gp01 - GP01: Feeling about business executives

GP01: Feeling about business executives

GP01: Next, I'd like to get your feelings toward some groups of people who are in the news these days. I will use something we call the feeling thermometer and here is how it works.
I'l read the name of a group and I'd like you to rate that group using the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the group. This means that the closer to 100 degrees the more favorable your feelings. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the group and that you don't care too much for that group. This means that the closer to 0 is more unfavorable.
If we come to a group whose name you don't recognize, you don't need to rate the group. Just tell me and we'll move on to the next one.
If you do recognize the name, but you don't feel particularly warm or cold toward it, you would rate the group at the 50 degree mark.
Our first group is business executives.
