CORRIGENDUM of Switzerland's Second Biennial Report under the UNFCCC

Dear Sir or Madam

Please accept the following corrigendum in Switzerland's Second Biennial Report under the UNFCCC:
Page 79, Paragraph 4, second sentence

For: "Since the last Biennial Report Switzerland further increased its public climate finance from USD 175 million in 2012 to USD **287** million in 2014."

Read: "Since the last Biennial Report Switzerland further increased its public climate finance from USD 175 million in 2012 to USD **299** million in 2014."

Please note, that the correct number (USD 299 million) has been reported correctly in other chapters (e.g. chapter 5.7 on page 86) of the report. It equals the sum of the figures, which have been correctly reported, for mitigation, adaptation and cross-cutting climate finance in table 7_2014 of the CTF tables and are also annexed to the Biennial Report.

Yours sincerely,
Federal Office for the Environment FOEN

Dina Spörri
