"This survey is part of a research study conducted by the Michigan State University (MSU) Food Security Innovation Lab - Project in Tanzania (FSP-Tanzania) - funded by USAID and in collaboration with the Tanzania Ministry of Agriculture. The purpose of the survey is to study flour milling in two major cities in Tanzania – Dar es Salaam and Arusha, in order to make recommendations to policy makers on how to improve key food value chains. **Your identity will not be revealed. All reporting of results will be fully anonymous and confidential. Participation is voluntary, you may choose not to participate at all, or you may refuse to answer certain questions or discontinue your participation at any time without consequence. By completing this interview, you are voluntarily agreeing to participate in this study. Do you agree to continue with the interview?"**
