Annotation
Provides a technical review of the coverage and quality of inmate cause of death data collected under BJS's Deaths in Custody Reporting Program (DCRP).

Abstract
Provides a technical review of the coverage and quality of inmate cause of death data collected under BJS's Deaths in Custody Reporting Program (DCRP). Records of inmates who died in jail and prison from 2007 to 2010 were matched to the National Death Index (NDI). This report examines match rates, compares underlying cause of death, and assesses sources of disagreement between the DCRP and NDI.
