**UK Data Archive SN 6849 - Understanding Society: Innovation Panel Waves 1-5: Special License Version**

Date: 20-June-2014

This document describes the differences between the Special License and the End User License version of SN 6931. The following show the variables that are unique to Special License (SL) compared to End User License (EUL) file by file. The variables excluded from EUL relate to day/month of birth, full SOC codes, rare country of birth/nationality occurrences. Data users should also note that the income variables have been top-coded for the EUL release.

a_youth_ip.dta
