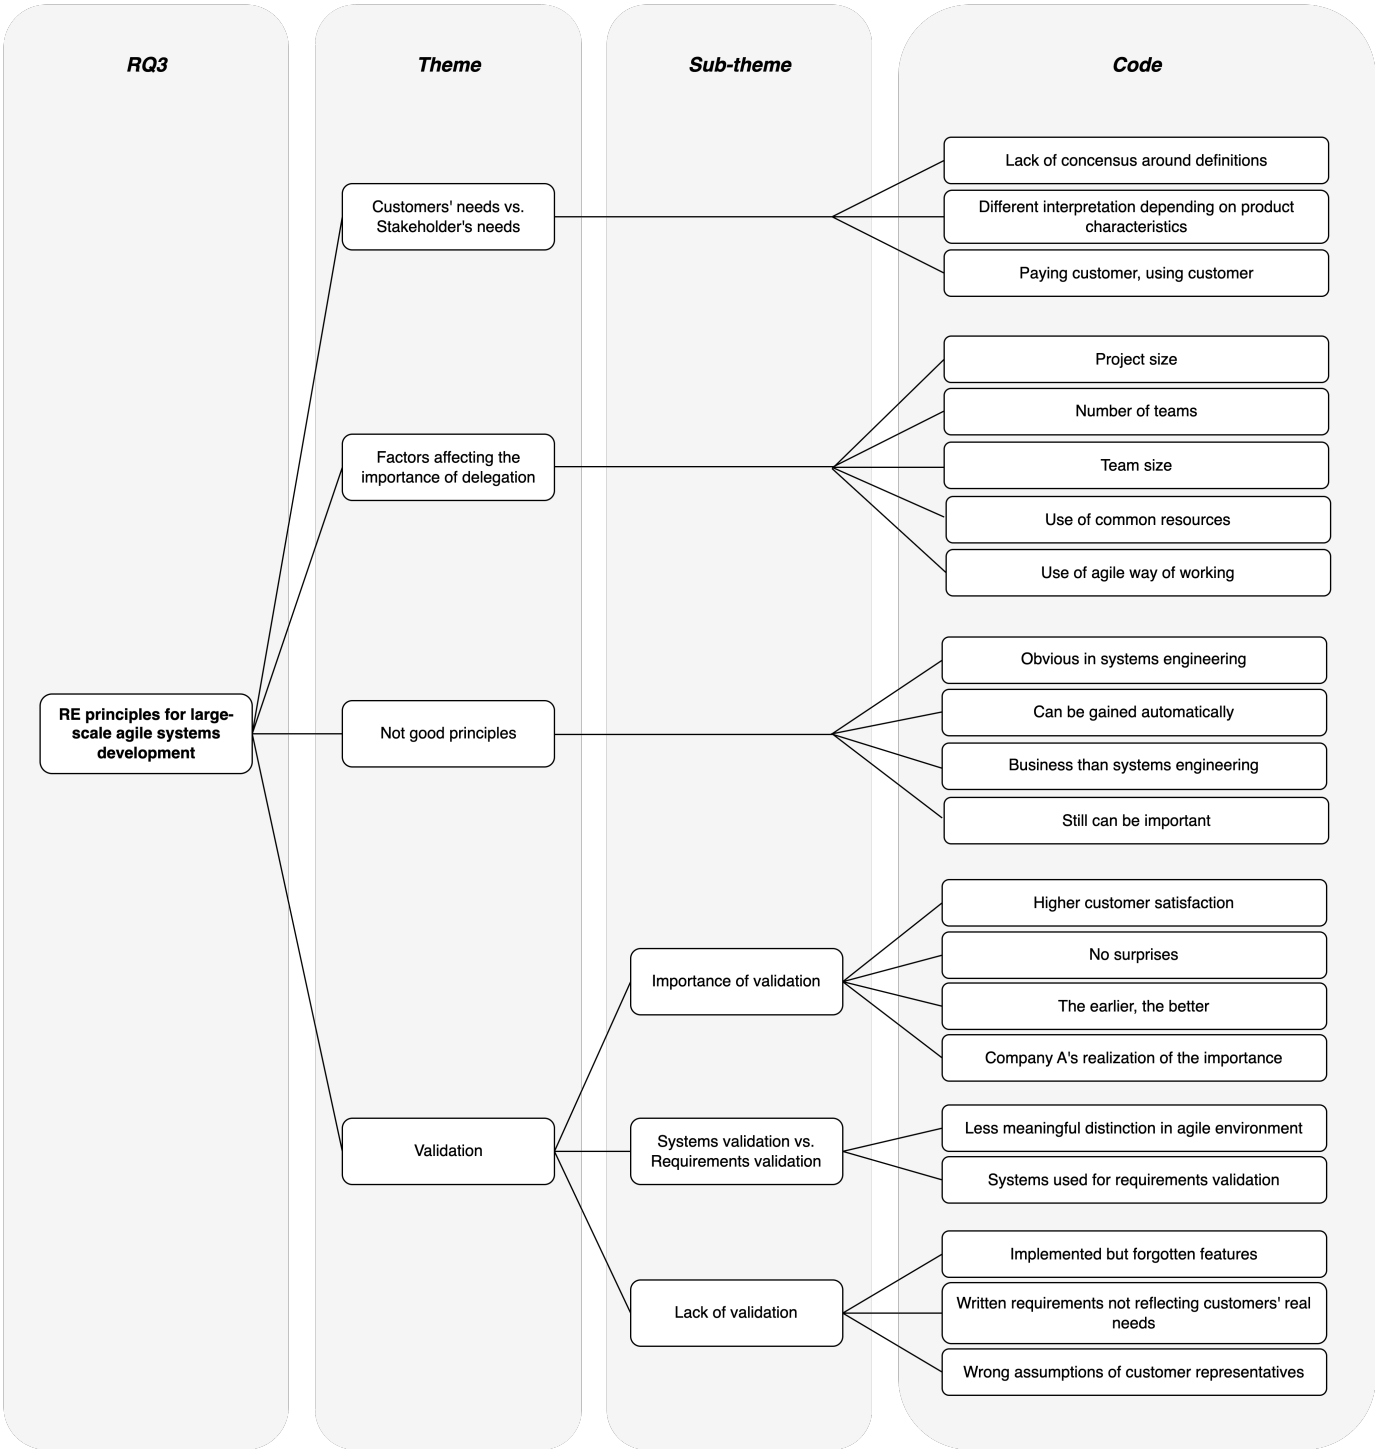
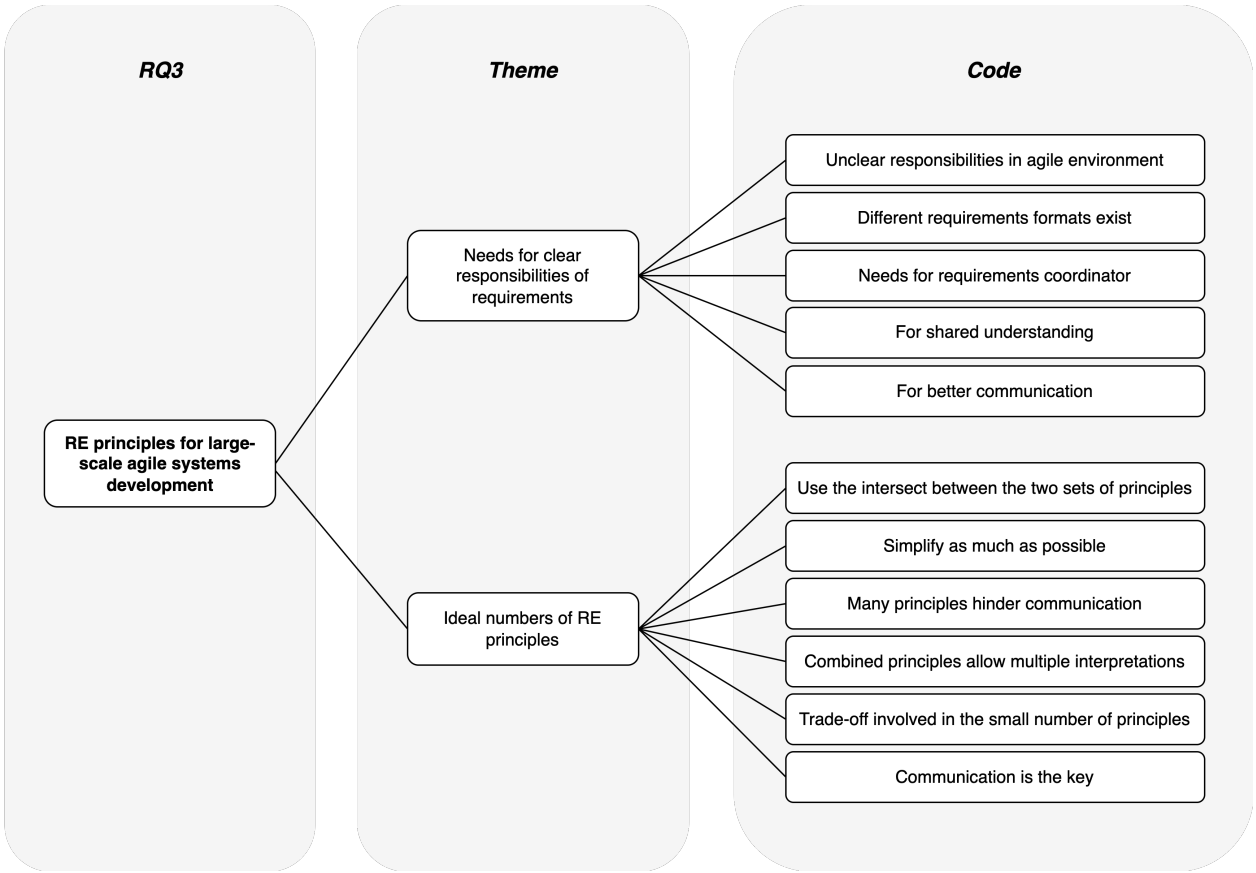
Appendix D: Thematic maps for RQ3 findings

The result of the thematic analysis of the workshop to answer RQ3 is presented in this appendix as thematic maps. Codes matching the themes are presented, and sub-themes are presented when relevant.





RQ3
Theme
Code
RE principles for large-scale agile systems development
Needs for clear responsibilities of requirements
Ideal numbers of RE principles
Unclear responsibilities in agile environment
Different requirements formats exist
Needs for requirements coordinator
For shared understanding
For better communication
Use the intersect between the two sets of principles
Simplify as much as possible
Many principles hinder communication
Combined principles allow multiple interpretations
Trade-off involved in the small number of principles
Communication is the key
