lb_clean.RData

variable	description
idenpa	Country code (LB)
COUNTRY	Country name
ciudad	LB city code
district_code	MR district code
ipums_code	IPUMS district code
SEX	Gender (LB)
AGE	Age (LB)
EDATTAIN	Educational attainment (LB)
UNEMPLOYED	Employment status (LB)
salary_covers_needs	Does your salary cover your needs? (LB)
crim_presence	Criminal presence (LB)
crim_gov	Criminal governance (LB)
crim_extortion	Criminal extortion (LB)
police_corrupt	Are police corrupt? (LB)
local_gov_responsive	Would local authorities listen to your complaints? (LB)
confidence_government	How confident are you in government? (LB)
pop	Country population
wt	Survey weight (LB)
stratum_id	Survey stratum ID (LB)

district_covars.RData

variable	description
district_code	MR district code
police_bases	Police bases per million residents
mil_bases	Military bases per million residents
schools	Schools per million residents
hospitals	Hospitals per million residents
post_offices	Posts offices per million residents
population	District population (IPUMS)
luminosity	District luminosity
area	District area
road_length	Total length of roads in district
road_density	District road density
pop_density	District population density
log_population	Log district population
luminosity_pc	Per capita district luminosity
presence_pca	1st principal component of state presence
coercive_presence_pca	1st principal component of coercive state presence

district_covars_raw_ipums_codes.Rdata

[Same as district_covars.RData except using ipums_code instead of district_code]

census_binned.RData

district_code	MR district code
SEX	Gender (IPUMS)
AGE	Age (IPUMS)
EDATTAIN	Educational attainment (IPUMS)
UNEMPLOYED	Employment status (IPUMS)
proportion	Proportion in bin
luminosity_pc	District luminosity per capita
road_density	District road density
log_population	Log district population

qual_coding.RData

country	Country code
district_code	MR district code
crimgov_qual	Qualitative coding of criminal governance (binary)
geometry	District geometry
