1 Variable Names and Definitions (missing data is imputed by multiple imputation)

- ROWID: the row number.
- YEAR: year Gray was issued, extracted from document.
- CTRY: name of country that issued the Gray. The Executive Director (ED) that issues the Gray hails from that country whether the country has their own ED or is the current leader of a constituency.
- CCODE: iso3c country code of the country.
- TEXT: clean text from the Gray, extracted from document.
- COUNT: a counter variable equal to 1 for each row that is used to compute the number of Grays issued by a given country in a given year.
