1 Main Figures and Tables

Main Figures	File Name	Source
Figure I: Union density and inequality measures, 1935-2011	TS_freeman_inequality.pdf	timeseries_figs.do
Figure II: The share of households with a union member, comparing our survey-based measures to existing time series, 1936-1985d	main_time_series.pdf	timeseries_figs.do
Figure III: How does educational attainment predict union household status?	select_yrsed.pdf	premium_selection_figs.do
Figure IV: How does race predict union household status?	select_white.pdf	premium_selection_figs.do
Figure V: Estimates of the union family income premium	premium.pdf	premium_selection_figs.do
Figure VI: Differential family union premium by respondent's years of schooling	premium_yrsed.pdf	premium_selection_figs.do
Figure VII: Differential family union premium for whites relative to minorities	premium_white.pdf	premium_selection_figs.do
Figure VIII: Ratio of residual variance between union and non-union sectors	res_sdratio.pdf	premium_selection_figs.do
Figure IX: Actual vs. "no-unions" counterfactual income distributions	dfl_nospill_gini_yearly.pdf, dfl_nospill_density_1936_4_delta.pdf , dfl_spill_density_1968_10_delta.pdf, dfl_spill_density_2014_1_delta.pdf	runme_dfl.do
Figure X: Regressing density and inequality outcomes on the pooled policy shock variable	iv_graph_combined.pdf	IV.do

Main Tables	File Name	Source
Table I: Decomposition of Change in Gini	decomp_nospill_gini.tex, decomp_nospill_p9010.tex, decomp_nospill_p9050.tex, decomp_nospill_p5010.tex	runme_dfl.do
Table II: Aggregate inequality as a function of union density	TimeSeriesReg.tex	timeseries_tables.do
Table III: State-year inequality as a function of union density	StateYearReg_200rps_s929875384_full_tab8boot.tex	runme_st_yr_tables_boots.do
Table IV: IV estimation of changes in state union density and changes in state inequality	iv_main.tex	magnitudes.do

2 Appendix A

Appendix Figures	File Name	Source
Figure A.1: Comparing unemployment rates in Gallup and the HSUS	unemp_compare.pdf	timeseries_figs.do
Figure A.2: Age distribution in Gallup, by gender, 1937-1952	male_female_age_distribution.pdf	timeseries_figs.do
Figure A.3: Comparing household union density in Gallup and CPS, 1970–present	UnionTimeSeries.pdf	timeseries_figs.do
Figure A.4: Selection of union households by high-school graduation	select_hsgrad.pdf	premium_selection_figs.do
Figure A.5: Selection of union households by college graduation	select_logyrs_ed_anes6.pdf	premium_selection_figs.do
Figure A.6: Selection of union households by log years schooling	select_logyrsed.pdf	premium_selection_figs.do
Figure A.7: Share of union members in public sector and manufacturing	fig_pub_manuf.pdf	share_pub_manuf.do
Figure A.8: Selection of union households by education in the ANES and CPS (dropping households with a public- or manufacturing-sector worker	select_yrsed_pubman_samps.pdf	premium_selection_figs.do
Figure A.9: Selection of union households by race (dropping Southern states)	select_white_exsouth.pdf	premium_selection_figs.do
Figure A.10: Selection of union households by race (conditional on education)	select_white_yrsed.pdf	premium_selection_figs.do
Figure A.11: Selection of union households by education (conditional on race)	select_yrsed_white.pdf	premium_selection_figs.do
Figure A.12: Estimates of the union family income premium (including occupation controls when available)	premium_occ.pdf	premium_selection_figs.do
Figure A.13: Estimates of the union family income premium from ANES (with and without employment status controls)	premium_anes_emp_robustness.pdf	premium_selection_figs.do
Figure A.14: Union family income premium by race (conditional on *Yrs. schooling* $\times$ *Union*)	premium_white_unionyrsed.pdf	premium_selection_figs.do
Figure A.15: Union family income premium by education (conditional on *White*$\times$*Union*)	premium_yrsed_unionwhite.pdf	premium_selection_figs.do

Appendix Tables	File Name	Source
Table A.1: Estimating family union income premium and reporting coefficients on additional covariates, by data source and time period	union_fam_prem_covar.tex	premium_selection_tables.do
Table A.2: Estimating family union income premium using 1956-1960 ANES panel	ANES_panel_ik.tex	anes_panel_tab.do
Table A.3: Heterogeneity of the union premium	unemp_premium_numworkers2.tex	reg_fam_union_premium.do
Table A.4: Paid vacation as a function of union status (Gallup, 1949)	vacation.tex	gallup_tables.do
Table A.5: Ease of finding a job as good as the one you have	worker_surplus.tex	gallup_tables.do
Table A.6: Covariance between union density and skill shares	neg_covary.tex	skill_share_density_covary.do
Table A.7: Aggregate coll. premium, 90/10, 90/50 ratios as functions of density	ik_temp_CHSP, ik_temp_L9010M , ik_temp_L9050M ik_temp_L1050M	timeseries_tables.do
Table A.8: Aggregate Gini, top-ten, labor share of income as functions of density	ik_temp_gini , ik_temp_top10 , ik_temp_lshare_PSZ	timeseries_tables.do
Table A.9: Skill premium, percentile ratios, and Gini coefficient as a function of state-year union density	StateYearReg_2rps_s929875384_full_dep_d1_boot , StateYearReg_2rps_s929875384_full_dep_d2_boot, StateYearReg_2rps_s929875384_full_dep_d5_boot, StateYearReg_2rps_s929875384_full_dep_d6_boot, StateYearReg_2rps_s929875384_full_dep_d3_boot	runme_st_yr_tables_boots.do
Table A.10: State Year top-ten income share, Labor share as a function of union density	StateYearReg_200rps_s929875384_full_dep_d4_boot, StateYearReg_200rps_s929875384_full_dep_d9_boot	runme_st_yr_tables_boots.do
Table A.11: Log state-year income per capita as a function of union density	StateYearReg_200rps_s929875384_full_pv_d1_boot	runme_st_yr_tables_boots.do

3 Appendix B

Appendix Figures	File Name	Source
Figure B.1: Household income measures in our historical survey data compared to official statistics	mean_med_hhincome.pdf	fig_hhicome_gdp_gallup_fred.do

Appendix Tables	File Name	Source
Table B.1: Comparing Gallup and IPUMS, 1950–1980	gallup_census_compare_50_80.tex	sum_stats.do
Table B.2: Comparing Gallup and IPUMS in 1940	gallup_census_compare_1940.tex	sum_stats.do
Table B.3: Summary statistics from supplementary data sets	extra_data_sumstats.tex	sum_stats.do

4 Appendix D

Appendix Figures	File Name	Source
Figure D.1: Union share of households in the Gallup data (weighted vs. unweighted)	wgts_gallup.pdf	timeseries_figs.do
Figure D.2: Comparing individual versus household union density in CPS and ANES, 1952–present	union_den_ind_hh.pdf	premium_selection_figs_indiv.do
Figure D.3: Selection into unions by years of scholling in the CPS, individual and household measures	select_yrsed_ind_hh_cps.pdf	premium_selection_figs_indiv.do
Figure D.4:Selection into unions by education, male survey respondents only	select_yrsed_men.pdf	premium_selection_figs.do
Figure D.5: Comparing union family and individual premium in the CPS	premium_in_hh_cps.pdf	premium_selection_figs_indiv.do

Appendix Tables	File Name	Source
Table D.1: Gallup selection results through 1950, robustness to weights	weight_robustness_selection_educ.tex	gallup_tables.do

5 Appendix F

Appendix Figures	File Name	Source
Figure F.1: Income Distributions: True vs. No-Unions Counterfactual	dfl_spill_density_1936_4.pdf, dfl_spill_density_1968_10.pdf, dfl_spill_density_2014_1.pdf	runme_dfl.do
Figure F.2: Gini Coefficient In Survey Data Over Time	gini.pdf	runme_dfl.do

Appendix Tables	File Name	Source
Table F.1: Yearly Union Impact and Union Density: $\theta_{Gini} \equiv$ Gini - CF Gini	dfl_nospill_gini.tex	runme_dfl.do
Table F.2: The Impact of Unionization with and without Spillovers	decomp_both_gini.tex, decomp_both_p9010.tex, decomp_both_p9050.tex, decomp_both_p5010.tex	runme_dfl.do
Table F.3: Decomposition of Change in Gini (CPS) from Individual to Household Measure	cps_educwhiteageind7090state_iu0/decomp_nospill_gini.tex, cps_educwhiteageind7090statefemale_iu0/decomp_nospill_gini.tex, cps_educwhiteageind7090statefemale_iu1/decomp_nospill_gini.tex, cps_educwhiteageind7090state_hh/decomp_nospill_gini.tex	runme_dfl.do

6 Appendix G

Appendix Figures	File Name	Source
Figure G.1: Map of states by levels of the "Wagner" policy shock	ivmap_wagner.pdf	IV_maps.do
Figure G.2: Map of states by levels of the "war-spending" policy shock	ivmap_war	IV_maps.do
Figure G.3: Correlation of the two policy shocks	corr_ivs	IV.do
Figure G.4: Regressing density and inequality outcomes on the pooled policy shock variable	iv_graph_combined	IV.do
Figure G.5: Share of "superstar" firms that are unionized	unionshare_weighted_top4compustat_top4crsp_smooth.pdf	IV_superstar_firms.do
Figure G.6: IV effect on household unionization and selection into unions by race	iv_composite_main.pdf , iv_composite_white.pdf	IV_composite_tests.do
Figure G.7: Regressing union density on the pooled policy shocks IV	unionden2_iv_rm.pdf	IV.do
Figure G.8: Strike activity before and after the 1935 National Labor Relations Act (NLRA)	nlrb_effects.pdf	IV_strikes.do
Figure G.9: State strike activity regressed on the Wagner policy shock variable by year	strike_activity.pdf	IV.do
Figure G.10: Regressing top-ten-percent income share on the pooled policy shocks IV	top10_iv_rm.pdf	IV.do
Figure G.11: Regressing labor share on the pooled policy shocks IV	labshare_iv_rm.pdf	IV.do
Figure G.12: No sustained effect of the IV on state manufacturing share of employment during the treatment period	manuf_LHS.pdf	IV.do
Figure G.13: No systematic relationship between the IV and Democratic governorships	DemGov_LHS.pdf	IV.do
Figure G.14: Strong correlation across states in World-War-II and Korean-War defense contracts	iv2_ivkor_corr.pdf	IV.do
Figure G.15: No significant relationship between 1954-1949 changes in state-level union density and Korean-War contracts	scatter_ivkor_unionden2_5.pdf	IV.do
Figure G.16: No significant relationship between 1954-1949 changes in state-level top-ten shares and Korean-War contracts	scatter_ivkor_top10_5.pdf	IV.do
Figure G.17: No significant relationship between 1954-1949 changes in state-level labor shares and Korean-War contracts	scatter_ivkor_labshare_5.pdf	IV.do

Appendix Tables	File Name	Source
Table G.1: First-stage relationship of the policy shocks and union density	iv_1st_stage.tex	IV.do
Table G.2: Correlations of the pooled IV variable with 1920 state characteristics	iv_balance.tex	IV.do
Table G.3: Effect of union density on state-level inequality measures, IV results	2sls_main.tex	IV.do
Table G.4: Effect of union density on state-level inequality measures, reduced form results	2sls_main_reduced.tex	IV.do
Table G.5: Effect of union density on top-ten share, robustness checks	iv_top10_robust.tex	IV.do
Table G.6: Effect of union density on labor share, robustness checks	iv_labshare_robust.tex	IV.do
Table G.7: Using 1920s strikes instead of the Wagner Act variable as an IV	iv_1920s.tex	IV.do
Table G.8: Are respondents in states hit with policy shocks more likely to express pro-worker views?	norms_sep_IV.tex	IV_norms.do

7 Appendix H

Appendix Figures	File Name	Source
Figure H.1: Similarity of Shares of Capital Gains Plus Dividends and Shares of Dividends, Interest, and Rental Income.	SOI-coefficients.pdf	soi-graph.do
Figure H.2: Time Series of Aggregate Labor Share Measures	labshare_ts.pdf	labshare_appendix.do
Figure H.3: Time Series of Labor Share: High and Low Union Density states	lshare_ts_Michigan.pdf, lshare_ts_California.pdf, lshare_ts_Texas.pdf	labshare_appendix.do

Appendix Tables	File Name	Source
Table H.1: State-Year labor share of personal income as a function of union density (all years)	StateYearReg_lshare_pinc_forappen.tex	runme_st_yr_tables_boots.do
Table H.2: State-Year labor share as a function of union density (for 1963+, when we have GDP labor share)	StateYearReg_labshare_comparison.tex	runme_st_yr_tables_boots.do
