README file for "Complementary Partners? Attitudes toward Multi-Actor Development Projects in the Democratic Republic of Congo"

Conditionally accepted, *Journal of Politics*

Austin Strange, Elizabeth Plantan, and Wendy Leutert

Last updated: 8 August 2023

This file provides information about all files included for replication purposes, including file names and brief descriptions.

The latest versions of these files were produced on a Mac operating system. Replication data were processed using R/R Studio (Version 2023.06.0+421 (2023.06.0+421)).

List of files:

Codebook:

"SPL_Codebook.pdf": List of variable names and definitions for variables included in below datasets.

Datasets:

"SPL_4August23.csv": Full dataset for primary analysis. Per JOP replication guidelines, all variables from the dataset not used in the manuscript's analysis have been removed.

"SPL_Cooperation_4August23.csv": Subsetted data of respondents in cooperation (multi-actor) treatment groups.

"SPL_CooperationNeg_4August23.csv": Subsetted data of respondents in cooperation (multi-actor) treatment group with negative externality.

"SPL_NoExt_4August23.csv": Subsetted data of respondents in treatments group with no externalities.

Code:

"SPL_JOP.R": This file includes all code needed to replicate, using the above datasets, statistical results reported in figures and tables printed in the manuscript and supporting information (appendices).

Log:

"SPL_ReplicationCode_Log.log": This file contains a log produced from running the above R script, showing that the files run smoothly.

Replication instructions:

1. Download all files into a common directory. Run "SPL_JOP.R."
2. You may need to install the following packages: "arsenal," "broom," "cobalt," "dplyr," "ggplot2," "MASS," "plyr," "stargazer," "tidyr," "vtable," and "xtable."
