CAMPD Clean Air Markets Program Data
A program of the U.S. EPA

Power plant emissions, compliance, and allowance data

EPA's power plant programs reduce air pollution from power plants to help protect human health and the environment. EPA collects comprehensive CO_2, NO_x, SO_2, and mercury emissions data, and makes it publicly available, along with compliance and allowance data, and individual power plant details. You can explore the data here in CAMPD. Learn more about our programs, additional data and tools at Clean Air Power Sector Programs.

2024 Fourth Quarter Emission Files Received
50%
Last Updated January 21, 2025 at 09:15 am EST

What's New?

- **Emissions Data Update** Q3 2024 emissions data is available! (As of November 2024)
- View the Tutorials for data & quick start guides on using CAMPD's new features
- Sign-up for CAMPD's email list EXIT for updates on future releases & functionality
- Help us continue to improve this new application by submitting a comment/question through the Contact Us form

Data

Create custom queries, download bulk datasets and use the CAM API to retrieve emissions, allowance and compliance data.
