Supporting Measurement and Replication Techniques for Family Planning High Impact Practices (SMART-HIPs): Assessment of the Scale, Reach, Quality, and Cost of Service Delivery High Impact Practices for Family Planning

Key Informant Guide for Ministry of Health (MoH) program managers – PAFP, PDS

OVERVIEW

1. This is an assessment about High Impact Practices in Family Planning or HIPs. What does the term **High Impact Practice** mean to you?
    a. What do you know about the **HIP initiative**?

2. Today we would like to talk about the following HIPs (*read HIPs and their definition*).

HIP	**Definition**
Pharmacies and Drug Shops	Train and support drug-shop and pharmacy staff to provide a wider variety of family planning methods and information.
Postabortion family planning	Offering contraceptive counseling and services immediately after and within 48 hours of abortion.

    a. Are you aware of the **HIP brief** for any of these practices? Which ones?
    b. How have you **used** the information from **the HIP briefs**?
    c. *If knows about HIP briefs*: In general, what **additional information** could be included **in the HIP briefs** to make them more useful to you?
    d. *If does not know about HIP briefs*: In general, what **information** would you want to have **in a brief** to help inform HIP implementation?

PHARMACIES AND DRUG SHOPS

Let's start with pharmacies and drug shops (PDS).

3. To what extent are PDS included in **national plans and policies**?
    a. What **specific plans and policies** include PDS?
    b. Are PDS part of the **Costed Implementation Plan** (**CIP)** or of **FP2030 commitments**? Within **Global Financing Facility (GFF) Investment Case**?

4. How about **national guidelines or standards of practice**?
    a. What specific **documents** include PDS?
    Probe: Norms and Procedures/Protocols documents, integrated supervision guides/manuals
    b. How are these documents **intended to be used**?

5. Are there any **government-endorsed pre-service training curricula** that include PDS? How about **in-service training** curricula? Please explain.

6. To what extent are PDS integrated within the **Logistics Management Information System** (LMIS)?
    a. What are the **challenges** to capturing information related to PDS in the LMIS?

7. To what extent is information related to PDS captured in the **HMIS**? Why or why not?
    a. What are the **challenges** to capturing data on PDS in the HMIS?

8. What other types of **data and coordination mechanisms** already exist on the activities of partners supporting PDS?
    a. How much clarity do you feel you have on the **range of partners** supporting PDS?
    b. How about **areas of the country** where PDS is implemented?
    c. To what extent is there information available on the **population sub-groups** reached by PDS?
    d. Are there any data on **training**? **Supervision**? **Quality**?
    e. As you see it, what are the **main gaps** in the **information** that is currently available?
    f. How much of a **need** do you think there is for existing information and data to be made **more widely available**?

POSTABORTION FAMILY PLANNING (PAFP)

Next, let's discuss postabortion family planning (PAFP).

9. To what extent is PAFP included in **national plans and policies**?
    a. What **specific plans and policies** include PAFP?
    b. Is PAFP part of the **Costed Implementation Plan** (**CIP)** or of **FP2030 commitments**? Within **Global Financing Facility (GFF) Investment Case**?

10. How about **national guidelines or standards of practice**?
    a. What specific **documents** include PAFP?
    b. *Probe: Norms and Procedures/Protocols documents, integrated supervision guides/manuals*
    c. How are these documents **intended to be used**?

11. Are there any **government-endorsed pre-service training curricula** that include PAFP? How about **in-service training** curricula? Please explain.

12. To what extent is PAFP integrated within the **Logistics Management Information System** (LMIS)?
    a. What are the **challenges** to capturing information related to PAFP in the LMIS?

13. To what extent is information related to PAFP captured in the **HMIS**? Why or why not?
    a. What are the **challenges** to capturing data on PAFP in the HMIS?

14. What other types of **data and coordination mechanisms** already exist on the activities of partners supporting PAFP?
    a. How much clarity do you feel you have on the **range of partners** supporting PAFP?
    b. How about **areas of the country** where PAFP is implemented?
    c. To what extent is there information available on the **population sub-groups** reached by PAFP?
    d. Are there any data on **training**? **Supervision**? **Quality**?
    e. As you see it, what are the **main gaps** in the **information** that is currently available?

f. How much of a **need** do you think there is for existing information and data to be made **more widely available**?

15. Before we end our interview, do you have any **final thoughts or suggestions** for us?

Thank you for your time. We appreciate the answers you have given us.

Participant ID Number: _____

Language of interview: _____

Duration of interview (in minutes): _____

Please list the documents mentioned in the interview. For each, indicate the status:

1) description only, 2) has been shared, 3) will be shared (may require follow-up).
