Basic Dataverse Training for Astrophysics 10/23/2012

Thank you for joining us! Please help us improve future sessions by completing this evaluation form.

1. Please indicate your Harvard affiliation:

   ○ faculty ○ staff ○ post doc ○ grad student ○ undergraduate ○ other

2. How useful were each of the following parts of today's session?
   Please check the appropriate response:

	Minimally	Somewhat	Substantially
• Examples and Basics of Dataverse			
• Astrophysics-Specific Usages			
• Hands-on Tutorial			

3. How worthwhile was the session overall? Please check the appropriate response:

4. After attending today's session, do you intend to:

   • Create and manage a test dataverse? ○ Yes ○ No ○ Undecided

   • Create and manage a production dataverse? ○ Yes ○ No ○ Undecided

If you answered "yes" or "undecided," please continue. Otherwise, please skip to question 7.

5. For what purpose(s) are you most interested in using the Dataverse Network? Please select all that apply:

   ☐ locating data ☐ managing my data ☐ managing others' data ☐ collaborating ☐ other

6. How soon might you plan to begin using the Dataverse Network? Please place an X on the section of the line below that most closely matches your estimated time frame.

7. Please share any comments or questions related to today's session (continue on back if necessary):

8. If you would like to be contacted, please provide your contact information:
