Readme for "College Counseling in the Classroom: Randomized Evaluation of a Teacher-Based Approach to College Advising"

Thank you for your interest in my project. The data for this project is proprietary and owned by the Michigan Department of Education (MDE) and Michigan Center for Educational Performance and Information (CEPI). To apply for access to these data, see the Michigan Education Research Institute (MERI) website (https://miedresearch.org/).

The .do file I have posted, "Hyman_final_analysis_College_Counseling_in_the_Classroom_JOLE_12_17_24.do," brings in the data and creates all of the tables and figures in the paper and online appendix. I have also posted a .do file qvalues_code.do, which is called in the above main .do file.

If you have been given access to the data and are trying to replicate the tables and figures, and are running into any issues or have questions that I can help with, please reach out to me at jhyman@amherst.edu or see my website (https://public.websites.umich.edu/~jmhyman/index.html) for my current email address.

Thank you again for your interest in this paper, and please feel free to be in touch!

All my best,

Josh Hyman
Associate Professor of Economics
Amherst College
