Communes, Census 2011 - Administrative Units - Data set

This data set shows pan European communal boundaries depicting the situation at the Census 2011. Inland waters are merged with assocaited LAUS. The data set is based on the EuroBoundaryMap version 6 and 6.2 from EuroGeographics, census wards from UK National Statistics for Northern Ireland. The scale of the dataset is 1:1,000,000 and has been generalised from the initial 100,00 scale. Geographical coverage includes the European Union, Candidiate countries EFTA countries. A dataset showing census unit centroids is also available

Lineage	Statement Data was derived from EBM 6.0 and EBM 6.2 for specific countries. Census codes for Northern Ireland do not match LAU codes but a lookup is included. Geometry is not available for Greece at LAU2 level, therefore is not

included in this dataset

For Scotland - there are 7 single-memeber wards (LAU2) are split into 2 units wi identical names but different Census codes - which covers 14 census units. The geometry for the census units in these areas is not available and it is suggested the user sums any statistics for these areas.

These Units in include:

Arrochar, Luss, Arden and Ardenconnel = S31000422 + S31001141

Dornoch Firth = S31001035 + S31001051

Beauly and Strathglass = S31001034 + S31001052

Finderne = S31001086 + S31001098

Heldon and Laich = S31001088 + S31001100

Rural Keith and Rothes = S31001089 + S31001112

Largs West and Cumbrae = S31000576 + S31001114

In several area LAU2 units have been merged to create Census Units - notably i Ireland
