Variable: ETHDEFS Card: 2 Column(s): 4

(If R asked for race definitions in RACELONG, then read the following:)

AMERICAN INDIAN OR ALASKAN NATIVE: A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition. ASIAN OR PACIFIC ISLANDER: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa. BLACK: A person having origins in any of the black racial groups of Africa. HISPANIC: A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race. WHITE: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East. A person of mixed racial or ethnic origin should be classified according to the way he or she is recognized in their community. If R demurs, do not insist. Do the best you can and describe any dilemmas in a note.

Some people say that it is only fair that in a society like ours, people holding public office should have roughly the same racial or ethnic background as the population as a whole. So, for example, if 30% of the people were Hispanic, then 30% of the public officials should be Hispanic as well. Others say that in choosing people for public office they should be considered purely on the basis of their ability without regard to their ethnic or racial background. What about people in Congress? Should they have the same racial or ethnic background as their constituents, or should they be considered purely on the basis of their ability without regard to their racial or ethnic background?
