# REPLICATION FILES FOR

# "POLITICAL PREDISPOSITIONS, NOT POPULARITY: PEOPLE'S PROPENSITY TO INTERACT WITH POLITICAL CONTENT ON FACEBOOK"

*November 2020*

This document describes the files needed to reproduce the results reported in the article *"Political Predispositions, not Popularity: People's Propensity to Interact with Political Content on Facebook."*

The replication files are as follows:

1. **170411 Final dataset SoMePol DEL1.dta**: Raw survey data as delivered by the survey company (Stata format: .dta)
2. **Political_predispositions_analyses.do**: A Stata do-file, used to produce all of the empirical results reported in the article
3. **Log_political_predispositions.txt**: A log file, documenting that that the do file executes correctly on the dataset

To reproduce the results:

1. Download and save replication files in "C:\Political predispositions"
   (if saved elsewhere, minor adjustments are needed in the Stata do-file)
2. Run the Stata do-file **Political_predispositions_analyses.do**
