# Do Personality Traits Predict Voter Attitudes When Politics Is Structured Around Conflict? Lessons From Israel

*Public Opinion Quarterly*

Replication Materials (August 2023)

Naama Rivlin-Angert
Tel Aviv University
naamarivlin@mail.tau.ac.il

Alon Yakter
Tel Aviv University
ayakter@tauex.tau.ac.il

Lior Sheffer
Tel Aviv Univrsity
liorsheffer@tauex.tau.ac.il

The replication package includes the following files:

Replication codes for tables and plots

1. ***Angert-Rivlin, Yakter, Sheffer POQ - main regressions code.do***: a Stata do file detailing the analysis code for the primary regression models (table 3) and related robustness tests (Table E1, data used to plot figures E1 and E2)
2. ***Angert-Rivlin, Yakter, Sheffer POQ - mediation analysis code.R***: an R code file detailing the analysis code for the mediation analysis (Table 4) and related sensitivity analyses (Figures F1 and F2).
3. ***Angert-Rivlin, Yakter, Sheffer POQ - Figure 1 code.R***: an R code file detailing the code used to plot Figure 1.
4. ***Angert-Rivlin, Yakter, Sheffer POQ - Figure 2 code.R***: an R code file detailing the code used to plot Figure 2.
5. ***Angert-Rivlin, Yakter, Sheffer POQ - Figure E1 code.R***: an R code file detailing the code used to plot Figure E1.
6. ***Angert-Rivlin, Yakter, Sheffer POQ - Figure E2 code.R***: an R code file detailing the code used to plot Figure E2.

Data files

7. ***Angert-Rivlin, Yakter, Sheffer POQ - main survey data.dta***: a Stata data file including the main survey variables used for the primary analyses. The file includes recoded variables, please contact the authors for queries about the raw data.
8. ***Angert-Rivlin, Yakter, Sheffer POQ - figure 1 data.csv***: a comma-separated values (CSV) file including the relevant data for Figure 1. The file includes coefficients and standard errors extracted from the primary models detailed in the main regressions analysis code.
9. ***Angert-Rivlin, Yakter, Sheffer POQ - figure 2 data.csv***: a comma-separated values (CSV) file including the relevant data for Figure 2. The $R^2$ values from the HEXACO models are extracted separately; the raw data used for these models are not included in this package as they belong to other researchers (Lee et al. 2018, see full reference in paper).

10. ***Angert-Rivlin, Yakter, Sheffer POQ - figure E1 data.csv***: a comma-separated values (CSV) file including the relevant data for Figure E1. The file includes descriptive statistics extracted from the primary survey data as detailed in the main regressions analysis code.
11. ***Angert-Rivlin, Yakter, Sheffer POQ - figure E2 data.csv***: a comma-separated values (CSV) file including the relevant data for Figure E1. coefficients and standard errors extracted from the primary models detailed in the main regressions analysis code.
