# Protecting the Right to Discriminate Replication ReadMe

*Tyler T. Reny and Benjamin J. Newman*

Updated: June 13, 2018

## Overview

This folder contains the data to replicate all tables and figures in:

> Reny, Tyler and Benjamin Newman. 2018. "Protecting the Right to Discriminate: The Second Great Migration and Racial Threat in the American West." American Political Science Review.

Prior to executing the script, you should set your working directory to where you downloaded the files from Dataverse. See line 92 of the R replication script.

Questions? Please contact Tyler Reny (ttreny@gmail.com).

## Files

`replication_reny_newman_apsr.r` includes the code to replicate all of the tables and figures in the manuscript and online appendix.

`clean_data_final_reny_newman.csv` contains the primary data for all analyses.

`ca_county_shp`, `cb_2016_us_state_500k` and `pl06_d90_shp-1` are all shape file documents that the necessary items to create maps and calculate distances between centroids of cities. These files need to be placed inside a folder titled `ca_county_shp`, `cb_2016_us_state_500k` and `pl06_d90_shp-1` respectively before the code will run properly.

`ca_field_6405.csv`,`ca_field_6405.csv`, and `ca_field_6405.csv` are California field poll datasets from 1964. These can be found at http://sda.berkeley.edu/sdadata/calpolls/

The remaining csv files include a variety of census measured variables used in analyses in the online appendix.
