Grid-level coca data

The grid-level coca-growing dataset from the SIMCI project of UNODC is proprietary data of UNODC-Colombia. It was obtained by Universidad del Rosario through a university-level memorandum of understanding (MoU). UNODC does not sign such data sharing agreements with private researchers but rather with established institutions.

In sections 7 and 8 of the Second Clause of the agreement Universidad del Rosario commits not to share the information provided by UNODC and respect the proprietary nature of the data.

However, UNODC is open tu sign such MoU with any research institution, and the process is straight forward. Researchers must contact the technical coordinator of UNODC's SIMCI project, Mr. Leonardo Correa, at: leonardo.correa@unodc.org, expressing their interest in accessing the raw grid-level longitudinal data on coca-growing in Colombia.

UNODC-Colombia's contact details are:

- Addrees: Carrera 7 No. 120 - 20 Centro Empresarial Usaquén Plaza, Bogotá D.C., Colombia
- Phone: +57 (1) 646 70 00
- Fax: +57 (1) 655 60 10
