Replication of "The Effect of Personalized Feedback on Small Enterprises' Finances in Uganda" by Antonia Grohmann, Lukas Menkhoff, Helke Seitz

Stata do-files:

- There is one do-file for each Table (and each Panel), do-files are labelled according to numbering of Tables in the Paper
- The data files are loaded within each single do-file, path to working directory must be set.

Stata data files:

- There are three different data files:
    - One for short-term analysis: Uganda_shortterm.dta
    - One for short-term analysis incl. attriter: Uganda_attriter.dta
    - One for long-term analysis: Uganda_longterm.dta

Stata ado files:

- est2vec, est2extlbl, est2tex8
