork & Policy Treatment Only*)
VT_NonPref_Out	A respondent's stated voting threshold for a proposer who has a different policy preference than the respondent's and who does not propose the respondent's preferred policy (*Conditional Pork & Policy Treatment Only*)
VT_NonPref_In	A respondent's stated voting threshold for a proposer who has the same policy preference as the respondent's and who does not propose the respondent's preferred policy (*Conditional Pork & Policy Treatment Only*)
VT_Preferred_Me	A respondent's stated voting threshold if they were the proposer and they proposed their preferred policy (*Conditional Pork & Policy Treatment Only*)
VT_NonPreferred_Me	A respondent's stated voting threshold if they were the proposer and they did not propose their preferred policy (*Conditional Pork & Policy Treatment Only*)
MAA1	MAA1_T[#] for a given period's topic area
MAA2	MAA2_T[#] for a given period's topic area

StatusQuo	Location of Status Quo policy (either at respondent's preferred location, their second preferred location, third preferred location, equally non-preferred location, or equally non-preferred location for indifferent players with both MAAs equaling zero)
MAA_Left	Respondent's stated MAA for a given period's topic area for the interest group on the ideological left (note: respondents did not state MAAs for their preferred interest group)
MAA_Right	Respondent's stated MAA for a given period's topic area for the interest group on the ideological right (note: respondents did not state MAAs for their preferred interest group)
MAA_Middle	Respondent's stated MAA for a given period's topic area for the interest group in the ideological middle (note: respondents did not state MAAs for their preferred interest group)
A_InMajority	InMajority for partner A
B_InMajority	InMajority for partner B
Alloc_to_pref	Whether the respondent proposed their preferred policy (=1) or a policy different from their preferred policy (=0)
OneWay	Whether the respondent proposed that one member of the group should receive all the pork (=1) or proposed any other division of the pork (=0)
Accepted	Whether proposal was accepted (=1) or not (=0)
Max_Location_Left	Equals 1 if a respondent's maximum utility would be derived from proposing a policy on the left
Max_Location_Middle	Equals 1 if a respondent's maximum utility would be derived from proposing a policy in the middle
Max_Location_Right	Equals 1 if a respondent's maximum utility would be derived from a proposing a policy on the right
PredictedOwn_Indiv	Equals 1 if a respondent is predicted to propose their own policy, zero otherwise (Game-theoretic equilibrium analysis to be found in Online Appendix)
