"Self-Selection Into Corrupt Judiciaries"
Journal of Law, Economics, & Organization
Jordan Gans-Morse
May 21, 2021

Contents:

Part 1: Tables and Analyses

a. Codebook (Word file)
b. DataForFigure1 (Excel file)
c. CleanDataSet (CSV data file)
d. StataCodeForTables (Stata do file)

Notes: Files (a) - (d) provide materials to replicate tables and figures in the article manuscript. File (b) provides the data used in Figure 1. Tables 1-4 can be reproduced by loading file (c) and running the Stata do file (d).

Part 2. Data Preparation

e. RawDataSet (Excel data file)
f. RCodeForCleaning (R code file)

Notes: Files (e) is the original raw data and file (f) provides R code for transforming the raw data into the variables used in the article and for creating the dataset in file (c).

All analyses using R were run on R 4.0.2. All analyses using Stata were run on Stata/SE 14.0 for Mac.
