sort of like a FB notification. this might improve continuity in the deliberations, since right now it's up to people to check back on their own to see if anyone has responded to their threads. thanks! mala

Hi Mala,

I believe it is possible to do this. When you're reading a topic/thread, go to the gear icon, and then choose "Subscribe to this post." Then in the upper righthand corner of your screen, go to "Notifications" and then click on "Settings." There's a setting to be emailed when someone responds to a post you've subscribed to. Let me know if this doesn't work.

Alan
