Snow is falling, lights are glowing,

Author:

Snow is falling, lights are glowing,
Candles flicker, fires bright,
But the magic feels so hollow
When I'm alone on Christmas night.

I don't need no silver bells,
Or diamond stars to make me dream,
All the gifts on Santa's sleigh
Can't bring the joy you bring to me.

All I want for Christmas is you,
Wrapped up in my arms tonight,
Hold me close beneath the mistletoe,
Make my wish come true—
Baby, all I need is you.

Every carol sounds so empty,
Without your laughter by my side,
Though the world is full of wonder,
It don't shine without your light.

Snow is falling, lights are glowing,

Author:

I hear your voice in every whisper,
I see your face in every dream,
But now I'm lost in all the silence,
Since you walked away from me.

Time don't heal—no, it just lingers,
Like your touch upon my skin,
Every moment pulls me deeper,
Back to where we should have been.

We belong together,
Like the moonlight and the tide,
Like a song needs a melody,
Like the stars in the midnight sky.
Every heartbeat tells me,
I was never meant to lose,
No matter how far, no matter how long—
I'll always come back to you.

I try to move on, but it's empty,

There's a moment in the silence,

Author:

There's a moment in the silence,
When you're standing all alone,
And the weight of all your battles
Tries to break the strength you've known.

But the fire inside keeps burning,
Though the night feels cold and long,
Every tear is just a lesson,
Every trial makes you strong.

There's a hero deep inside you,
You don't have to be afraid,
Through the storm, you'll find the sunlight,
Through the darkness, you'll remain.
Every heartbeat, every whisper,
Holds the power to survive,
Lift your head and see the morning,
Feel the hero rise inside.

Every scar tells of a journey,

Late at night, I hear the echoes

Author:

Late at night, I hear the echoes
Of the love we used to know,
Every whisper, every shadow,
Brings me back, won't let me go.

Maybe time will change the seasons,
Maybe life will pull us apart,
But no distance, no reason
Could ever erase what's in my heart.

You'll always be my baby,
No matter where you are,
Though the tide may take you far away,
You're still written in my stars.
You'll always be my baby,
A love that won't fade away,
Even if you say goodbye tonight,
I know your heart will stay.

I still feel your arms around me,

I never got to say goodbye,

Author:

I never got to say goodbye,
Didn't know the last time was the last,
Now I'm left with all these memories,
Frozen echoes of the past.

But I feel you in the sunrise,
I hear you in the rain,
Every whisper in the stillness,
Tells me love still remains.

One sweet day, I'll see you again,
Somewhere beyond the sky,
Though you're gone, love never ends,
You're still shining in my life.
Till the moment our souls reunite,
I'll hold on to the light,
I'll keep you in my heart,
Until that one sweet day.

I see your face in every shadow,

Boy, you're talking like you know me,

Author:

Boy, you're talking like you know me,
Like we had a love so true,
But I don't even check for you,
So why you acting like I do?

I see you watching, I hear the whispers,
Running your mouth like it's fact,
But if I never even wanted you,
Why you so stuck in the past?

Why you so obsessed with me?
Writing stories, spinning dreams,
Got your fantasies running wild,
But baby, that ain't reality.
Why you so obsessed with me?
Like a shadow in the night,
You can chase but you can't catch me,
Boy, get out of my life.

Oh, you swear that you're the reason

I hear the echoes of your whisper,

Author:

I hear the echoes of your whisper,

Soft as the waves upon the shore,

But when I reach to pull you closer,

You're not here with me anymore.

I close my eyes and feel your heartbeat,

Like you never went away,

But the night is growing colder,

And I'm lost in yesterday.

Boy, you know you got me hypnotized,

Author:

Boy, you know you got me hypnotized,
Every move, every look, every little sigh,
You're making waves, yeah, I'm lost at sea,
So tell me, baby, what you gonna do with me?

Keep it slow, let the rhythm take control,
Got me feeling like I'm bout to lose it all,
Whisper low, let me feel it in my soul,
Boy, you know I crave the fall...

Touch my body, don't be shy,
Let your hands run wild tonight,
Pull me closer, take your time,
Let me feel your love ignite.
Touch my body, make me weak,
Turn my world to ecstasy,
Boy, just show me what I need,
Come and set this fire free.

Every heartbeat's like a melody,

Soft whispers in the night,

Author:

Dancing with the wind outside,
Every heartbeat feels like memories,
Fading slow with every sigh...

When you walked away, I swear the angels cried,
Lightning broke the sky, stars fell from high,
Every dream we made just disappeared,
Now the silence cuts like a souvenir.
Oh, I can't deny, love should never die,
But when you said goodbye,
I heard the angels cry...

If I could turn back time,
I'd never let you go,
I'd rewrite every line,
To bring us back home...

When you walked away, I swear the angels cried,
Lightning broke the sky, stars fell from high,
Every dream we made just disappeared,
Now the silence cuts like a souvenir.

I still hear your voice in the midnight rain,

Author:

I still hear your voice in the midnight rain,
Soft as a whisper, calling my name,
But I reach for you and you're not there,
Just an empty space, just a broken prayer.

Oh, I tried to hold on, but time won't rewind,
Every memory still lingers inside,
But I know that love never truly fades,
Even when we go our separate ways...

Bye bye, I'll see you in the stars tonight,
Every tear that falls will shine,
Like the love we left behind.
Bye bye, though it hurts, I'll be alright,
You'll live on in every light,
So this ain't really goodbye...

Every photograph, frozen in time,
Still feels so close, but you're out of sight,
I trace the edges of what used to be,
