Data files

The online data archive contains the following data sets in Stata 15 format:

- *firm_level.dta* provides data for the firm-level analysis of the paper. The Amadeus dataset is owned by the Bureau van Dijk and it cannot be shared for proprietary reasons. Together with the dofile *firm_level.do*, they allow to replicate the following tables:
    - Tables 1 and 2 in the main text.
    - Table B1, Table C1, Tables D1 (Models 1 and 2) and D2, Tables E1-E5, and Tables F1-F6 in the appendix.
    - Figure 3 in the main text.
    - Figures B2 and B3, Figure D1, and Figure F1.
- *individual_level.dta* provides data for the individual-level analysis of the paper. Together with the dofile *individual_level.do*, they allow to replicate the following tables:
    - Table 3 and Figure 6 in the main text.
    - Table H1 and Figures H3 and H4 in the appendix.
- *mec_wage dta* and the dofile *mec_wage.do* allow to replicate Figure 4 in the main text and Table D1 (Model 3) in the appendix.
- *mec_labor_supply dta* and the dofile *mec_labor_supply.do* allow to replicate Figure 5 in the main text and Table D1 (Model 4) in the appendix.
- *Tariff_cuts dta* and the dofile *tariff_cuts.do* allow to replicate Figures A1 and A2 in the appendix.

Note that for replicating the results in Stata, the following commands have to be installed: ivreg2, krls, outreg2, and reghdfe.
