June 20, 2015

Replication information for Hassner and Wittenberg, “Barriers to Entry: Who Builds Fortified Boundaries and Why?” *International Security* 40.1.

The Stata replication data file is: barrierstoentry.dta

The Stata code to replicate the analyses in the paper is: replication.do

The State code that describes how we computed our terrorism variables is: terrorismvars.do (This code does NOT need to be run to replicate our analyses; it is provided merely for reference.)
