An official website of the United States government Here's how you know

XML downloads in CAMPD bulk files are currently experiencing intermittent query failures or freezes. If your query fails, please try again later. This alert will be removed once the issue is resolved.

CAMPD Clean Air Markets Program Data
A program of the U.S. EPA

Tutorials

Learn more about the data and data access methods available in CAMPD using the guides below.

If a guide does not provide the solution you need, reference the FAQs and/or the Contact Us pages.

Quick Start Guides:

Custom Data Download: A brief overview of the Custom Data Download tool to build queries of apportioned emissions, allowance and compliance data.

Data Guides:

Allowance Data Guide: A basic introduction to EPA's active and retired market-based programs offering context to allowance allocation, trading, and tracking.

Emissions Data Guide: An overview of CAPD's Power Sector Emissions Data and how it is collected and quality assured.

Data Caveats: This spreadsheet lists data caveats that exist in facility and/or emissions data downloaded through CAMPD queries or bulk data. Caveats may include facility name

changes and unit ID changes, for example.

Webinars:

CAMPD Walkthrough (2-8-2023): This presentation provides a walkthrough of CAMPD's recent updates to its various tools including the Custom Data Download Tool, new Bulk Data Files system, CAM APIs, and the newly release Visualization Gallery. The document contains questions and answers from the session and a link to the webinar recording. (Webinar Transcript Download)

CAMPD Walkthrough (8-11-2022): This presentation provides background on the CAPD re-engineering effort and a walkthrough of CAMPD's basic features. These include the Custom Data Download Tool, Bulk Data Files, CAM APIs, and Help/Support pages. The last slide of the presentation contains a record of the questions/answers received during the webinar. (Webinar Transcript Download)

Other:

Substitute Data: Analysis exploring the use of measured and substitute data between 2015 and 2019. The analysis finds that substitute data represents a minor portion of the total reported data.

EIA Data Crosswalk: Table matching key EPA and Energy Information Administration (EIA) identifiers assigned to power plants and electric generating units.

Projected Units Report: A list of projected units based off the latest information reported to CAPD.
