The package contains the following files:

Fairness and competition.qsf: this file contains the Qualtrics survey and can be uploaded and opened in Qualtrics.

Full set of screenshots from Qualtrics survey.pdf: this file contains a complete set of screenshots from the Qualtrics survey that contain all of the experimental instructions.

EXEX.do: the Stata do-file that imports and cleans the data and generates all the analyses reported in the paper.

Raw data (for import).xlsx and Raw data 2 (for import).xlsx: these files contain the raw data. The program in the do-file imports these files into Stata.
